- (a) limiting or prohibiting the importation from the territory of the other Party of such good of that non-Party; or
- (b) requiring as a condition of export of such good of the Party to the territory of the other Party, that the good not be re-exported to the non-Party, directly or indirectly, without being consumed in the territory of the other Party.

5. In the event that a Party adopts or maintains a prohibition or restriction on the importation of a good from a non-Party, the Parties, on the request of a Party, shall consult with a view to avoiding undue interference with or distortion of pricing, marketing, or distribution arrangements in the other Party.

CHAPTER THREE

RULES OF ORIGIN

Article 301: Originating Goods

Except as otherwise provided in this Chapter, a good shall originate in the territory of a Party where:

- (a) the good is wholly obtained or produced entirely in the territory of one or both of the Parties, as defined in Article 318;
- (b) the good fulfills the requirements set out for that good in Annex 301 as a result of production occurring entirely in the territory of one or both of the Parties;
- (c) the good is produced entirely in the territory of one or both of the Parties, exclusively from originating materials; or
- (d) except as provided in Annex 301 or except for a good of Chapters 01 through 21, headings 39.01 through 39.15 or Chapters 50 through 63 of the Harmonized System, the good is produced entirely in the territory of one or both of the Parties but one or more of the non-originating materials used in the production of the good cannot satisfy the requirements set out in Annex 301 because both the good and the non-originating materials are classified in the same subheading, or heading that is not further subdivided into subheadings, provided that the value of the non-originating materials classified as or with the good does not exceed 55 per cent of the transaction value of the good;

and the good satisfies all the other applicable requirements of this Chapter.

Article 302: Minimal Operations

Except for sets or assortments of goods referred to in Article 310 or Annex 301, a good shall not be considered to be an originating good merely by reason of one or more of the following operations:

- (a) packaging, re-packaging or breaking up for retail sale of the good;
- (b) oiling, or applying anti-rust paint or protective coatings to the good;
- or
- (c) disassembly of the good into its parts.

Article 303: Value Test

1. Except as provided in paragraph 2, where the applicable rule of origin in Annex 301 for the tariff provision under which a good is classified specifies a value test, the value test shall be satisfied provided the value of non-originating materials used in the production of the good does not exceed a given percentage of the transaction value of the good.

2. For purposes of a good classified under headings 87.01 through 87.08, at the choice of an exporter or a producer of such good, the value test shall be satisfied provided the value of non-originating materials used in the production of the good does not exceed a given percentage of either the transaction value or the net cost of the good.

3. The value of non-originating materials used by the producer in the production of a good shall not, for purposes of satisfying the value test under either paragraph 1 or 2, include the value of non-originating materials used to produce originating materials that are subsequently used in the production of the good.¹

4. For purposes of calculating the net cost of a good under paragraph 2, the producer of the good may:

- (a) calculate the total cost incurred with respect to all goods produced by that producer, subtract any sales promotion, marketing and after-sales service costs, royalties, shipping and packing costs, as well as non-allowable interest costs that are included in the total cost of all such goods, and then reasonably allocate the resulting net cost of those goods to the good;
- (b) calculate the total cost incurred with respect to all goods produced by that producer, reasonably allocate the total cost to the good, and then subtract any sales promotion, marketing and after-sales service costs, royalties, shipping and packing costs and non-allowable interest costs that are included in the portion of the total cost allocated to the good; or

¹ Paragraph 3 applies to intermediate materials. The “value of non-originating materials” in paragraphs 1 and 2 shall not include:

- (i) the value of any non-originating materials used by another producer to produce an originating material that is subsequently acquired and used in the production of the good by the producer of the good, or
- (ii) the value of non-originating materials used by the producer to produce an originating intermediate material.

- (c) reasonably allocate each cost that forms part of the total cost incurred with respect to the good so that the aggregate of these costs does not include any sales promotion, marketing and after-sales service costs, royalties, shipping and packing costs, or non-allowable interest costs.²

Article 304: Value of Materials

1. For purposes of Articles 303 and 307, the value of non-originating materials, including non-originating component goods referred to in Article 310, shall be:

- (a) the transaction value or the customs value of the materials at the time of their importation into a Party, adjusted, if necessary, to include freight, insurance, packing and all other costs incurred in transporting the materials to the place of importation; or
- (b) in the case of domestic transactions, the value of the materials determined in accordance with the principles of the Customs Valuation Agreement in the same manner as international transactions, with such modifications as may be required by the circumstances.

2. Notwithstanding paragraph 1, the value of an intermediate material shall be:

- (a) the total cost incurred with respect to all goods produced by the producer of the good that can be reasonably allocated to that intermediate material; or

² For greater certainty, sales promotion, marketing and after-sales service costs, royalties, shipping and packing costs, and non-allowable interest costs included in the value of materials used in the production of the good shall not be subtracted out of the net cost in the calculation under paragraph 2.

- (b) the sum of all costs that comprise the total cost incurred with respect to that intermediate material that can be reasonably allocated to that intermediate material.

Article 305: Intermediate Materials Used In Production

1. If a non-originating material satisfies the requirements set out in Article 301 in the territory of one or both of the Parties, the resulting good shall be considered as originating and no account shall be taken of the non-originating material contained therein when that good is used in the subsequent production of another good.
2. For purposes of determining the origin of a good, a producer of a good may designate any intermediate material as a material to be taken into account as an originating or non-originating material, as the case may be, in determining whether the good satisfies the applicable requirements of the rules of origin.

Article 306: Accumulation

1. For purposes of determining whether a good is an originating good, a good originating in the territory of one or both of the Parties shall be considered as originating in the territory of either of the Parties.
2. For purposes of determining whether a good is an originating good, the production of the good in the territory of one or both of the Parties by one or more producers shall, at the choice of the exporter or producer of the good for which preferential tariff treatment is claimed, be considered to have been performed in the territory of either of the Parties by that exporter or producer, provided that:
 - (a) all non-originating materials used in the production of the good satisfy the requirements set out in Annex 301 entirely in the territory of one or both of the Parties; and

(b) the good satisfies all other applicable requirements of this Chapter.

3. Subject to paragraph 4, where each Party has a trade agreement that, as contemplated by the WTO Agreement, concerns the establishment of a free trade area, with the same non-Party, the territory of the non-Party shall be deemed to form part of the territory of the free trade area established by this Agreement, for purposes of determining whether a good is an originating good under this Agreement.

4. A Party shall give effect to paragraph 3 only once provisions with effect equivalent to paragraph 3 are in force between each Party and the non-Party. The Parties may agree to limit such provisions to specified goods or to apply under specified conditions.

Article 307: De Minimis

1. Except as provided in paragraphs 2 through 4, a good shall be considered to be an originating good if the value of all non-originating materials used in the production of the good that do not undergo an applicable change in tariff classification set out in Annex 301 does not exceed 10 per cent of the transaction value of the good, provided that:

- (a) if the rule of origin of Annex 301 applicable to the good contains a percentage for the maximum value of non-originating materials, the value of such non-originating materials shall be included in calculating the value of non-originating materials; and
- (b) the good satisfies all other applicable requirements of this Chapter.

2. Paragraph 1 does not apply to a non-originating material used in the production of a good of Chapters 01 through 21 of the Harmonized System unless the non-originating material is provided for in a different subheading from the good for which origin is being determined under this Article. Nevertheless, paragraph 1 does apply when the good and the non-originating material are classified in the same subheading, provided that the material is different from the good.

3. A good of Chapters 50 through 60 of the Harmonized System that does not originate because certain non-originating fibres or yarns used in the production of the good do not fulfil the requirements set out in Annex 301, shall nonetheless be considered an originating good if the total weight of all such fibres or yarns does not exceed 15 per cent of the total weight of that good.

4. A good of Chapters 61 through 63 of the Harmonized System that does not originate because certain non-originating fibres or yarns used in the production of the component of the good that determines the tariff classification of that good do not fulfil the requirements set out for that good in Annex 301, shall nonetheless be considered an originating good if the total weight of all such fibres or yarns in that component does not exceed 15 per cent of the total weight of that component.

Article 308: Fungible Goods and Materials

1. For purposes of determining whether a good is an originating good:
 - (a) where originating and non-originating fungible materials are used in the production of a good, the determination of whether the materials are originating materials may be made in accordance with any of the inventory management methods recognized in, or otherwise accepted by, the Generally Accepted Accounting Principles of the Party in which the production is performed; and

- (b) where originating and non-originating fungible goods are physically combined or mixed in inventory in a Party and exported in the same form to another Party, the determination of whether the good is an originating good may be made in accordance with any of the inventory management methods recognized in, or otherwise accepted by, the Generally Accepted Accounting Principles of the Party from which the good is exported.

2. A Party shall ensure that the person that selected an inventory management method pursuant to paragraph 1 for a particular fungible good or material continues to use such inventory management method for that fungible good or material throughout the fiscal year of that person.

Article 309: Indirect Materials

An indirect material shall be considered to be an originating material without regard to where it is produced.

Article 310: Sets or Assortments of Goods

Except as provided in Annex 301, a set or assortment of goods, as referred to in General Rule 3 of the Harmonized System, shall be considered as originating, provided that:

- (a) all the component goods, including packaging materials and containers, are originating; or

- (b) where the set or assortment contains non-originating component goods, including packaging materials and containers, the value of the non-originating goods, including any non-originating packaging materials and containers for the set or assortment of goods, does not exceed 15 percent of the transaction value of the set or assortment of goods.

Article 311: Accessories, Spare Parts and Tools

Accessories, spare parts and tools delivered with a good that form part of the good's standard accessories, spare parts or tools, shall be considered as originating if the good is an originating good, and shall be disregarded in determining whether all the non-originating materials used in the production of the good undergo the applicable requirements set out in Annex 301 provided that:

- (a) the accessories, spare parts and tools are not invoiced separately from the good, whether or not each is listed or detailed on the invoice; and
- (b) the quantities and value of such accessories, spare parts, or tools are customary for the good.

Article 312: Packaging Materials and Containers for Retail Sale

Except as provided for in Article 310, packaging materials and containers in which a good is packaged for retail sale shall be disregarded in determining:

- (a) whether all the non-originating materials undergo the applicable requirements set out in Annex 301; or

- (b) whether the good meets the requirements set out in subparagraphs (a) and (c) of Article 301.

Article 313: Packing Materials and Containers for Shipment

Packing materials, containers, pallets or similar articles, in which a good is packed for shipment shall be disregarded in determining whether that good is originating.

Article 314: Transit and Transshipment

An originating good that is exported from a Party shall maintain its originating status only if the good:

- (a) does not undergo further production or any other operation outside the territories of the Parties, other than unloading, reloading or any other operation necessary to preserve it in good condition or to transport the good to the territory of a Party; and
- (b) remains under customs control while outside the territories of the Parties.

Article 315: Interpretation and Application

For purposes of this Chapter:

- (a) the basis for tariff classification in this Chapter is the Harmonized System;

- (b) where applying subparagraph (d) of Article 301, the determination of whether a heading or subheading under the Harmonized System provides for both a good and the materials that are used in the production of the good shall be made on the basis of the nomenclature of the heading or subheading and the relevant Section or Chapter Notes, in accordance with the General Rules for the Interpretation of the Harmonized System; and
- (c) all costs referred to in this Chapter shall be recorded and maintained in accordance with the Generally Accepted Accounting Principles applicable in the territory of the Party in which the good is produced.

The Parties shall consult regularly to ensure that this Chapter is administered effectively, uniformly, and consistently with the spirit and objectives of this Agreement, and shall cooperate in the administration of this Chapter in accordance with Chapter Four (Origin Procedures and Trade Facilitation).
2. A Party that considers that this Chapter requires modification to take into account developments in production processes, lack of supply of originating materials or other matters may submit a proposed modification along with supporting rationale and any studies to the other Party for consideration and appropriate action under Chapter Two (National Treatment and Market Access for Goods).

Article 317: Short Supply

1. For purposes of determining the origin of a good of Chapters 50 through 63 of the Harmonized System, at the request of an interested entity of a Party, a Party shall, to the extent possible within 45 days of receiving the request, temporarily allow fibre, yarn or fabric from a non-Party to be considered originating, if the Party determines, based on information it considers necessary that the fibre, yarn, or fabric is not available in commercial quantities in a timely manner in the territory of any Party. Each Party shall implement such short-supply allowances in accordance with its applicable legal procedures.

2. The Party receiving a request for a short supply allowance pursuant to paragraph 1 shall notify the other Party of the request to the extent possible within 10 days of receiving the request. A Party may decline to grant a short-supply allowance if the other Party does not also grant such an allowance.

1. The Parties shall establish, no later than the date of entry into force of this Agreement, a Certificate of Origin for the purpose of certifying that a good being exported from the territory of a Party into the territory of the other Party qualifies as an originating good. The Certificate of Origin may thereafter be modified as the Parties may decide.
2. Each Party shall permit the Certificate of Origin to be provided to its respective competent authority in English, French or Spanish. Each Party may nonetheless require the importer to submit a translation of the Certificate of Origin into a language required by its domestic law.
3. Each Party shall:
 - (a) require an exporter in its territory to complete and sign a Certificate of Origin for any exportation of a good for which an importer may claim preferential tariff treatment upon importation of the good into the territory of the other Party; and

(b) provide that where an exporter in its territory is not the producer of the good, the exporter may complete and sign a Certificate of Origin on the basis of:

(i) its knowledge of whether the good qualifies as an originating good, based on information in the exporter's possession,

(ii) its reasonable reliance on the producer's written representation that the good qualifies as an originating good, or

(iii) a completed and signed Certificate of Origin for the good, voluntarily provided to the exporter by the producer.

4. Each Party shall permit a Certificate of Origin to apply to:

(a) a single importation of one or more goods into the Party's territory; or

(b) multiple importations of identical goods into the Party's territory that occur within a specified period not exceeding 12 months.

5. Each Party shall ensure that the Certificate of Origin is accepted by its competent authority for four years after the date on which the Certificate of Origin was signed.

1. Except as otherwise provided in this Chapter, each Party shall require an importer in its territory that claims preferential tariff treatment for a good imported into its territory from the territory of the other Party to:

- (a) make a written declaration, based on a valid Certificate of Origin, that the good qualifies as an originating good;
- (b) have the Certificate of Origin in its possession at the time the declaration is made;
- (c) provide, on the request of that Party's competent authority, the Certificate of Origin and, if required by that competent authority, such other documentation relating to the importation of the good in accordance with the domestic law of the importing Party; and
- (d) promptly make a corrected declaration and pay any duties owing where the importer has reason to believe that the Certificate of Origin on which a declaration was based contains information that is not correct.

2. For the purpose of subparagraph 1(c), where the competent authority of the importing Party determines that the Certificate of Origin has not been completed in accordance with Article 401, the importing Party shall ensure that the importer is granted a period of not less than five working days to provide the competent authority with a corrected Certificate of Origin.

- (a) the importing Party may deny preferential tariff treatment to the good if the importer fails to comply with any requirement under this Chapter; and
- (b) the importing Party shall not subject the importer to penalties for making an incorrect declaration, if the importer voluntarily makes a correction of the declaration pursuant to subparagraph 1(d).

- (a) bills of lading or waybills indicating the shipping route and all points of shipment and transshipment prior to the importation of the good; and
- (b) where the good is shipped through or transhipped outside the territories of the Parties, a copy of the customs control documents indicating to that competent authority that the good remained under customs control while outside the territories of the Parties.

- (b) an importation of a good for which the importing Party has waived the requirement for a Certificate of Origin;

Article 404: Obligations Regarding Exportations

1. Each Party shall provide that:
 - (a) on request of its competent authority, an exporter in its territory, or a producer in its territory that has provided a Certificate of Origin to that exporter in accordance with subparagraph 3(b)(iii) of Article 401, shall provide a copy of the Certificate of Origin to that competent authority;
 - (b) where an exporter or a producer in its territory has provided a Certificate of Origin and has reason to believe that the Certificate of Origin contains or is based on incorrect information, the exporter or producer shall promptly notify in writing any change that could affect the accuracy or validity of the Certificate of Origin to every person to whom the exporter or producer has provided the Certificate of Origin; and
 - (c) a false certification by an exporter or a producer in its territory that a good to be exported to the territory of the other Party is originating, shall be subject to penalties equivalent to those that would apply to an importer in the territory of the exporting Party that makes a false statement or representation in connection with an importation, with appropriate modifications.

2. Each Party may apply such measures as the circumstances may warrant where an exporter or a producer in its territory fails to comply with any requirement of this Chapter.

3. Neither Party may impose penalties on an exporter or a producer in its territory that voluntarily provides written notification pursuant to subparagraph 1(b) with respect to the making of an incorrect certification.

For purposes of verifying the origin of a good, the importing Party may request the importer of the good to voluntarily obtain and supply written information voluntarily provided by the exporter or producer of the good in the territory of the other Party, provided that the importing Party shall not consider the failure or refusal of the importer to obtain and supply such information as a failure of the exporter or producer to supply the information or as a ground for denying preferential tariff treatment.

3. Each Party shall allow an exporter or producer who receives a verification letter or a questionnaire pursuant to subparagraphs 1(a) and (b) not less than 30 days from the date of receipt of such letter or questionnaire to provide the information and documentation required or the completed questionnaire. 8. The Party whose competent authority receives notification pursuant to subparagraph 5(a)(ii), may, within 15 days of receipt of the notification, postpone the proposed verification visit for a period not exceeding 60 days from the date of such receipt or for such longer period as the Parties may decide.

11. A Party shall permit an exporter or a producer whose good is the subject of a verification visit by the other Party to designate two observers to be present during the visit, provided that:

(a) the observers shall only participate as such; and

16. A written notice of intent under paragraph 15 shall provide for a period of not less than 30 days during which the exporter or producer of the good may provide, with regard to that determination, written comments or additional information that will be taken into account by the Party prior to completing the verification.

17. Where verifications by a Party indicate a pattern of conduct by an exporter or a producer of false or unsupported representations that a good imported into its territory qualifies as an originating good, the Party may withhold preferential tariff treatment to identical goods exported or produced by such person until that person establishes compliance with Chapter Three (Rules of Origin), in accordance with the Party's domestic law.

- (a) denial of access to its records;
- (b) failure to respond to a verification questionnaire or letter; or

A Party shall give positive consideration to a reasonable request from the other Party, received prior to the end of the comment period following the transmission of a proposed technical regulation, to establish or extend the period of time between the adoption of the technical regulation and the day upon which it is applicable, except where such delay would be ineffective in fulfilling the legitimate objectives pursued.
10. Each Party shall ensure that its adopted technical regulations and conformity assessment procedures are available on official websites that are freely and publicly available.
11. Where a Party detains at a port of entry a good imported from the territory of the other Party on the ground that the good has failed to comply with a technical regulation, it shall immediately notify the importer of the reasons for the detention of the good.

1. Each Party retains its rights and obligations under Article XIX of the GATT 1994 and the Agreement on Safeguards, which shall exclusively govern global safeguard actions, including the resolution of any disputes in respect thereof.
2. This Agreement does not confer any additional rights or obligations on the Parties with regard to actions taken pursuant to Article XIX of the GATT 1994 and the Agreement on Safeguards, except that a Party taking a global safeguard measure may exclude imports of an originating good of the other Party if the competent investigating authority of that Party concludes that such imports are not a substantial cause of serious injury or threat thereof.
3. A Party may not apply, with respect to the same good, at the same time:
 - (a) an emergency action; and
 - (b) a measure under Article XIX of the GATT 1994 and the Agreement on Safeguards.

Article 702: Imposition of an Emergency Action

1. A Party may apply a measure described in paragraph 2, during the transition period only, if as a result of the reduction or elimination of a duty pursuant to this Agreement, an originating good is being imported into the Party's territory in such increased quantities, in absolute terms or relative to domestic production, and under such conditions as to constitute a substantial cause of serious injury, or threat thereof, to a domestic industry producing a like or directly competitive good.

2. If the conditions set out in paragraph 1 and Articles 703 and 704 are met, a Party may to the extent necessary to prevent or remedy serious injury, or threat thereof, and facilitate adjustment:

5. A Party taking an emergency action under Article 702 shall provide to the exporting Party mutually agreed trade liberalizing compensation in the form of concessions having substantially equivalent trade effects or equivalent to the value of the additional duties expected to result from the action. If the Parties are unable to agree on compensation, the Party against whose goods the action is taken may take tariff action having trade effects substantially equivalent to the action taken under Article 702. The Party taking the tariff action shall apply the action only for the minimum period necessary to achieve the substantially equivalent effects and in any event, only while the measure under Article 702 is being applied.

Article 705: Investigation Procedures and Transparency Requirements

3. The treatment accorded by a Party under paragraphs 1 and 2 means, with respect to a sub-national government, treatment no less favourable than the treatment accorded, in like circumstances, by that sub-national government to investors, and to investments of investors, of the Party of which it forms a part.

Article 804²: Most-Favoured-Nation Treatment

Each Party shall accord to covered investments treatment no less favourable than that it accords, in like circumstances, to investments of investors of a non-Party with respect to the establishment, acquisition, expansion, management, conduct, operation and sale or other disposition of investments in its territory.

3. For greater certainty, the treatment accorded by a Party under this Article means, with respect to a sub-national government, treatment accorded, in like circumstances, by that sub-national government to investors, and to investments of investors, of a non-Party.

² Article 804 shall be interpreted in accordance with Annex 804.1.

Article 805: Minimum Standard of Treatment

1. Each Party shall accord to covered investments treatment in accordance with the customary international law minimum standard of treatment of aliens, including fair and equitable treatment and full protection and security.
2. The concepts of “fair and equitable treatment” and “full protection and security” in paragraph 1 do not require treatment in addition to or beyond that which is required by the customary international law minimum standard of treatment of aliens.
3. A determination that there has been a breach of another provision of this Agreement, or of a separate international agreement, does not establish that there has been a breach of this Article.

Article 806: Senior Management and Boards of Directors

1. A Party may not require that an enterprise of that Party, that is a covered investment, appoint to senior management positions individuals of any particular nationality.
2. A Party may require that a majority of the board of directors, or any committee thereof, of an enterprise that is a covered investment be of a particular nationality, or resident in the territory of the Party, provided that the requirement does not materially impair the ability of the investor to exercise control over its investment.

Article 807: Performance Requirements

1. Neither Party may impose or enforce any of the following requirements, or enforce any commitment or undertaking, in connection with the establishment, acquisition, expansion, management, conduct or operation of an investment of an investor of the other Party or of a non-Party in its territory:

- (a) to export a given level or percentage of goods;
- (b) to achieve a given level or percentage of domestic content;
- (c) to purchase, use or accord a preference to goods produced or services provided in its territory, or to purchase goods or services from persons in its territory;
- (d) to relate in any way the volume or value of imports to the volume or value of exports or to the amount of foreign exchange inflows associated with such investment;
- (e) to restrict sales of goods or services in its territory that such investment produces or provides by relating such sales in any way to the volume or value of its exports or foreign exchange earnings;
- (f) to transfer technology, a production process or other proprietary knowledge to a person in its territory, except when the requirement is imposed or the commitment or undertaking is enforced by a court, administrative tribunal or competition authority, to remedy an alleged violation of competition laws or to act in a manner not inconsistent with other provisions of this Agreement; or

- (g) to supply exclusively from the territory of the Party the goods it produces or the services it provides to a specific regional market or to the world market.

2. A measure that requires an investment to use a technology to meet generally applicable health, safety or environmental requirements shall not be construed to be inconsistent with subparagraph 1(f). For greater certainty, Articles 803 and 804 apply to the measure.

3. Neither Party may condition the receipt or continued receipt of an advantage, in connection with an investment in its territory of an investor of the other Party or of a non-Party, on compliance with any of the following requirements:

- (a) to achieve a given level or percentage of domestic content;
- (b) to purchase, use or accord a preference to goods produced in its territory, or to purchase goods from producers in its territory;
- (c) to relate in any way the volume or value of imports to the volume or value of exports or to the amount of foreign exchange inflows associated with such investment; or
- (d) to restrict sales of goods or services in its territory that such investment produces or provides by relating such sales in any way to the volume or value of its exports or foreign exchange earnings.

4. Nothing in paragraph 3 shall be construed to prevent a Party from conditioning the receipt or continued receipt of an advantage, in connection with an investment in its territory of an investor of the other Party, on compliance with a requirement to locate production, provide a service, train or employ workers, construct or expand particular facilities, or carry out research and development, in its territory.

5. Paragraphs 1 and 3 do not apply to any requirement other than the requirements set out in those paragraphs.

6. The provisions of:

- (a) subparagraphs 1(a), (b) and (c), and 3(a) and (b) do not apply to qualification requirements for goods or services with respect to export promotion and foreign aid programs;
- (b) subparagraphs 1(b), (c), (f) and (g), and 3(a) and (b) do not apply to procurement by a Party or a state enterprise; and
- (c) subparagraphs 3(a) and (b) do not apply to requirements imposed by an importing Party relating to the content of goods necessary to qualify for preferential tariffs or preferential quotas.

Article 808: Reservations and Exceptions

1. Articles 803, 804, 806 and 807 do not apply to:
 - (a) any existing non-conforming measure that is maintained by
 - (i) a national government, as set out in its Schedule to Annex I,
or
 - (ii) a sub-national government;
 - (b) the continuation or prompt renewal of any non-conforming measure referred to in subparagraph (a); or
 - (c) an amendment to any non-conforming measure referred to in subparagraph (a) to the extent that the amendment does not decrease the conformity of the measure, as it existed immediately before the amendment, with Articles 803, 804, 806 and 807.

2. Articles 803, 804, 806 and 807 do not apply to any measure that a Party adopts or maintains with respect to sectors, sub-sectors or activities, as set out in its schedule to Annex II.

3. In respect of intellectual property rights, a Party may derogate from Articles 803, 804 and subparagraph 1(f) of Article 807 in a manner that is consistent with the TRIPS Agreement and waivers to the TRIPS Agreement adopted pursuant to Article IX of the WTO Agreement.

4. The provisions of Articles 803, 804 and 806 do not apply to:
- (a) procurement by a Party or a state enterprise; or
 - (b) subsidies or grants provided by a Party or a state enterprise, including government-supported loans, guarantees and insurance.

Article 809: Health, Safety and Environmental Measures

The Parties recognize that it is inappropriate to encourage investment by relaxing domestic health, safety or environmental measures. Accordingly, a Party should not waive or otherwise derogate from, or offer to waive or otherwise derogate from, such measures as an encouragement for the establishment, acquisition, expansion or retention in its territory of an investment of an investor. If a Party considers that the other Party has offered such an encouragement, it may request consultations with the other Party and the two Parties shall consult with a view to avoiding any such encouragement.

Article 810: Corporate Social Responsibility

Each Party should encourage enterprises operating within its territory or subject to its jurisdiction to voluntarily incorporate internationally recognized standards of corporate social responsibility in their internal policies, such as statements of principle that have been endorsed or are supported by the Parties. These principles address issues such as labour, the environment, human rights, community relations and anti-corruption. The Parties therefore remind those enterprises of the importance of incorporating such corporate social responsibility standards in their internal policies.

Article 811: Compensation for Losses

1. Each Party shall accord to investors of the other Party, and to covered investments, non-discriminatory treatment with respect to measures it adopts or maintains relating to losses suffered by investments in its territory owing to armed conflict, civil strife or a natural disaster.
2. Paragraph 1 shall not apply to existing measures relating to subsidies or grants that would be inconsistent with Article 803 but for subparagraph 4(b) of Article 808.

Article 812³: Expropriation

1. Neither Party may nationalize or expropriate a covered investment either directly, or indirectly through measures having an effect equivalent to nationalization or expropriation (hereinafter referred to as “expropriation”), except for a public purpose⁴, in accordance with due process of law, in a non-discriminatory manner and on prompt, adequate and effective compensation.
2. Such compensation shall be equivalent to the fair market value of the expropriated investment immediately before the expropriation took place (“date of expropriation”), and shall not reflect any change in value occurring because the intended expropriation had become known earlier. Valuation criteria shall include going concern value, asset value including declared tax value of tangible property, and other criteria, as appropriate, to determine fair market value.

³ For greater certainty, paragraph 1 of Article 812 shall be interpreted in accordance with Annex 812.1.

⁴ The term “public purpose” shall be interpreted in accordance with international law. It is not meant to create any inconsistency with the same or similar concepts in the domestic law of either Party.

3. Compensation shall be paid without delay and shall be fully realizable and freely transferable. Compensation shall be payable in a freely convertible currency and shall include interest at a commercially reasonable rate for that currency from the date of expropriation until date of payment.

4. The investor affected shall have a right under the law of the expropriating Party to prompt review of its case and of the valuation of its investment by a judicial or other independent authority of that Party in accordance with the principles set out in this Article.

5. This Article shall not apply to the issuance of compulsory licenses granted in relation to intellectual property rights, or to the revocation, limitation or creation of intellectual property rights, to the extent that such issuance, revocation, limitation or creation is consistent with the WTO Agreement.

Article 813: Transfers

1. Each Party shall permit all transfers relating to a covered investment to be made freely, and without delay, into and out of its territory. Such transfers include:

- (a) contributions to capital;
- (b) profits, dividends, interest, capital gains, royalty payments, management fees, technical assistance and other fees, returns in kind and other amounts derived from the investment;
- (c) proceeds from the sale of all or any part of the covered investment or from the partial or complete liquidation of the covered investment;

- (d) payments made under a contract entered into by the investor, or the covered investment, including payments made pursuant to a loan agreement;
- (e) payments made pursuant to Articles 811 and 812; and
- (f) payments arising under Section B.

2. Each Party shall permit transfers relating to a covered investment to be made in the convertible currency in which the capital was originally invested, or in any other convertible currency agreed to by the investor and the Party concerned. Unless otherwise agreed by the investor, transfers shall be made at the market rate of exchange applicable on the date of transfer.

3. Notwithstanding paragraphs 1 and 2, a Party may prevent a transfer through the equitable, non-discriminatory and good faith application of its laws relating to:

- (a) bankruptcy, insolvency or the protection of the rights of creditors;
- (b) issuing, trading or dealing in securities;
- (c) criminal or penal offences;
- (d) reports of transfers of currency or other monetary instruments; or
- (e) ensuring the satisfaction of judgments in adjudicatory proceedings.

4. Neither Party may require its investors to transfer, or penalize its investors for failing to transfer, the income, earnings, profits or other amounts derived from, or attributable to, investments in the territory of the other Party.

5. Paragraph 4 shall not be construed to prevent a Party from imposing any measure through the equitable, non-discriminatory and good faith application of its laws relating to the matters in subparagraphs (a) through (e) of paragraph 3.

6. Notwithstanding paragraph 1, a Party may restrict transfers in kind in circumstances where it could otherwise restrict transfers under the WTO Agreement and as set out in paragraph 3.

Article 814: Subrogation

1. If a Party or any agency thereof makes a payment to any of its investors under a guarantee or a contract of insurance it has entered into in respect of an investment, the other Party shall recognize the validity of the subrogation in favour of the Party or agency to any right or title held by the investor.

2. A Party or any agency thereof, which is subrogated to the rights of an investor in accordance with paragraph 1 of this Article, shall be entitled in all circumstances to the same rights as those of the investor in respect of the investment. Such rights may be exercised by the Party or any agency thereof, or by the investor if the Party or any agency thereof so authorizes.

Article 815: Denial of Benefits

1. A Party may deny the benefits of this Chapter to an investor of the other Party that is an enterprise of such Party and to investments of such investor if investors of a non-Party own or control the enterprise and the denying Party adopts or maintains measures with respect to the non-Party that prohibit transactions with the enterprise or that would be violated or circumvented if the benefits of this Chapter were accorded to the enterprises or to its investments.

2. A Party may deny the benefits of this Chapter to an investor of the other Party that is an enterprise of such Party and to investments of such investors if investors of a non-Party own or control the enterprise and the enterprise has no substantial business activities in the territory of the Party under whose law it is constituted or organized.

Article 816: Special Formalities and Information Requirements

1. Nothing in Article 803 shall be construed to prevent a Party from adopting or maintaining a measure that prescribes special formalities in connection with the establishment of covered investments, such as a requirement that investments be legally constituted under the laws or regulations of the Party, provided that such formalities do not materially impair the protections afforded by a Party to investors of the other Party and covered investments pursuant to this Chapter.

2. Notwithstanding Articles 803 or 804, a Party may require an investor of the other Party, or its covered investments, to provide information concerning that investment solely for informational or statistical purposes, provided that such requests are reasonable and not unduly burdensome. The Party shall protect any confidential information from any disclosure that would prejudice the competitive position of the investor or the covered investment. Nothing in this paragraph shall be construed to prevent a Party from otherwise obtaining or disclosing information in connection with the equitable and good faith application of its law.

Article 817: Committee on Investment

1. The Parties hereby establish a Committee on Investment, comprising representatives of each Party.

2. The Committee shall provide a forum for the Parties to consult on issues related to this Chapter that are referred to it by a Party. The Committee shall meet at such times as agreed by the Parties and should work to promote cooperation and facilitate joint initiatives, which may address issues such as corporate social responsibility and investment facilitation.

Section B - Settlement of Disputes between an Investor and the Host Party

Article 818: Purpose

Without prejudice to the rights and obligations of the Parties under Chapter Twenty-One (Dispute Settlement), this Section establishes a mechanism for the settlement of investment disputes.

Article 819: Claim by an Investor of a Party on Its Own Behalf

1. An investor of a Party may submit to arbitration under this Section a claim that the other Party has breached:

- (a) an obligation under Section A, other than an obligation under paragraph 4 of Article 802, Articles 809, 810 or 816;
- (b) an obligation under subparagraph 3(a) of Article 1305 (Competition Policy, Monopolies and State Enterprises - Designated Monopolies) or paragraph 2 of Article 1306 (Competition Policy, Monopolies and State Enterprises - State Enterprises), only to the extent that a designated monopoly or state enterprise has acted in a manner inconsistent with the Party's obligations under Section A, other than an obligation under paragraph 4 of Article 802, Articles 809, 810 or 816; or
- (c) a legal stability agreement referred to in paragraph 2 of this Article,

and that the investor has incurred loss or damage by reason of, or arising out of, that breach.

2. A claim by an investor that a tax measure of a Party is in breach of a legal stability agreement between the national government authorities of a Party and the investor concerning an investment may be submitted to arbitration only where:

 - (ii) the claim is not related to any tax matter in dispute between the investor or its investment and the Party before the entry into force of this Agreement,

and in either case, the taxation authorities of the Parties, no later than six months after the investor gives notice of its intention to submit the claim to arbitration, have not jointly determined that the tax measure does not contravene the legal stability agreement. The investor shall refer the issue of whether the tax measure does not contravene the legal stability agreement for a determination to the taxation authorities of the Parties at the same time that it gives notice under Article 821.

Article 820: Claim by an Investor of a Party on Behalf of an Enterprise

1. An investor of a Party, on behalf of an enterprise of the other Party that is a juridical person that the investor owns or controls directly or indirectly, may submit to arbitration under this Section a claim that the other Party has breached:

- (a) an obligation under Section A, other than an obligation under paragraph 4 of Article 802, or Articles 809, 810 or 816; or

 - (i) the tax measure was adopted after the date of entry into force of this Agreement, and
 - (ii) the claim is not related to any tax matter in dispute between the investor or its investment and the Party before the entry into force of this Agreement,

and in either case, the taxation authorities of the Parties, no later than six months after the investor gives notice of its intention to submit the claim to arbitration, have not jointly determined that the tax measure does not contravene the legal stability agreement. The investor shall refer the issue of whether the tax measure does not contravene the legal stability agreement for a determination to the taxation authorities of the Parties at the same time that it gives notice under Article 821.

3. Where an investor makes a claim under this Article and the investor or a non-controlling investor in the enterprise makes a claim under Article 819 arising out of the same events that gave rise to the claim under this Article, and two or more of the claims are submitted to arbitration under Article 824, the claims should be heard together by a Tribunal established under Article 829, unless the Tribunal finds that the interests of a disputing party would be prejudiced thereby.

4. An investment may not make a claim under this Section.

Article 821: Notice of Intent to Submit a Claim to Arbitration

 - (c) the UNCITRAL Arbitration Rules; or
 - (d) any other body of rules approved by the Commission as available for arbitrations under this Section.

6. The Parties may share with officials of their respective national and sub-national governments all relevant unredacted documents in the course of dispute settlement under this Agreement, but they shall ensure that those persons protect any confidential information in such documents.

7. As provided under Article 2202 (Exceptions - National Security) and Article 2204 (Exceptions - Disclosure of Information), the Tribunal shall not require a Party to furnish or allow access to information the disclosure of which would impede law enforcement or would be contrary to the Party's law protecting the deliberative and policy-making processes of the executive branch of government at the cabinet level, personal privacy or the financial affairs and accounts of individual customers of financial institutions, or which it determines to be contrary to its essential security.

8. To the extent that a Tribunal's confidentiality order designates information as confidential and a Party's law on access to information requires public access to that information, the Party's law on access to information shall prevail. However, a Party should endeavour to apply its law on access to information so as to protect information designated confidential by the Tribunal.

Article 836: Submissions by Other Persons

3. The Tribunal shall set an appropriate date for the disputing parties to comment on the application for leave.

4. In determining whether to grant the leave the Tribunal shall consider, among other things, the extent to which:

- (a) the applicant's submission would assist the Tribunal in the determination of a factual or legal issue related to the arbitration by bringing a perspective, particular knowledge or insight that is different from that of the disputing parties;
- (b) the applicant's submission would address a matter within the scope of the dispute;

- (c) the applicant has a significant interest in the arbitration; and
- (d) there is a public interest in the subject-matter of the arbitration.

5. The Tribunal shall ensure that:

- (a) any applicant's submission does not disrupt the proceedings; and
- (b) neither disputing party is unduly burdened or unfairly prejudiced by such submissions.

6. The Tribunal shall decide whether to grant leave to an applicant to file a submission. If the Tribunal grants leave, it shall set an appropriate date for the disputing parties to respond in writing to the submission. By that date, the non-disputing Party may, pursuant to Article 832, address any issues of interpretation of this Agreement presented in the submission.

7. The Tribunal that grants leave to file a submission to an applicant is not required to address the submission at any point in the arbitration, nor is the person that files the submission entitled to make further submissions in the arbitration.

8. Access to hearings and documents by persons that file applications under these procedures shall be governed by the provisions pertaining to public access to hearings and documents under Article 835.

Article 837: Governing Law

Article 838: Interpretation of Annexes

1. Where a disputing Party asserts as a defence that the measure alleged to be a breach is within the scope of a reservation or exception set out in Annex I or Annex II, on request of the disputing Party, the Tribunal shall request the interpretation of the Commission on the issue. The Commission, within 60 days of delivery of the request, shall submit in writing its interpretation to the Tribunal.

⁵ The “law of the disputing Party” means the law that a domestic court or tribunal of proper jurisdiction would apply in the same case.

2. Further to paragraph 3 of Article 837, a Commission interpretation submitted under paragraph 1 shall be binding on the Tribunal. If the Commission fails to submit an interpretation within 60 days, the Tribunal shall decide the issue.

Article 839: Expert Reports

Without prejudice to the appointment of other kinds of experts where authorized by the applicable arbitration rules, a Tribunal, at the request of a disputing party, or on its own initiative unless the disputing parties disapprove, may appoint experts to report to it in writing on any factual issue concerning environmental, health, safety or other scientific matters raised by a disputing party, subject to such terms and conditions as the disputing parties may agree.

Article 840: Interim Measures of Protection

A Tribunal may order an interim measure of protection to preserve the rights of a disputing party, or to ensure that the Tribunal's jurisdiction is made fully effective, including an order to preserve evidence in the possession or control of a disputing party or to protect the Tribunal's jurisdiction. A Tribunal may not order attachment or enjoin the application of the measure alleged to constitute a breach referred to in Article 819 or 820. For purposes of this paragraph, an order includes a recommendation.

Article 841: Final Award

1. Where a Tribunal makes a final award against the disputing Party, the Tribunal may award, separately or in combination, only:

- (a) monetary damages and any applicable interest;
- (b) restitution of property, in which case the award shall provide that the disputing Party may pay monetary damages and any applicable interest in lieu of restitution.

The Tribunal may also award costs in accordance with the applicable arbitration rules.

2. Subject to paragraph 1, where a claim is made under paragraph 1 of Article 820:

- (a) an award of monetary damages and any applicable interest shall provide that the sum be paid to the enterprise;
- (b) an award of restitution of property shall provide that restitution be made to the enterprise; and
- (c) the award shall provide that it is made without prejudice to any right that any person may have in the relief under applicable domestic law.

3. A Tribunal may not order a disputing Party to pay punitive damages.

Article 842: Finality and Enforcement of an Award

1. An award made by a Tribunal shall have no binding force except between the disputing parties and in respect of that particular case.
2. Subject to paragraph 3 and the applicable review procedure for an interim award, a disputing party shall abide by and comply with an award without delay.
3. A disputing party may not seek enforcement of a final award until:

4. Each Party shall provide for the enforcement of an award in its territory.

5. If the disputing Party fails to abide by or comply with a final award, the Commission, on delivery of a request by the Party of the disputing investor, shall establish an arbitral panel under Chapter Twenty-One (Dispute Settlement). The requesting Party may seek in such proceedings:

- (a) a determination that the failure to abide by or comply with the final award is inconsistent with the obligations of this Agreement; and
- (b) a recommendation that the disputing Party abide by or comply with the final award.

6. A disputing investor may seek enforcement of an arbitration award under the ICSID Convention, the New York Convention or the Inter-American Convention regardless of whether proceedings have been taken under paragraph 5.

2. Pending the incorporation of disciplines pursuant to paragraph 1, the Parties shall aim to ensure that measures relating to qualification requirements and procedures, technical standards, and licensing requirements are:

- (a) based on objective and transparent criteria, such as competence and the ability to supply the service;
- (b) not more burdensome than necessary to ensure the quality of the service; and
- (c) in the case of licensing procedures, not in themselves a restriction on the supply of the service.

⁴ Nothing in paragraph 2 may be the subject of dispute settlement procedures in Chapter Twenty-One (Dispute Settlement).

3. Where authorisation is required for the supply of a service, the competent authorities of that Party will, within a reasonable period of time after the submission of an application that is considered complete under domestic laws and regulations, inform the applicant of the decision concerning the application. At the request of the applicant, the competent authorities of the Party shall provide, without undue delay, information concerning the status of the application.

Article 910: Recognition⁵

1. For the purposes of fulfillment, in whole or in part, of its standards or criteria for the authorization, licensing or certification of services suppliers, and subject to the requirements of paragraph 4, a Party may recognize the education or experience obtained, requirements met, or licenses or certifications granted in a particular country. Such recognition, which may be achieved through harmonization or otherwise, may be based on an agreement or arrangement with the country concerned or may be accorded autonomously.

2. A Party that is a party to an agreement or arrangement of the type referred to in paragraph 1, whether existing or future, shall afford, if the other Party is interested, adequate opportunity for the other Party to negotiate accession to such an agreement or arrangement or to negotiate a comparable agreement or arrangement. Where a Party accords recognition autonomously, it shall afford adequate opportunity for the other Party to demonstrate that the education, experience, licences or certifications obtained or requirements met in that other Party's territory should be recognized.

⁵ Where a Party recognizes, autonomously or by agreement or arrangement, the education or experience obtained, requirements met, or licenses or certifications granted in the territory of a non-Party, nothing in Article 904 shall be construed to require the Party to accord such recognition to the education or experience obtained, requirements met, or licenses or certifications granted in the territory of the other Party.

3. No Party may accord recognition in a manner that would constitute a means of discrimination in the application of its standards or criteria for the authorization, licensing or certification of services suppliers, or a disguised restriction on trade in services.

4. The Parties shall endeavour to ensure that the relevant professional bodies in their respective territories of professional service sectors to be determined by the Working Group within six months following entry into force of this Agreement:

- (a) exchange information on existing standards and criteria for the authorization, licensing and certification of professional service providers;
- (b) meet within 12 months to discuss the development of an agreement or arrangement referred to in paragraph 1;
- (c) be guided by Annex 910.4 for the negotiations of such agreement or arrangement; and
- (d) provide notification following the conclusion of an agreement or arrangement to the Commission.

5. On receipt of a notification referred to in subparagraph 4(d), the Commission shall review the agreement or arrangement within a reasonable time to determine whether it is consistent with this Agreement. Based on the Commission's review, each Party shall ensure that its respective competent authorities, where appropriate, implement the agreement within a mutually agreed time.

Article 911: Temporary Licensing

1. Where the Parties agree, each Party shall encourage the relevant bodies in its territory to develop procedures for the temporary licensing of professional services suppliers of the other Party.
2. Each Party shall consider establishing a work program to provide for the temporary licensing in its territory of nationals of the other Party who are licensed as engineers in the territory of the other Party. To this end, each Party shall coordinate with the relevant professional bodies of its territory as appropriate.
3. To this end, the Working Group shall consult with the relevant professional bodies to obtain their recommendations on:
 - (a) the development of procedures for the temporary licensing of engineers to permit them to practice as engineers in each jurisdiction in each of the Parties' territory;
 - (b) the development of model procedures for adoption by the competent authorities throughout each of the Parties' territory to facilitate the temporary licensing of engineers;
 - (c) the engineering specialties to which priority should be given in developing temporary licensing procedures; and
 - (d) other matters relating to the temporary licensing of engineers identified by the Working Group.

4. The Working Group shall request that the relevant professional bodies make recommendations on the matters referred to in paragraph 3 within 18 months of the date of their first meeting.

5. The Working Group shall encourage the relevant professional bodies of each Party to meet at the earliest opportunity with a view to cooperating in the development of joint recommendations, within two years following the entry into force of this Agreement, on the matters referred to in paragraph 3. The Working Group shall request an annual report from the relevant professional bodies on the progress achieved in developing recommendations.

6. The Working Group shall promptly review a recommendation made pursuant to paragraphs 4 or 5 to ensure its consistency with this Agreement. If the recommendation is consistent with this Agreement, the Working Group shall encourage the competent authorities of each Party to implement the recommendation within one year.

Article 912: Transfers and Payments

1. Each Party shall permit all transfers and payments relating to the cross-border supply of services to be made freely and without delay into and out of its territory.

2. Each Party shall permit such transfers and payments relating to the cross-border supply of services to be made in a freely usable currency at the market rate of exchange prevailing on the date of transfer.

3. Notwithstanding paragraphs 1 and 2, a Party may prevent or delay a transfer or payment through the equitable, non-discriminatory, and good faith application of its laws relating to:

(a) bankruptcy, insolvency, or the protection of the rights of creditors;

- (b) issuing, trading, or dealing in securities, futures, options, or derivatives;
- (c) financial reporting or record keeping of transfers when necessary to assist law enforcement or financial regulatory authorities;
- (d) criminal or penal offences; or
- (e) ensuring compliance with orders or judgments in judicial or administrative proceedings.

Article 913: Denial of Benefits

Subject to prior notification in accordance with Article 1902 (Transparency - Notification and Provision of Information) and consultations⁶, a Party may deny the benefits of this Chapter to a service supplier of the other Party:

- (a) where the Party establishes that the service is being provided by an enterprise owned or controlled by nationals of a non-Party, and the denying Party adopts or maintains measures with respect to the non-Party that prohibit transactions with the enterprise or that would be violated or circumvented if the benefits of this Chapter were accorded to the enterprise;
- (b) if the service supplier is an enterprise owned or controlled by persons of a non-Party that has no substantial business activities in the territory of the other Party; or

⁶ For purposes of this Article, “consultation” does not mean “consultations” pursuant to Article 2104 (Dispute Settlement – Consultations).

- (c) if the service supplier is an enterprise owned or controlled by persons of the denying Party and the enterprise has no substantial business activities in the territory of the other Party.

Article 914: Working Group

1. The Parties shall establish a Working Group at the entry into force of this Agreement comprising representatives of each Party. The representatives of each Party shall be:

For Canada: Director
 Services Trade Policy Division
 Department of Foreign Affairs and International Trade

For Peru: Vice Minister of Foreign Trade
 Ministry of Foreign Trade and Tourism

or any successors.

2. The Working Group's functions shall include:

- (a) meeting annually, or as otherwise agreed by the representatives, to review matters concerning the implementation and operation of this Chapter and consider issues of interest to the Parties affecting cross-border trade in services;
- (b) coordinating enquiries from one Party to the other for information regarding measures that pertain to or may affect cross-border trade in services;⁷

⁷ With respect to Peru, the ability of small administrative agencies to respond to enquiries may depend on resources and budget constraints.

- (c) considering the development of procedures to increase the transparency of measures described in Article 908;
- (d) reviewing the professional service sectors referred to in paragraph 4 of Article 910; and
- (e) monitoring the work and developments of the relevant professional bodies in each Party regarding mutual recognition agreements on authorization, licensing and certification of professional service providers, and providing reports annually or as otherwise agreed to the Commission on initiatives and progress undertaken by the Parties with respect to the implementation of Article 910.

Annex 910.4

Guidelines for Mutual Recognition Agreements or Arrangements (“MRAs”) for the Professional Services Sector

Introduction

This Annex provides practical guidance for governments, negotiating entities or other entities entering into mutual recognition negotiations for the professional services sector. The guidelines contained in it are non-binding but a Party shall consider them when negotiating MRAs. They do not modify or affect the rights and obligations of the Parties under this Agreement.

The objective of these guidelines is to make it easier for each Party to negotiate MRAs.

The examples listed under the various sections of these guidelines are provided by way of illustration. The listing of these examples is indicative and is intended neither to be exhaustive nor as an endorsement of the application of such measures by a Party.

A. Conduct of Negotiations and Relevant Obligations under this Agreement

With reference to the obligations under Article 910, this section sets out elements considered useful in the discharge of these obligations.

1. Opening of Negotiations

The information supplied by a Party to the Commission should include the following:

- (a) the intent to enter into negotiations;
- (b) the entities involved in discussions (e.g. governments, national organisations in the professional services sector or institutes which have authority - statutory or otherwise - to enter into such negotiations);
- (c) a contact point to obtain further information;
- (d) the subject of negotiations (specific activities covered); and
- (e) the expected time of the start of negotiations and an indicative date for the expression of interest by governments or entities.

2. Results

On the conclusion of an MRA by a Party, the information it should supply to the Commission should include:

- (a) the content of the agreement (if it is a new agreement); or
- (b) significant modifications to the agreement (if an agreement already exists).

3. Follow-Up Actions

Follow-up actions by the Parties supplying information under paragraph 1 should include ensuring that:

- (a) the conduct of negotiations and the agreement itself comply with the provisions of this Chapter, in particular Article 910; and
- (b) they adopt any measures and undertake any actions required to ensure the implementation and monitoring of the agreement in accordance with paragraph 5 of Article 910.

4. Single negotiating entity

Where no single negotiating entity exists, the Party is encouraged to establish one.

B. Form and Content of Agreement/Arrangement

This section sets out various issues that may be addressed in any negotiations and, if so agreed, included in the final agreement. It outlines some basic ideas on what a Party might require of foreign professionals seeking to take advantage of an MRA.

1. Participants

The MRA should identify clearly:

- (a) the parties to the agreement (e.g. governments, national professional associations or institutes);
- (b) competent authorities or organisations other than the parties to the agreement, if any, and their position in relation to the agreement; and
- (c) the status and area of competence of each party to the agreement.

2. Purpose of agreement

The purpose of the MRA should be clearly stated.

3. Scope of agreement

The MRA should set out clearly:

- (a) the scope of the agreement in terms of the specific profession or titles and professional activities it covers in the territories of the parties;
- (b) who is entitled to use the professional titles concerned;

- (c) whether the recognition mechanism is based on qualifications, or on the licence obtained in the country of origin, or some other requirement; and
- (d) whether the agreement covers temporary and/or permanent access to the profession concerned.

4. Mutual recognition provisions

The MRA should clearly specify the conditions to be met for recognition in the territories of each party and the level of equivalence agreed between the parties. The precise terms of the agreement will depend on the basis on which the MRA is founded, as discussed above. In case the requirements of the various sub-national jurisdictions of a party to an MRA are not identical, the difference should be clearly presented. The agreement should address the applicability of the recognition granted by one sub-national jurisdiction in the other sub-national jurisdictions of the party.

- (a) Eligibility for recognition
 - (i) Qualifications

If the MRA is based on recognition of qualifications, then it should, where applicable, state:

- the minimum level of education required (e.g. entry requirements, length of study, subjects studied),
- the minimum level of experience required (e.g. location, length and conditions of practical training or supervised professional practice prior to licensing, framework of ethical and disciplinary standards),

- examinations passed (especially examinations of professional competence),
- the extent to which home country qualifications are recognised in the host country, and
- the qualifications which the parties are prepared to recognise, for instance, by listing particular diplomas or certificates issued by certain institutions, or by reference to particular minimum requirements to be certified by the authorities of the country of origin, including whether the possession of a certain level of qualification would allow recognition for some activities but not others.

(ii) Registration

If the MRA is based on recognition of the licensing or registration decision made by regulators in the country of origin, it should specify the mechanism by which eligibility for such recognition may be established.

- (b) Additional requirements for recognition in the host country
 - (i) Where it is considered necessary to provide for additional requirements, in order to ensure the quality of the service, the MRA should set out the conditions under which those requirements may apply, e.g. in case of shortcomings in relation to qualification requirements in the host country or knowledge of local law, practice, standards and regulations. This knowledge should be essential for practice in the host jurisdiction or required because there are differences in the scope of licensed practice, and
 - (ii) Where additional requirements are deemed necessary, the MRA should set out in detail what they entail (e.g., examination, and aptitude test, additional practice in the host country or in the country of origin, practical training, and language used for examination).

5. Mechanisms for implementation

The MRA should state:

- (a) the rules and procedures to be used to monitor and enforce the provisions of the agreement;
- (b) the mechanisms for dialogue and administrative co-operation between the parties; and
- (c) the means of arbitration for disputes under the MRA.

As a guide to the treatment of individual applicants, the MRA should include details on:

- (a) the focal point of contact in each party for information on all issues relevant to the application (e.g. name and address of competent authorities, licensing formalities, information on additional requirements which need to be met in the host country);
- (b) the length of procedures for the processing of applications by the relevant authorities of the host country;
- (c) the documentation required of applicants and the form in which it should be presented and any time limits for applications;
- (d) acceptance of documents and certificates issued in the country of origin in relation to qualifications and licensing;
- (e) the procedures of appeal to or review by the relevant authorities; and
- (f) any fees that might be reasonably required.

The MRA should also include the following commitments:

- (a) that requests about the measures will be promptly dealt with;
- (b) that adequate preparation time will be provided where necessary;
- (c) that any exams or tests will be arranged with reasonable frequency;

- (d) that fees to applicants seeking to take advantage of the terms of the MRA will be in proportion to the cost to the host country or organisation; and
- (e) to supply information on any assistance programmes in the host country for practical training, and any commitments of the host country in that context.

6. Licensing and other provisions in the host country

Where applicable:

- (a) the MRA should also set out the means by which, and the conditions under which, a licence is actually obtained following the establishment of eligibility, and what this licence entails (e.g. a licence and its content, membership of a professional body, use of professional and/or academic titles). Any licensing requirements other than qualifications should be explained, and should include such information as:
 - (i) an office address, an establishment requirement or a residency requirement,
 - (ii) a language requirement,
 - (iii) proof of good conduct and financial standing,
 - (iv) professional indemnity insurance,
 - (v) compliance with host country's requirements for use of trade/firm names, and

- (vi) compliance with host country ethics (e.g. independence and inappropriate behavior);
- (b) in order to ensure the transparency of the system, the MRA should include the following details for each party:
- (i) the relevant laws and regulations to be applied (e.g. disciplinary action, financial responsibility, liability),
 - (ii) the principles of discipline and enforcement of professional standards, including disciplinary jurisdiction and any consequential limitations on the professionals,
 - (iii) the means for ongoing verification of competence,
 - (iv) the criteria for and procedures relating to revocation of the registration of professionals, and
 - (v) regulations relating to any nationality and residency requirements needed for the purposes of the MRA.

7. Revision of the agreement

If the MRA includes terms under which it can be reviewed or revoked, the details should be clearly stated.

CHAPTER TEN

TELECOMMUNICATIONS

Article 1001: Scope and Coverage

1. This Chapter applies to:
 - (a) measures adopted or maintained by a Party relating to access to and use of public telecommunications transport networks and services;
 - (b) measures adopted or maintained by a Party relating to obligations of suppliers of public telecommunications transport networks and services;
 - (c) other measures adopted or maintained by a Party relating to public telecommunications transport networks or services; and
 - (d) measures adopted or maintained by a Party relating to the supply of value-added services.

2. This Chapter does not apply to any measure of a Party affecting the transmission by any means of telecommunications, including broadcast and cable distribution of radio or television programming intended for reception by the public.

3. Nothing in this Chapter shall be construed to:
 - (a) require a Party to authorize an enterprise of the other Party to establish, construct, acquire, lease, operate or supply telecommunications transport networks or services, other than as specifically provided in this Agreement;

- (b) require a Party (or require a Party to compel any enterprise) to establish, construct, acquire, lease, operate or supply telecommunications transport networks or services not offered to the public generally; or
- (c) prevent a Party from prohibiting persons operating private networks from using their networks to supply public telecommunications networks or services to third persons.

Article 1002: Access to and Use of Public Telecommunications Transport Networks and Services¹

1. Subject to a Party's right to restrict the supply of a service in accordance with its Reservations in Annexes I and II, a Party shall ensure that enterprises of the other Party are accorded access to and use of public telecommunications transport networks and services on reasonable and non-discriminatory terms and conditions. This obligation shall be applied, *inter alia*, through paragraphs 2 through 6.

2. Each Party shall ensure that enterprises of the other Party have access to and use of any public telecommunications transport networks and services offered within or across its borders, including private leased circuits, and to this end shall ensure, subject to paragraphs 5 and 6, that such enterprises are permitted to:

- (a) purchase or lease and attach terminal or other equipment that interfaces with the public telecommunications transport networks;
- (b) interconnect private leased or owned circuits with public telecommunications transport networks and services of that Party or with circuits leased or owned by another enterprise;

¹ For greater certainty, this Article does not prohibit any Party from requiring an enterprise to obtain a license, concession, or other type of authorization to supply any public telecommunications service within its territory.

- (c) perform switching, signaling, and processing functions; and
- (d) use operating protocols of their choice.

3. Each Party shall ensure that enterprises of the other Party may use public telecommunications transport networks and services for the movement of information in its territory or across its borders, including for intra-corporate communications of such enterprises, and for access to information contained in databases or otherwise stored in machine-readable form in the territory of either Party.

4. Further to Article 2201 (Exceptions - General Exceptions), and notwithstanding paragraph 3, a Party may take such measures as are necessary to:

- (a) ensure the security and confidentiality of messages; or
- (b) protect the non-public information of users of public telecommunications transport services provided that such measures are not applied in a manner that would constitute a means of arbitrary or unjustifiable discrimination or a disguised restriction on trade in services.

5. Each Party shall ensure that no condition is imposed on access to and use of public telecommunications transport networks or services other than as necessary to:

- (a) safeguard the public service responsibilities of suppliers of public telecommunications transport networks and services, in particular their ability to make their networks or services available to the public generally;

- (b) protect the technical integrity of public telecommunications transport networks and services; or
- (c) ensure that service suppliers of the other Party do not supply services that they are not entitled to supply pursuant to the Party's Reservations in Annexes I and II.

6. Provided that conditions for access to and use of public telecommunications transport networks or services satisfy the criteria set out in paragraph 5, such conditions may include:

- (a) a requirement to use specified technical interfaces, including interface protocols, for interconnection with such networks and services;
- (b) requirements, where necessary, for the inter-operability of such services;
- (c) type approval of terminal or other equipment that interfaces with the network and technical requirements relating to the attachment of such equipment to such networks;
- (d) restrictions on interconnection of private leased or owned circuits with such networks or services or with circuits leased or owned by another service supplier; and
- (e) notification, registration and licensing.

Article 1003: Conduct of Major Suppliers

Treatment by Major Suppliers²

1. Each Party shall ensure that major suppliers in its territory accord suppliers of public telecommunications transport services of the other Party treatment no less favourable than such major suppliers accord to their subsidiaries, their affiliates, or non-affiliated service suppliers regarding:

- (a) the availability, provisioning, rates, or quality of like public telecommunications services; and
- (b) the availability of technical interfaces necessary for interconnection.

Competitive Safeguards

2. (a) Each Party shall maintain appropriate measures for the purpose of preventing suppliers that, alone or together, are a major supplier from engaging in or continuing anti-competitive practices.

(b) The anti-competitive practices referred to in subparagraph (a) include:

- (i) engaging in anti-competitive cross-subsidization,
- (ii) using information obtained from competitors with anti-competitive results, and

² This provision shall only apply to public telecommunications transport services that are subject to tariff regulation under domestic law.

- (iii) not making available to other service suppliers, on a timely basis, technical information about essential facilities and commercially relevant information, that is necessary for them to provide public telecommunications transport services.

Resale

3. Each Party has the authority to identify the public telecommunications transport networks or services available for provision on a mandatory resale basis. For the public telecommunications transport network and services available on mandatory resale basis, each Party shall ensure that suppliers do not unjustly discriminate or give an undue preference concerning the conditions or limitations on the resale of such services.

Interconnection

4. (a) General Terms and Conditions

Subject to a Party's Reservations under Annexes I and II, each Party shall ensure that major suppliers in its territory provide interconnection:

- (i) at any technically feasible point in the network,
- (ii) under non-discriminatory terms, conditions (including technical standards and specifications), and rates,
- (iii) of a quality no less favourable than that provided for its own like services, for like services of non-affiliated service suppliers, or for its subsidiaries or other affiliates,

- (iv) in a timely fashion, on terms, conditions (including technical standards and specifications), and cost-oriented rates that are transparent, reasonable, having regard to economic feasibility, and sufficiently unbundled so that the supplier need not pay for network components or facilities that it does not require for the service to be provided, and
- (v) upon request, at points in addition to the network termination points offered to the majority of users, subject to charges that reflect the cost of construction of necessary additional facilities.

(b) Options for Interconnecting with Major Suppliers

Options for suppliers of public telecommunications transport services of a Party to interconnect their facilities with those of major suppliers in the territory of the other Party may include:

- (i) a reference interconnection offer or another standard interconnection offer containing terms, conditions, and where possible, rates that the major suppliers offer generally to suppliers of public telecommunications transport services,
- (ii) the terms and conditions of an interconnection agreement in force, or
- (iii) the negotiation of a new interconnection agreement.

(c) Public Availability of Interconnection Offers

Each Party shall require major suppliers in its territory to make publicly available its interconnection agreements, reference interconnection offers, or other standard interconnection offers containing the terms, conditions, and where specified, rates that the major suppliers offer generally to suppliers of public telecommunications transport services.

(d) Public Availability of Procedures for Interconnection Negotiations

Each Party shall make publicly available the applicable procedures for interconnection negotiations with major suppliers in its territory.

(e) Public Availability of Interconnection Agreements Concluded with Major Suppliers

Each Party shall ensure that interconnection agreements in force between major suppliers in its territory and other suppliers of public telecommunications services in its territory are made publicly available.

Article 1004: Regulatory Body

1. Each Party shall ensure that its regulatory body is separate from, and not accountable to, any supplier of public telecommunications transport networks or services and value-added services.

2. Each Party shall ensure that its regulatory body's decisions and procedures are impartial with respect to all market participants.

Article 1005: Universal Service

Each Party has the right to define the kind of universal service obligations it wishes to maintain and shall administer those obligations in a transparent, non-discriminatory, and competitively neutral manner and shall ensure that its universal service obligations are not more burdensome than necessary for the kind of universal service defined by the Party.

Article 1006: Procedures for Licenses and Other Authorizations

1. Where a Party requires a supplier of public telecommunications transport networks or services to have a license, concession, permit, registration, or other type of authorization, the Party shall make publicly available:

- (a) all applicable licensing or authorization criteria and procedures;
- (b) the time it normally requires to reach a decision concerning an application for a license, concession, permit, registration, or other type of authorization; and
- (c) the terms and conditions of all licenses or authorizations it has issued.

2. Where a license, concession, permit, registration, or other type of authorization is required to supply public telecommunications transport networks or services, the decision on the application for a license, concession, permit, registration, or other type of authorization will be made within a reasonable period of time once the application has been considered complete, and in the event of a denial, the reasons will be made known to the applicant upon request.

Article 1007: Allocation and Use of Scarce Resources

1. Each Party shall administer its procedures for the allocation and use of scarce telecommunications resources, including frequencies, numbers, and rights-of-way, in an objective, timely, transparent, and non-discriminatory manner.

2. Each Party shall make publicly available the current state of allocated frequency bands but shall not be required to provide detailed identification of frequencies allocated for specific government uses.

3. A Party's measures allocating and assigning spectrum and managing frequencies shall not be considered inconsistent with Article 906 (Cross-Border Trade in Services - Market Access), as it applies to either Chapters Eight (Investment) or Nine (Cross-Border Trade in Services). Accordingly, each Party retains the right to establish and apply its spectrum and frequency management policies that may limit the number of suppliers of public telecommunications transport services. Each Party also retains the right to allocate frequency bands, taking into account present and future needs and spectrum availability.

4. When making a spectrum allocation for non-government telecommunications services, each Party shall endeavour to rely on an open and transparent public comment process that considers the overall public interest. Each Party shall endeavour to rely generally on market-based approaches in assigning spectrum for terrestrial non-government telecommunications services.

Article 1008: Enforcement

Each Party shall maintain appropriate procedures and authority to enforce the Party's measures relating to the obligations set out in Articles 1002 and 1003. Such procedures and authority shall include the ability to impose appropriate sanctions, which may include financial penalties, injunctive relief (on an interim basis), corrective orders, or the modification, suspension or revocation of licenses or other authorizations.

Article 1009: Resolution of Domestic Telecommunication Disputes

Recourse to Regulatory Bodies

1. Further to Article 1903 (Transparency - Administrative Proceedings) and 1904 (Transparency - Review and Appeal), each Party shall ensure the following:
 - (a) suppliers of public telecommunications transport networks or services or value-added services of the other Party have timely recourse to its regulatory body or other relevant body to resolve disputes regarding the Party's measures that relate to matters covered in Articles 1002 and 1003 and that, under the domestic law of the Party, are within the competence of such bodies; and

- (b) suppliers of public telecommunications transport networks or services of the other Party requesting interconnection with a major supplier in the Party's territory have recourse within a reasonable and publicly specified period after the supplier requests interconnection, to a regulatory body to resolve disputes regarding the appropriate terms, conditions, and rates for interconnection with such major supplier, to the extent that these have not been established previously.

*Reconsideration*³

2. Each Party shall ensure that any supplier of public telecommunications transport networks or services that is aggrieved or whose interests are adversely affected by the determination or decision of a regulatory body may petition that body for reconsideration of that determination or decision. No Party may permit such a petition to constitute grounds for non-compliance with the determination or decision of the regulatory body unless an appropriate authority stays such determination or decision.

Article 1010: Transparency

Further to Articles 1901 (Transparency - Publication) and 1902 (Transparency - Notification and Provision of Information), and in addition to the other provisions in this Chapter relating to the publication of information, each Party shall ensure that:

- (a) regulations, including the basis for such regulations, of its regulatory body and tariffs filed with its regulatory body are promptly published or otherwise made publicly available;

³ With respect to Canada, reconsideration shall not apply to any determination or decision related to the establishment and application of spectrum and frequency management policies. With respect to Peru, suppliers of public telecommunication transport networks or services may not petition for reconsideration of administrative rulings of general application, as defined in Article 1906 (Definitions - Transparency), unless provided for under its laws and regulations.

- (b) interested persons are provided, to the extent possible, with adequate advance public notice of, and the opportunity to comment on, any regulation that its regulatory body proposes; and
- (c) its measures relating to public telecommunications transport network or services and, where applicable, to value-added services, are made publicly available, including measures relating to:
 - (i) tariffs and other terms and conditions of service,
 - (ii) procedures relating to judicial and other adjudicatory proceedings,
 - (iii) specifications of technical interfaces,
 - (iv) conditions for attaching terminal or other equipment to the public telecommunications transport network,
 - (v) notification, permit, registration, or licensing requirements, if any, and
- (d) information on bodies responsible for preparing, amending and adopting standards related measures is made publicly available.

Article 1011: Forbearance

The Parties recognize the importance of relying on market forces to achieve wide choices in the supply of telecommunications services. To this end, each Party may refrain from applying a regulation to a telecommunications service when:

- (a) enforcement of such regulation is not necessary to prevent unreasonable or discriminatory practices;
- (b) enforcement of such regulation is not necessary for the protection of consumers; or
- (c) it is consistent with the public interest, including promoting and enhancing competition between suppliers of public telecommunications transport networks and services.

 - (a) financial institutions of the other Party;
 - (b) investors of the other Party, and investments of such investors, in financial institutions in the Party's territory; and
 - (c) cross-border trade in financial services.

2. Chapters Eight (Investment) and Nine (Cross-Border Trade in Services) apply to measures described in paragraph 1 only to the extent that such Chapters or Articles of such Chapters are incorporated into this Chapter.
 - (a) Articles 813 (Investment - Transfers), 812 (Investment - Expropriation and Compensation), 816 (Investment - Special Formalities and Information Requirements), 815 (Investment - Denial of Benefits), 809 (Investment - Health, Safety and Environmental Measures) and 912 (Cross-Border Trade in Services - Denial of Benefits) are hereby incorporated into and made a part of this Chapter.

- (b) Section B of Chapter Eight is hereby incorporated into and made a part of this Chapter solely for claims that a Party has breached Articles 813 (Investment - Transfers), 812 (Investment - Expropriation and Compensation), or 815 (Investment - Denial of Benefits) as incorporated into this Chapter, or claims pursuant to subparagraph 1(c) of Article 819 (Investment - Claim by an Investor of a Party on Its Own Behalf) or subparagraph 1(c) of Article 820 (Investment - Claim by an Investor of a Party on Behalf of an Enterprise) that a Party has breached a legal stability agreement.
 - (c) Article 911 (Cross-Border Trade in Services - Transfers and Payments) is incorporated into and made a part of this Chapter to the extent that cross-border trade in financial services is subject to obligations pursuant to Article 1105.
- 3. Nothing in this Chapter shall be construed to prevent a Party, including its public entities, from exclusively conducting or providing in its territory:
 - (a) activities or services forming part of a public retirement plan or statutory system of social security; or
 - (b) activities or services for the account or with the guarantee or using the financial resources of the Party, including its public entities.
- 4. Annex 1101.3(a) sets out the Parties' understanding with respect to certain activities or services described in subparagraph 3(a).
- 5. Annex 1101.5 sets out, for greater certainty, certain understandings between the Parties regarding financial services measures.

Article 1102: National Treatment

1. Each Party shall accord to investors of the other Party treatment no less favourable than that it accords to its own investors, in like circumstances, with respect to the establishment, acquisition, expansion, management, conduct, operation and sale or other disposition of financial institutions and investments in financial institutions in its territory.

2. Each Party shall accord to financial institutions of the other Party and to investments of investors of the other Party in financial institutions treatment no less favourable than that it accords to its own financial institutions and to investments of its own investors in financial institutions, in like circumstances, with respect to the establishment, acquisition, expansion, management, conduct, operation, and sale or other disposition of financial institutions and investments.

3. For purposes of the national treatment obligations in paragraph 1 of Article 1105, a Party shall accord to cross-border financial service suppliers of the other Party treatment no less favourable than that it accords to its own financial service suppliers, in like circumstances, with respect to the supply of the relevant service.

4. The treatment that a Party is required to accord under paragraphs 1, 2 and 3 means, with respect to measures adopted or maintained by a sub-national government, treatment no less favourable than the most favourable treatment accorded, in like circumstances, by that sub-national government to investors in financial institutions, financial institutions, investments of investors in financial institutions and financial service suppliers, of the Party of which it forms a part.

5. Differences in market share, profitability or size do not in themselves establish a breach of the obligations under this Article.

Article 1103: Most-Favoured-Nation Treatment

1. Each Party shall accord to investors of the other Party, financial institutions of the other Party, investments of investors of the other Party in financial institutions and cross-border financial service suppliers of the other Party treatment no less favourable than that it accords to the investors, financial institutions, investments of investors in financial institutions and cross-border financial service suppliers of a non-Party, in like circumstances.
2. A Party may recognize prudential measures of a non-Party in the application of measures covered by this Chapter. Such recognition may be:
 - (a) accorded unilaterally;
 - (b) achieved through harmonization or other means; or
 - (c) based upon an agreement or arrangement with the non-Party.
3. A Party according recognition of prudential measures under paragraph 2 shall provide adequate opportunity to the other Party to demonstrate that circumstances exist in which there are or will be equivalent regulation, oversight, implementation of regulation, and, if appropriate, procedures concerning the sharing of information between the Parties.
4. Where a Party accords recognition of prudential measures under subparagraph 2(c) and the circumstances set out in paragraph 3 exist, the Party shall provide adequate opportunity to the other Party to negotiate accession to the agreement or arrangement or to negotiate a comparable agreement or arrangement.

Article 1104: Right of Establishment

1. A Party shall permit an investor of the other Party that does not own or control a financial institution in the Party's territory to establish a financial institution permitted to supply financial services that such an institution may supply under the domestic law of the Party at the time of establishment, without the imposition of numerical restrictions or requirements to take a specific juridical form. The obligation not to impose requirements to take a specific juridical form does not prevent a Party from imposing conditions or requirements in connection with the establishment of a particular type of entity chosen by an investor of the other Party.

2. A Party shall permit an investor of the other Party that owns or controls a financial institution in the Party's territory to establish such additional financial institutions as may be necessary for the supply of the full range of financial services allowed under the domestic law of the Party at the time of establishment of the additional financial institutions. Subject to Article 1102, a Party may impose terms and conditions on the establishment of additional financial institutions and determine the institutional and juridical form that shall be used for the supply of specified financial services or the carrying out of specified activities.

3. The right of establishment under paragraphs 1 and 2 shall include the acquisition of existing entities.

4. Subject to Article 1102, a Party may, in exceptional circumstances, prohibit a particular financial service or activity. Such a prohibition may not apply to all financial services or to a complete financial services sub-sector such as banking.

5. For the purpose of this Article, without prejudice to other forms of prudential regulation, a Party may require that an investor of the other Party be engaged in the business of providing financial services in the territory of that Party.

6. For the purpose of this Article, “numerical restrictions” means limitations imposed, either on the basis of a regional subdivision or on the basis of the entire territory of a Party, on the number of financial institutions whether in the form of numerical quotas, monopolies, exclusive service suppliers or the requirements of an economic needs test.

Article 1105: Cross-Border Trade

1. Each Party shall permit, under terms and conditions that accord national treatment, cross-border financial service suppliers of the other Party to supply the financial services specified in Annex 1105.

2. Each Party shall permit persons located in its territory, and its nationals wherever located, to purchase financial services from cross-border financial service suppliers of the other Party located in the territory of the other Party. This obligation does not require a Party to permit such suppliers to do business or solicit in its territory. Each Party may define “doing business” and “solicitation” for purposes of this Article so long as such definitions are not inconsistent with the obligation of paragraph 1.

3. Without prejudice to other means of prudential regulation of cross-border trade in financial services, a Party may require the registration of cross-border financial service suppliers of the other Party and of financial instruments.

Article 1106: New Financial Services

1. Each Party shall permit a financial institution of the other Party, on request or notification to the relevant regulator, where required, to supply any new financial service that the first Party would permit its own financial institutions, in like circumstances, to supply under its domestic law, provided that the introduction of the financial service does not require the Party to adopt new statutes or modify existing statutes.

2. A Party may determine the institutional and juridical form through which the new financial service may be supplied and may require authorization for the supply of the service. Where a Party would permit the new financial service and authorization is required, the decision shall be made within a reasonable time and authorization may only be refused for prudential reasons.

3. Nothing in this Article prevents a financial institution of a Party from applying to the other Party to consider authorizing the supply of a financial service that is not supplied within either Party's territory. Such application shall be subject to the domestic law of the Party to which the application is made and, for greater certainty, shall not be subject to the obligations of this Article.

Article 1107: Treatment of Certain Information

Nothing in this Chapter requires a Party to furnish or allow access to:

- (a) information related to the financial affairs and accounts of individual customers of financial institutions or cross-border financial service suppliers; or

- (b) any confidential information, the disclosure of which would impede law enforcement or otherwise be contrary to the public interest or prejudice legitimate commercial interests of particular enterprises.

Article 1108: Senior Management and Boards of Directors

1. Neither Party may require financial institutions of the other Party to engage natural persons of any particular nationality as senior managerial or other essential personnel.
2. Neither Party may require that more than a simple majority of the board of directors of a financial institution of the other Party be composed of nationals of the Party, natural persons residing in the territory of the Party, or a combination thereof.

Article 1109: Non-Conforming Measures

1. Articles 1102, 1103, 1104 and 1108 do not apply to:
 - (a) any existing non-conforming measure that is maintained by a Party at the level of the:
 - (i) national government, as set out in Section I of its Schedule to Annex III, or
 - (ii) sub-national government;
 - (b) the continuation or prompt renewal of any non-conforming measure referred to in subparagraph (a); or

- (c) an amendment to any non-conforming measure referred to in subparagraph (a) to the extent that the amendment does not decrease the conformity of the measure, as it existed immediately before the amendment, with Articles 1102, 1103, 1104 and 1108.

2. Article 1105 does not apply to:

- (a) any existing non-conforming measure that is maintained by a Party at the level of the:
 - (i) national government, as set out in Section I of its Schedule to Annex III, or
 - (ii) sub-national government;
- (b) the continuation or prompt renewal of any non-conforming measure referred to in subparagraph (a); or
- (c) an amendment to any non-conforming measure referred to in subparagraph (a) to the extent that the amendment does not decrease the conformity of the measure, as it existed upon the entry into force of this Agreement, with Article 1105.

3. Articles 1102, 1103, 1104, 1105 and 1108 do not apply to any non-conforming measure that a Party adopts or maintains in accordance with Section II of its Schedule to Annex III.

4. Section III of each Party's Schedule to Annex III sets out certain specific commitments by that Party.

5. Where a Party has set out a reservation to Article 803 (Investment - National Treatment), 804 (Investment - Most-Favoured-Nation Treatment), 903 (Cross-Border Trade in Services - National Treatment) or 904 (Cross-Border Trade in Services - Most-Favoured-Nation Treatment) in its Schedule to Annex I or II, the reservation also constitutes a reservation to Article 1102 or 1103, as the case may be, to the extent that the measure, sector, sub-sector or activity set out in the reservation is covered by this Chapter.

Article 1110: Exceptions

1. Nothing in this Chapter or Chapter Eight (Investment), Chapter Nine (Cross-Border Trade in Services), Chapter Ten (Telecommunications), Chapter Twelve (Temporary Entry of Business Persons), Chapter Thirteen (Competition Policy, Monopolies and State Enterprises), or Chapter Fifteen (Electronic Commerce) shall be construed to prevent a Party from adopting or maintaining measures for prudential reasons,¹ including for the protection of investors, depositors, policy holders or persons to whom a fiduciary duty is owed by a financial institution or cross-border financial service supplier, or to ensure the integrity and stability of the financial system. Where such measures do not conform with the provisions of this Agreement referred to in this paragraph, they shall not be used as a means of avoiding the Party's obligations under such provisions.

¹ The term "prudential reasons" includes the maintenance of the safety, soundness, integrity, or financial responsibility of individual financial institutions or cross-border financial service suppliers.

2. Nothing in this Chapter or Chapter Eight (Investment), Chapter Nine (Cross-Border Trade in Services), Chapter Ten (Telecommunications), Chapter Twelve (Temporary Entry of Business Persons), Chapter Thirteen (Competition Policy, Monopolies and State Enterprises), or Chapter Fifteen (Electronic Commerce) applies to non-discriminatory measures of general application taken by any public entity in pursuit of monetary and related credit policies or exchange rate policies. This paragraph shall not affect a Party's obligations under Article 807 (Investment - Performance Requirements) with respect to measures covered by Chapter Eight (Investment), Article 813 (Investment - Transfers) or Article 912 (Cross Border Services - Transfers and Payments).

3. Notwithstanding Article 813 (Investment - Transfers) and Article 912 (Cross Border Services - Transfers and Payments), as incorporated into this Chapter, a Party may prevent or limit transfers by a financial institution or cross-border financial service supplier to, or for the benefit of, an affiliate of or person related to such institution or supplier, through the equitable, non-discriminatory and good faith application of measures relating to maintenance of the safety, soundness, integrity or financial responsibility of financial institutions or cross-border financial service suppliers. This paragraph does not prejudice any other provision of this Agreement that permits a Party to restrict transfers.

4. For greater certainty, nothing in this Chapter shall be construed to prevent the adoption or enforcement by a Party of measures necessary to secure compliance with laws or regulations that are not inconsistent with this Chapter, including those relating to the prevention of deceptive and fraudulent practices or to deal with the effects of a default on financial services contracts, subject to the requirement that such measures are not applied in a manner that would constitute a means of arbitrary or unjustifiable discrimination between countries where like conditions prevail, or a disguised restriction on investment in financial institutions or cross-border trade in financial services, as covered by this Chapter.

Article 1111: Transparency

1. The Parties recognize that transparent regulations and policies governing the activities of financial institutions and financial service suppliers are important in facilitating both access of financial institutions and financial service suppliers to, and their operations in, each other's markets. - (b) provide interested persons and the other Party a reasonable opportunity to comment on such proposed regulations; and

- (c) allow reasonable time between publication of final regulations and their effective date,

and these requirements shall replace those set out in Article 1901 (Transparency - Publication).

4. Each Party's regulatory authorities shall make available to interested persons their requirements, including any documentation required, for completing applications relating to the supply of financial services.

5. On the request of an applicant, a regulatory authority shall inform the applicant of the status of its application. If such authority requires additional information from the applicant, it shall notify the applicant without undue delay.

6. A regulatory authority shall make an administrative decision on a completed application of an investor in a financial institution, a financial institution or a cross-border financial service supplier of the other Party relating to the supply of a financial service within 120 days, and shall promptly notify the applicant of the decision. An application shall not be considered complete until all relevant hearings are held and all necessary information is received. Where it is not practicable for a decision to be made within 120 days, the regulatory authority shall notify the applicant without undue delay and shall endeavour to make the decision within a reasonable time thereafter.

7. Each Party shall maintain or establish appropriate mechanisms that will, as soon as practicable, respond to inquiries from interested persons regarding measures of general application covered by this Chapter.

8. On the request of an unsuccessful applicant, a regulatory authority that has denied an application shall, to the extent practicable, inform the applicant of the reasons for denial of the application.

Article 1112: Self-Regulatory Organizations

Where a Party requires a financial institution or a cross-border financial service supplier of the other Party to be a member of, participate in or have access to a self-regulatory organization to provide a financial service in or into the territory of that Party, the Party shall ensure observance of the obligations of Articles 1102, 1103, 1104, 1111 and other relevant Articles of this Chapter by such self-regulatory organization.

Article 1113: Payment and Clearing Systems

Under terms and conditions that accord national treatment, each Party shall grant to financial institutions of the other Party established in its territory access to payment and clearing systems operated by public entities as well as access to official funding and refinancing facilities available in the normal course of ordinary business. This Article is not intended to confer access to the Party's lender of last resort facilities.

Article 1114: Financial Services Committee

1. The Parties hereby establish the Financial Services Committee (the "Committee"). The principal representative of each Party shall be an official of the Party's authority responsible for financial services set out in Annex 1114.

1. A Party may request consultations with the other Party regarding any matter arising under this Agreement that affects financial services. The other Party shall give sympathetic consideration to the request. The Parties shall report the results of their consultations to the Committee.
2. Officials from the authorities specified in Annex 1114 shall participate in the consultations under this Article.
3. A Party may request that regulatory authorities of the other Party participate in consultations under this Article regarding that other Party's measures of general application which may affect the operations of financial institutions or cross-border financial service suppliers in the requesting Party's territory.
4. Nothing in this Article shall be construed to require regulatory authorities participating in consultations pursuant to paragraph 3 to disclose information or take any action that would interfere with specific regulatory, supervisory, administrative or enforcement matters.

5. Where a Party requires information for supervisory purposes concerning a financial institution in the other Party's territory or a cross-border financial service supplier in the other Party's territory, the Party may approach the competent regulatory authority in the other Party's territory to seek the information.

6. Nothing in this Article shall be construed to require a Party to derogate from its domestic law regarding the sharing of information among financial regulators or the requirements of an agreement or arrangement between financial authorities of the Parties.

Article 1116: Dispute Settlement

1. Chapter Twenty-One (Dispute Settlement), as modified by this Article, applies to the settlement of disputes arising under this Chapter.

2. Consultations held pursuant to Article 1115 with respect to a measure or matter constitute consultations under Article 2104 (Dispute Settlement - Consultations), unless the Parties otherwise agree. If the matter has not been resolved within 45 days after commencing consultations under Article 1115 or 90 days after the delivery of the request for consultations pursuant to Article 1115, whichever is earlier, the complaining Party may request in writing the establishment of a panel.

3. The following procedures shall replace Article 2108 (Dispute Settlement - Panel Selection):

- (a) the panel shall be composed of three members;

- (b) each Party shall, within 30 days of the delivery of the request for the establishment of the panel, appoint a panelist who may be a national of that Party and notify the other Party in writing of the appointment. If a Party fails to appoint a panelist within 30 days, the other Party may request the Appointing Authority to appoint, in its discretion, and subject to paragraph 4, the panelist not yet appointed;
- (c) the Parties shall endeavour to agree on the appointment of the third panelist who shall chair the panel and, unless the Parties agree otherwise, shall not be a national of either Party. If the chair of the panel has not been appointed within 30 days of the most recent appointment under subparagraph (b), either Party may request the Appointing Authority to appoint, in its discretion, and subject to paragraph 4, the chair of the panel, who shall not be a national of either Party;
- (d) subparagraphs (b) and (c) shall apply *mutatis mutandis* where a panelist or the chair of the panel withdraws, is removed or becomes unable to serve on the panel. In such a case, any time period applicable to the panel proceeding shall be suspended for a period beginning on the date a panelist ceases to serve and ending on the date the replacement is appointed.

4. Each panelist on panels constituted for disputes arising under this Chapter shall have the qualifications required by Article 2107 (Dispute Settlement - Qualification of Panelists) with the exception of subparagraph 1(d) of that Article. In addition, they shall have expertise or experience in financial services law or practice, which may include the regulation of financial institutions.

5. In any dispute where a panel finds a measure to be inconsistent with the obligations of this Agreement and the measure affects:

- (a) only the financial services sector, the complaining Party may suspend benefits only in the financial services sector;
- (b) the financial services sector and any other sector, the complaining Party may suspend benefits in the financial services sector that have an effect equivalent to the effect of the measures in the Party's financial services sector; or
- (c) only a sector other than the financial services sector, the complaining Party may not suspend benefits in the financial services sector.

Article 1117: Investment Disputes in Financial Services

1. Where an investor of a Party submits a claim under Article 819 (Investment - Claim by an Investor of a Party on Its Own Behalf) or 820 (Investment - Claim by an Investor of a Party on Behalf of an Enterprise) to arbitration under Section II of Chapter Eight (Investment) and the respondent invokes an exception under Article 1110, on request of the respondent the Tribunal shall refer the matter in writing to the Committee for a decision in accordance with paragraph 2. The Tribunal may not proceed pending receipt of a decision or report under this Article.

2. In a referral pursuant to paragraph 1, the Committee shall decide the issue of whether and to what extent Article 1110 is a valid defence to the claim of the investor. The Committee shall transmit a copy of its decision to the Tribunal and to the Commission. The decision shall be binding on the Tribunal.

- (b) the employment of any person who is involved in such dispute.

3. Each Party shall limit any fees for processing applications for temporary entry of business persons so as to not unduly impair or delay trade in goods or services or the conduct of investment activities under this Agreement.

2. The remedies referred to in subparagraph 1(b) shall be deemed to be exhausted if a final determination in the matter has not been issued by the competent authority within one year of the institution of an administrative proceeding, and the failure to issue a determination is not attributable to delay caused by the business person.

1. Each Party shall maintain its independence in developing and enforcing its competition law.
2. Each Party shall adopt or maintain measures to proscribe anti-competitive business conduct and take appropriate action with respect to such conduct.

3. Each Party shall ensure that any privately-owned monopoly that it designates after the date of entry into force of this Agreement and any government monopoly that it designates, or has designated prior to the date of entry into force of this Agreement:
 - (a) acts in a manner that is not inconsistent with the Party's obligations under this Agreement wherever such a monopoly exercises any regulatory, administrative, or other governmental authority that the Party has delegated to it in connection with the monopoly good or service, such as the power to grant import or export licenses, approve commercial transactions, or impose quotas, fees, or other charges;
 - (b) acts solely in accordance with commercial considerations in its purchase or sale of the monopoly good or service in the relevant market, including with regard to price, quality, availability, marketability, transportation, and other terms and conditions of purchase or sale, except to comply with any terms of its designation that are not inconsistent with subparagraphs (c) or (d);
 - (c) provides non-discriminatory treatment to covered investments, to goods of the other Party and to service suppliers of the other Party in its purchase or sale of the monopoly good or service in the relevant market; and

- (d) does not use its monopoly position to engage, either directly or indirectly, including through its dealings with its parent, its subsidiaries or other enterprises with common ownership, in anticompetitive practices in a non-monopolized market in its territory that adversely affect covered investments.

4. Paragraph 3 does not apply to procurement by a government of goods or services or any combination thereof, for governmental purposes and not with a view to commercial sale or resale, or use in the production or supply of goods or services for commercial sale or resale.

Article 1306: State Enterprises

1. Nothing in this Agreement shall be construed to prevent a Party from establishing or maintaining a state enterprise.

2. Each Party shall ensure, that any state enterprise that it establishes or maintains, acts in a manner that is not inconsistent with the Party's obligations under Chapters Eight (Investment) and Eleven (Financial Services) wherever such enterprise exercises any regulatory, administrative, or other governmental authority that the Party has delegated to it, such as the power to expropriate, grant licenses, approve commercial transactions, or impose quotas, fees, or other charges.

3. Each Party shall ensure that any state enterprise that it maintains or establishes accords non-discriminatory treatment in the sale of its goods or services to covered investments.

Article 1307: Dispute Settlement

1. No Party may have recourse to dispute settlement under Chapter Twenty-One (Dispute Settlement) for any matter arising under this Chapter except for those matters referred to in Articles 1305 and 1306.

3. Where an investor of a Party considers that a designated monopoly or state enterprise of the other Party has acted in a manner inconsistent with that other Party's obligations under Chapter Eleven (Financial Services), the investor may have recourse to investor-state dispute settlement only for a breach of an obligation listed in subparagraph 2(b) of Article 1101 (Financial Services - Scope of Application) of that Chapter.

 - (a) by any contractual means, including purchase and rental or lease, with or without an option to buy;
 - (b) for which the value, as estimated in accordance with paragraph 5, equals or exceeds the relevant threshold specified in Annex 1401.1; and
 - (c) subject to the terms of Annex 1401.1.

2. This Chapter does not apply to:
 - (a) non-contractual agreements or any form of assistance that a Party, including a state enterprise, provides, including grants, loans, equity infusions, fiscal incentives, subsidies, guarantees, and cooperative agreements;
 - (b) government provision of goods or services to persons or to sub-national governments;

4. Where a procuring entity awards a contract that is not covered by this Chapter, nothing in this Chapter shall be construed to cover any good or service component of that contract.

Valuation

5. In estimating the value of a procurement for the purpose of ascertaining whether it is a procurement covered by this Chapter, a procuring entity shall:
- (a) neither divide a procurement into separate procurements nor select or use a particular valuation method for estimating the value of a procurement with the intention of totally or partially excluding it from the application of this Chapter;
 - (b) include the estimated maximum total value of the procurement over its entire duration, whether awarded to one or more suppliers, taking into account all forms of remuneration, including:
 - (i) premiums, fees, commissions, and interest, and
 - (ii) where the procurement provides for the possibility of option clauses, the estimated maximum total value of the procurement, inclusive of optional purchases; and
 - (c) where the procurement is to be conducted in multiple parts, with contracts to be awarded at the same time or over a given period to one or more suppliers, base its calculation of the total maximum value of the procurement over its entire duration.

Article 1402: Security and General Exceptions

1. Nothing in this Chapter shall be construed to prevent a Party from taking any action or not disclosing any information which it considers necessary for the protection of its essential security interests relating to the procurement of arms, ammunition or war materials, or to procurement indispensable for national security or for national defense purposes.

2. Provided that such measures are not applied in a manner that would constitute a means of arbitrary or unjustifiable discrimination between Parties where the same conditions prevail or a disguised restriction on trade between the Parties, nothing in this Chapter shall be construed to prevent a Party from adopting or maintaining measures:

- (a) necessary to protect public morals, order or safety;
- (b) necessary to protect human, animal or plant life or health;
- (c) necessary to protect intellectual property; or
- (d) relating to goods or services of persons with disabilities, philanthropic institutions, or prison labour.

3. The Parties understand that subparagraph 2 (b) includes environmental measures necessary to protect human, animal or plant life or health.

Article 1403: General Principles

National Treatment and Non-Discrimination

1. With respect to any measure relating to procurement covered by this Chapter, each Party shall accord immediately and unconditionally to the goods and services of the other Party, and to the suppliers of the other Party of such goods or services, treatment no less favourable than the most favourable treatment the Party accords to domestic goods, services and suppliers.
2. With respect to any measure relating to procurement covered by this Chapter, a Party shall not:
 - (a) treat a locally established supplier less favourably than another locally established supplier on the basis of the degree of foreign affiliation or ownership; or
 - (b) discriminate against a locally established supplier on the basis that the goods or services offered by that supplier for a particular procurement are goods or services of the other Party.

Conduct of Procurement

3. A procuring entity shall conduct procurement covered by this Chapter in a transparent and impartial manner that:
 - (a) is consistent with this Chapter;
 - (b) avoids conflicts of interest; and
 - (c) prevents corrupt practices.

Tendering Procedures

4. A procuring entity shall use open tendering except where subparagraphs 6 through 9 of Article 1406 or Article 1409 apply.

Rules of Origin

5. With regard to the procurement of goods covered by this Chapter, each Party shall apply the rules of origin that it applies in the normal course of trade to those goods.

Offsets

6. A Party, including its procuring entities, shall not seek, take account of, impose, or enforce offsets at any stage of a procurement covered by this Chapter.

Measures Not Specific to Procurement

7. Paragraphs 1 and 2 do not apply to: customs duties and charges of any kind imposed on, or in connection with, importation; the method of levying such duties and charges; other import regulations or formalities and measures affecting trade in services other than measures governing procurement covered by this Chapter.

Article 1404: Publication of Procurement Information

Each Party shall:

- (a) promptly publish any law, regulation, judicial decision, administrative ruling of general application, and procedure regarding procurement covered by this Chapter, and any modifications thereof, in an officially designated electronic or paper medium that is widely disseminated and remains readily accessible to the public; and
- (b) provide an explanation thereof to the other Party, on request.

Article 1405: Publication of Notices

Notice of Intended Procurement

1. For each procurement covered by this Chapter, a procuring entity shall publish a notice inviting suppliers to submit tenders (“notice of intended procurement”), or where appropriate, a notice inviting applications for participation in the procurement. Any such notice shall be published in an electronic or paper medium that is widely disseminated and readily accessible to the public for the entire period established for tendering. Each Party shall maintain a gateway electronic site that includes links to all notices of procuring entities for procurements covered by this Chapter.

2. Each notice of intended procurement shall include:
 - (a) a description of the procurement, including the nature, and where known, the quantity of the goods or services to be procured;
 - (b) the procurement method that will be used and whether it will involve negotiation or electronic auction;
 - (c) a list of conditions for participation of suppliers;
 - (d) the name and address of the procuring entity and other information necessary to contact the procuring entity and obtain all relevant documents relating to the procurement, and their cost and terms of payment, if applicable;
 - (e) the address and time limits for the submission of tenders or applications for participation;
 - (f) the time-frame for delivery of the goods or services to be procured or the duration of the contract;
 - (g) where, pursuant to Article 1406, a procuring entity intends to select a limited number of qualified suppliers to be invited to tender, the criteria that will be used to select them and, where applicable, any limitation on the number of suppliers that will be permitted to tender; and
 - (h) an indication that the procurement is covered by this Chapter.

Notice of Planned Procurement

3. Each Party shall encourage its procuring entities to publish as early as possible in each fiscal year notices regarding their respective procurement plans. Such notices should include the subject matter of any planned procurement and the estimated date of the publication of the notice of intended procurement.

Article 1406: Conditions for Participation

General Requirements

1. Where a Party, including its procuring entities, requires suppliers to satisfy registration, qualification or any other requirements or conditions for participation in a separate process in order to participate in a procurement covered by this Chapter, the procuring entity shall publish a notice inviting suppliers to apply for participation. The procuring entity shall publish the notice sufficiently in advance to provide interested suppliers time to prepare and submit applications and for the procuring entity to evaluate and make its determination based on such applications.

2. A procuring entity shall limit any conditions for participation in a procurement covered by this Chapter to those that are essential to ensure that a supplier has the legal and financial capacities and the commercial and technical abilities to undertake the relevant procurement.

3. In establishing the conditions for participation, a procuring entity:

- (a) shall not impose the condition that, in order for a supplier to participate in a procurement, the supplier has previously been awarded one or more contracts by a procuring entity of a Party; and
- (b) may require relevant prior experience where essential to meet the requirements of the procurement.

4. In assessing whether a supplier satisfies the conditions for participation, a procuring entity:

- (a) shall evaluate the financial capacity and the commercial and technical abilities of a supplier on the basis of that supplier's business activities both inside and outside the territory of the Party of the procuring entity; and
- (b) shall base its evaluation on the conditions that the procuring entity has specified in advance in its notices or tender documentation.

5. In assessing whether a supplier satisfies the conditions for participation, a Party, including its procuring entities, shall recognize as qualified all domestic suppliers and suppliers of the other Party that satisfy the conditions for participation.

Multi-use Lists

6. A procuring entity may establish or maintain a multi-use list of suppliers, provided that a notice inviting interested suppliers to apply for inclusion on the list is:

- (a) published annually; and
- (b) where published by electronic means, made available continuously.

7. The notice provided for in paragraph 6 shall include:

- (a) a description of the goods or services, or categories thereof, for which the list may be used;

- (b) the conditions for participation to be satisfied by suppliers and the methods that the procuring entity will use to verify a supplier's satisfaction of the conditions;
- (c) the name and address of the procuring entity and other information necessary to contact the entity and obtain all relevant documents relating to the list;
- (d) the period of validity of the list and the means for its renewal or termination, or where the period of validity is not provided, an indication of the method by which notice will be given of the use of the list; and
- (e) an indication that the list may be used for procurement covered by this Chapter.

8. A procuring entity shall allow suppliers to apply at any time for inclusion on a multi-use list and shall include on the list all qualified suppliers within a reasonably short time.

Selective Tendering

9. Where a Party's law allows the use of selective tendering procedures, a procuring entity shall, for each intended procurement covered by this Chapter:

- (a) publish a notice inviting suppliers to apply for participation in the procurement sufficiently in advance to provide interested suppliers time to prepare and submit applications and for the entity to evaluate, and make its determinations based on, such applications; and

- (b) allow all domestic suppliers and suppliers of the other Party that the entity has determined satisfy the conditions for participation to submit a tender, unless the entity has stated in the notice of intended procurement or, where publicly available, in the tender documentation, a limitation on the number of suppliers that will be permitted to tender and the criteria for such a limitation.

Information on Procuring Entity Decisions

10. A procuring entity shall promptly inform any supplier that submits an application for participation in a procurement or for inclusion on a multi-use list of the procuring entity's decision with respect to the application.

11. Where a procuring entity rejects a supplier's application for participation in a procurement or an application for inclusion on a multi-use list, ceases to recognize a supplier as qualified, or removes a supplier from a multi-use list, the entity shall promptly inform the supplier and, on request of the supplier, promptly provide the supplier with a written explanation of the reasons for its decision.

12. Where there is supporting evidence, a Party, including its procuring entities, may exclude a supplier on grounds such as:

- (a) bankruptcy;
- (b) false declarations; or
- (c) significant or persistent deficiencies in performance of any substantive requirement or obligation under a prior contract or contracts.

13. Procuring entities of each Party shall not adopt or maintain any registration system or qualification procedure with the purpose or the effect of creating unnecessary obstacles to the participation of suppliers of the other Party in its procurement.

Article 1407: Technical Specifications and Tender Documentation

Technical Specifications

1. A procuring entity shall not prepare, adopt, or apply any technical specification or prescribe any conformity assessment procedure with the purpose or the effect of creating unnecessary obstacles to international trade between the Parties.

2. In prescribing the technical specifications for the goods or services being procured, a procuring entity shall, where appropriate:

- (a) specify the technical specification in terms of performance and functional requirements, rather than design or descriptive characteristics; and
- (b) base the technical specification on international standards, where such exist; otherwise, on national technical regulations, recognized national standards or building codes.

3. A procuring entity shall not prescribe technical specifications that require or refer to a particular trademark or trade name, patent, copyright, design, type, specific origin, producer, or supplier, unless there is no other sufficiently precise or intelligible way of describing the procurement requirements and provided that, in such cases, the entity includes words such as "or equivalent" in the tender documentation.

4. A procuring entity shall not seek or accept, in a manner that would have the effect of precluding competition, advice that may be used in the preparation or adoption of any technical specification for a specific procurement covered by this Chapter from a person that may have a commercial interest in the procurement.

5. For greater certainty, a Party, including its procuring entities, may, in accordance with this Article, prepare, adopt or apply technical specifications to promote the conservation of natural resources or protect the environment.

Tender Documentation

6. A procuring entity shall make available to suppliers tender documentation that includes all information necessary to permit suppliers to prepare and submit responsive tenders. Unless already provided in the notice of intended procurement, such documentation shall include a complete description of:

- (a) the procurement, including the nature and the quantity of the goods or services to be procured or, where the quantity is not known, the estimated quantity and any requirements to be fulfilled, including any technical specifications, conformity assessment certification, plans, drawings, or instructional materials;
- (b) any conditions for participation of suppliers, including a list of information and documents that suppliers are required to submit in connection with the conditions for participation;
- (c) all evaluation criteria to be considered in the awarding of the contract, and, except where price is the sole criterion, the relative importance of such criteria;

- (d) where there will be a public opening of tenders, the date, time, and place for the opening of tenders; and
- (e) any other terms or conditions relevant to the evaluation of tenders.

7. A procuring entity shall promptly reply to any reasonable request for relevant information by a supplier participating in a procurement covered by this Chapter, except that the entity shall not make available information with regard to a specific procurement in a manner that would give the requesting supplier an advantage over its competitors in the procurement.

Modifications

8. Where a procuring entity, prior to the award of a contract, modifies the criteria or requirements set out in the notice of intended procurement or tender documentation provided to participating suppliers, or amends or reissues a notice or tender documentation, it shall transmit in writing all such modifications, amended or re-issued notice or tender documentation:

- (a) to all suppliers that are participating in the procurement at the time of the modification, amendment or re-issuance, where such suppliers are known to the procuring entity, and in all other cases, in the same manner as the original information was made available; and
- (b) in adequate time to allow such suppliers to modify and submit amended tenders, as appropriate.

Article 1408: Time Limits for the Submission of Tenders

1. A procuring entity shall provide suppliers sufficient time to submit applications to participate in a procurement covered by this Chapter and prepare and submit responsive tenders, taking into account the nature and complexity of the procurement.

Deadlines

2. Except as provided for in paragraphs 3 and 4, a procuring entity shall establish that the final date for the submission of tenders shall not be less than 40 days from the date on which:

- (a) in the case of open tendering, the notice of intended procurement is published; or
- (b) in the case of selective tendering, the entity notifies suppliers that they will be invited to submit tenders, whether or not it uses a multi-use list.

3. A procuring entity may reduce by five days the time limit established under paragraph 2 for the submission of tenders, for each one of the following circumstances:

- (a) the notice of intended procurement is published by electronic means;
- (b) all the tender documentation is made available by electronic means from the date of the publication of the notice of intended procurement; and
- (c) the procuring entity accepts tenders by electronic means.

4. A procuring entity may establish a time limit of less than 40 days for the submission of tenders provided that the time given to suppliers is sufficient to enable them to prepare and submit responsive tenders and is in no case less than 10 days before the final date for the submission of tenders, where:

- (a) the procuring entity published a separate notice containing the information specified in paragraph 3 of Article 1405 at least 40 days and not more than 12 months in advance, and such separate notice contains a description of the procurement, the relevant time limits for the submission of tenders, or, where applicable, applications for participation, and the address from which documents relating to the procurement may be obtained;
- (b) in the case of the second or subsequent publications of notices for procurement of a recurring nature;
- (c) the procuring entity procures commercial goods or services; or
- (d) a state of urgency duly substantiated by the procuring entity renders impracticable the time limits specified in paragraph 2, or where applicable, paragraph 3.

Article 1409: Limited Tendering

1. Provided that a procuring entity does not use this provision to avoid competition among suppliers, to protect domestic suppliers, or in a manner that discriminates against suppliers of the other Party, the procuring entity may contact a supplier or suppliers of its choice and may choose not to apply Articles 1405, 1406, 1407, 1408 and 1410 in any of the following circumstances:

- (a) where the requirements of the tender documentation are not substantially modified and:
 - (i) no tenders were submitted or no suppliers applied to participate in a procurement covered by this Chapter,
 - (ii) no tenders that conform to the essential requirements of the tender documentation were submitted,
 - (iii) no suppliers satisfied the conditions for participation, or
 - (iv) the tenders submitted have been collusive;
- (b) where the goods or services can be supplied only by a particular supplier and no reasonable alternative or substitute goods or services exist for any of the following reasons:
 - (i) the requirement is for a work of art,
 - (ii) the protection of patents, copyrights or other exclusive rights, or
 - (iii) due to an absence of competition for technical reasons;

- (c) for additional deliveries by the original supplier of goods or services that were not included in the initial procurement where a change of supplier for such additional goods and services:
 - (i) cannot be made for economic or technical reasons such as requirements of interchangeability or interoperability with existing equipment, software, services, or installations procured under the initial procurement, and
 - (ii) would cause significant inconvenience or substantial duplication of costs to the procuring entity;
- (d) for goods purchased on a commodity market;
- (e) where a procuring entity procures a prototype or a first good or service that is developed at its request in the course of, and for, a particular contract for research, experiment, study or original development. Original development of a first good or service may include limited production or supply in order to incorporate the results of field testing and to demonstrate that the good or service is suitable for production or supply in quantity to acceptable quality standards, but does not include quantity production, or supply to establish commercial viability, or to recover research and development costs;
- (f) insofar as it is strictly necessary for reasons of extreme urgency brought about by events unforeseeable by the procuring entity, the goods or services cannot be obtained in time using an open or selective tendering procedure;

- (g) where a contract is awarded to a winner of a design contest provided that:
 - (i) the contest has been organized in a manner that is consistent with the principles of this Chapter, in particular relating to the publication of a notice of intended procurement, and
 - (ii) the participants are judged by an independent jury with a view to a design contract being awarded to a winner;
- (h) where a procuring entity needs to procure consulting services regarding matters of a confidential nature, the disclosure of which could reasonably be expected to compromise government confidences, cause economic disruption or similarly be contrary to the public interest; and
 - (i) for purchases made under exceptionally advantageous conditions that only arise in the very short term in the case of unusual disposals such as those arising from liquidation, receivership, or bankruptcy, but not for routine purchases from regular suppliers.

2. A procuring entity shall prepare a report in writing on each contract awarded under paragraph 1. The report shall include the name of the procuring entity, the value and kind of goods or services procured, and a statement indicating the circumstances and conditions described in paragraph 1 that justified the use of limited tendering.

Article 1410: Treatment of Tenders and Awarding of Contracts

Treatment of Tenders

1. A procuring entity shall receive, open, and treat all tenders under procedures that guarantee the fairness and impartiality of the procurement process and the confidentiality of tenders.
2. A procuring entity shall treat tenders in confidence until at least the opening of the tenders.
3. Where a procuring entity provides a supplier with an opportunity to correct unintentional errors of form between the opening of tenders and the awarding of the contract, the entity shall provide the same opportunity to all participating suppliers.

Awarding of Contracts

4. To be considered for award, a tender must be submitted in writing by a supplier that satisfies the conditions for participation and must, at the time of opening, comply with the essential requirements of the notices and tender documentation.
5. Unless a procuring entity determines that it is not in the public interest to award a contract, it shall award the contract to the supplier that the entity has determined to be fully capable of undertaking the contract and, based solely on the evaluation criteria specified in the notices and tender documentation, has submitted:
 - (a) the most advantageous tender; or
 - (b) where price is the sole criterion, the lowest price.

6. A procuring entity shall not use options, cancel a procurement, or modify awarded contracts in a manner that circumvents the obligations in this Chapter.

Information Provided to Suppliers

7. A procuring entity shall promptly inform suppliers participating in the procurement of the entity's contract award decisions and, on request, shall do so in writing. Subject to Article 1411, a procuring entity shall, on request, provide an unsuccessful supplier with an explanation of the reasons why the entity did not select its tender and the relative advantages of the successful supplier's tender.

Publication of Award Information

8. Not later than 72 days after an award, a procuring entity shall publish in an officially designated publication, which may be in either an electronic or paper medium, a notice that includes, at a minimum, the following information about the contract:

- (a) the name and address of the procuring entity;
- (b) a description of the goods or services procured;
- (c) the date of award;
- (d) the name and address of the successful supplier;
- (e) the contract value; and
- (f) the procurement method used and, in cases where a procedure has been used pursuant to paragraph 1 of Article 1409, a description of the circumstances justifying the use of such procedure.

Maintenance of Records

9. A procuring entity shall maintain reports and records of tendering procedures relating to procurements covered by this Chapter, including the reports provided for in paragraph 2 of Article 1409, and shall retain such reports and records for a period of at least three years after the award of a contract.

Article 1411: Disclosure of Information

Provision of Information to a Party

1. On request of the other Party, a Party shall provide promptly any information necessary to determine whether a procurement was conducted fairly, impartially and in accordance with this Chapter, including information on the characteristics and relative advantages of the successful tender. In cases where release of the information would prejudice competition in future tenders, the Party that receives that information shall not disclose it to any supplier, except after consultation with, and consent of, the Party that provided the information.

Non-Disclosure of Information

2. Notwithstanding any other provision of this Chapter, a Party, including its procuring entities, may not provide information to a particular supplier that might prejudice fair competition between suppliers.

3. A Party, including its procuring entities, authorities and review bodies, are not required under this Chapter to release confidential information where release:

- (a) would impede law enforcement;
- (b) might prejudice fair competition between suppliers;
- (c) would prejudice the legitimate commercial interests of particular persons, including the protection of intellectual property; or
- (d) would otherwise be contrary to the public interest.

Article 1412: Domestic Review Procedures

1. Each Party shall ensure that its entities accord impartial and timely consideration to any complaints from suppliers regarding an alleged breach of measures implementing this Chapter arising in the context of a procurement covered by this Chapter in which they have, or have had, an interest. Each Party shall encourage suppliers to seek clarification from its entities through consultations with a view to facilitating the resolution of any such complaints.

2. Each Party shall establish or designate at least one impartial administrative or judicial authority that is independent of its procuring entities to receive and review a challenge by suppliers (“challenge”) arising in the context of a procurement covered by this Chapter in which the supplier has, or has had, an interest.

3. Each Party shall ensure that any authority it establishes or designates under paragraph 2 has written procedures that are generally available. Such procedures shall be timely, effective, transparent, non-discriminatory and provide that:

- (a) the procuring entity shall respond in writing to the challenge and disclose all relevant documents to the review body;
- (b) the participants in the challenge shall:
 - (i) have the right to be heard prior to a decision of the review body being made on the challenge,
 - (ii) have the right to be represented and accompanied,
 - (iii) have access to all challenge proceedings, and
 - (iv) have the right to request that the proceedings take place in public and that witnesses may be presented;and
- (c) decisions or recommendations relating to challenges shall be provided, in a timely fashion, in writing, with an explanation of the basis for each decision or recommendation.

4. Each supplier shall be allowed a sufficient period of time to prepare and submit a challenge, which in no case shall be less than 10 days from the time when the basis of the challenge became known to the supplier or reasonably should have become known to the supplier.

5. Each Party shall provide that an authority it establishes or designates under paragraph 2 has authority to take interim measures to preserve the supplier's opportunity to participate in the procurement. Such interim measures may result in suspension of the procurement process. The procedures for taking interim measures may provide that overriding adverse consequences for the interests concerned, including the public interest, may be taken into account when deciding whether such measures should be applied.

6. Each Party shall ensure that a supplier's submission of a challenge will not prejudice the supplier's participation in ongoing or future procurements.

7. Where a body other than an authority referred to in paragraph 2 initially reviews a challenge, the Party shall ensure that the supplier may appeal the initial decision to an impartial administrative or judicial authority that is independent of the procuring entity whose procurement is the subject of the challenge.

Article 1413: Modifications and Rectifications to Coverage

1. Where a Party modifies its coverage of procurement under this Chapter, the Party shall:

- (a) notify the other Party in writing; and
- (b) include in the notification a proposal of appropriate compensatory adjustments to the other Party to maintain a level of coverage comparable to that existing prior to the modification.

2. Notwithstanding subparagraph 1(b), a Party need not provide compensatory adjustments where:

- (a) the modification in question is a minor amendment or rectification of a purely formal nature; or
- (b) the proposed modification covers an entity over which the Party has effectively eliminated its control or influence.

3. If the other Party does not agree that:

- (a) an adjustment proposed under subparagraph 1(b) is adequate to maintain a comparable level of mutually agreed coverage;
- (b) the proposed modification is a minor amendment or a rectification under subparagraph 2(a); or
- (c) the proposed modification covers an entity over which the Party has effectively eliminated its control or influence under subparagraph 2(b),

it must object in writing within 30 days of receipt of the notification referred to in paragraph 1 or be deemed to have agreed to the adjustment or proposed modification, including for the purposes of Chapter Twenty-One (Dispute Settlement).

4. Where the Parties are in agreement on the proposed modification, rectification, or minor amendment, including where a Party has not objected within 30 days under paragraph 3, they shall give effect to the agreement by modifying forthwith the relevant Annex.

Article 1414: Committee on Procurement

Each Party shall, within 30 days after the date of receipt of the request for panel establishment, appoint a panelist, propose up to four candidates to serve as the chair of the panel and notify the other Party in writing of the appointment and its proposed candidates to serve as the chair. If a Party fails to appoint a panelist within this time, the panelist shall be selected by the other Party from the candidates proposed for the chair.
3. The Parties shall, within 30 days after the date of receipt of the request for panel establishment, endeavour to agree on and appoint the chair from among the candidates proposed. If the Parties fail to agree on the chair within this time period, within a further seven days the chair shall be selected by lot from the candidates proposed.
4. If a panelist appointed by a Party withdraws, is removed, or becomes unable to serve, a replacement shall be appointed by that Party within 30 days, failing which the replacement shall be appointed in accordance with the second sentence of paragraph 2. If the chair of the panel withdraws, is removed, or becomes unable to serve, the Parties shall agree on the appointment of a replacement within 30 days, failing which the replacement shall be appointed in accordance with the second sentence of paragraph 3. If there are no remaining candidates, each Party shall propose up to three additional candidates within a further 30 days and the panelist or chair shall be selected by lot within seven days thereafter from among the candidates proposed. In any case, any time period applicable to the proceeding shall be suspended beginning on the date the panelist or chair withdraws, is removed, or becomes unable to serve and ending on the date the replacement is selected.

Article 2109: Rules of Procedure

1. Within six months following the date of entry into force of this Agreement, the Commission shall approve Model Rules of Procedure.
2. Any panel established under this Chapter shall follow the Model Rules of Procedure. A panel may establish, in consultation with the Parties, supplementary rules of procedure that do not conflict with the provisions of this Chapter.
3. Unless the Parties agree otherwise, the rules of procedure shall ensure:
 - (a) the opportunity for each Party to provide initial and rebuttal written submissions;
 - (b) the right to at least one hearing before the panel, and that subject to subparagraph (g), hearings shall be open to the public;
 - (c) that the Parties have the right to present and receive written submissions and present and hear oral arguments in any of the Parties' official languages;
 - (d) subject to subparagraph (g), that each Party's written submissions, written versions of its oral statements and written responses to requests or questions from the panel may be made public;
 - (e) that the panel allow non-governmental entities in the Parties' territories to provide written views regarding the dispute that may assist the panel in evaluating the submissions and arguments of the Parties;

- (f) all submissions and comments made to the panel shall be available to the other Party; and
- (g) the protection of information designated by either Party for confidential treatment.

4. Unless the Parties otherwise agree within 15 days after the date of the establishment of the panel, the terms of reference shall be:

“To examine, objectively and in the light of the relevant provisions of the Agreement, the matter referred to in the request for the establishment of the panel and to make findings, determinations and recommendations as provided in Article 2110.”

5. If the complaining Party wishes to argue that a matter has nullified or impaired benefits, in the sense of subparagraph 1(c) of Article 2102, the terms of reference shall so indicate.

6. If a Party wishes the panel to make findings as to the degree of adverse trade effects on a Party of any measure determined:

- (a) to be inconsistent with the obligations of the Agreement; or
- (b) to have caused nullification or impairment in the sense of subparagraph 1(c) of Article 2102,

the terms of reference shall so indicate.

7. On the request of a Party, or on its own initiative, the panel may seek information and technical advice from any person or body it deems appropriate in accordance with the Model Rules of Procedure.

8. The panel may rule on its own jurisdiction.
9. The panel may delegate to the chair authority to make administrative and procedural decisions.
10. The panel may, in consultation with the Parties, modify any time-period applicable in the panel proceedings and make other procedural or administrative adjustments as may be required for the fairness or efficiency of the proceeding.
11. Findings, determinations and recommendations of the panel in the sense of Article 2110 shall be made by a majority of its members.
12. Panelists may furnish separate opinions on matters not unanimously agreed. No panel may disclose which panelists are associated with majority or minority opinions.
13. The Parties shall bear the expenses of a panel, including the remuneration of the panelists, in accordance with the Model Rules of Procedure.

Article 2110: Panel Reports

1. Unless the Parties otherwise agree, the panel shall issue reports in accordance with the provisions of this Chapter.
2. The panel shall base its reports on the provisions of this Agreement applied and interpreted in accordance with the rules of interpretation of public international law, the submissions and arguments of the Parties and on any information and technical advice put before it pursuant to the provisions of this Chapter.

3. The panel shall present to the Parties an initial report within 90 days after the last panelist is selected. The report shall contain:

- (a) findings of fact;
- (b) determinations as to whether or not a Party has conformed with its obligations under this Agreement and any other finding or determination requested in the terms of reference; and
- (c) recommendations for resolution of the dispute, if requested by a Party.

4. Notwithstanding the provisions of Article 2109, the initial report of the panel shall be confidential.

5. A Party may submit written comments to the panel on its initial report, subject to time limits that may be set by the panel. After considering any such comments, the panel, on its own initiative or on the request of a Party, may:

- (a) request the views of a Party;
- (b) reconsider its report; or
- (c) make any further examination that it considers appropriate.

6. The panel shall present to the Parties a final report within 30 days of presentation of the initial report.

7. Unless the Parties decide otherwise, the final report of the panel may be published by either Party 15 days after it is transmitted to the Parties, subject to subparagraph 3(g) of Article 2109.

Article 2111: Request for Clarification of the Report

1. Within 10 days after the presentation of the final report, a Party may submit a written request to the panel for clarification of any determinations or recommendations in the report that the Party considers ambiguous. The panel shall respond to the request within 10 days after the presentation of such request.
2. The submission of a request pursuant to paragraph 1 shall affect the time periods referred to in paragraph 3 of Article 2113 and paragraph 1 of Article 2114, unless the panel decides otherwise.

Article 2112: Suspension and Termination of Proceedings

1. The Parties may agree to suspend the work of the panel at any time for a period not exceeding 12 months following the date of such agreement. If the work of the panel has been suspended for more than 12 months, the authority of the panel shall lapse, unless the Parties agree otherwise. If the authority of the panel lapses and the Parties have not reached an agreement on the settlement of the dispute, nothing in this provision shall prevent a Party from requesting a new proceeding regarding the same matter.
2. The Parties may agree to terminate the proceeding before a panel at any time by jointly notifying the chair of the panel.

Article 2113: Implementation of the Final Report

1. On receipt of the final report of a panel, the Parties shall agree on the resolution of the dispute, which shall be in conformity with the determinations and the recommendations, if any, of the panel, unless otherwise agreed by the Parties.
2. Wherever possible, the resolution shall be removal of any measure not conforming to this Agreement or removal of the nullification or impairment in the sense of subparagraph 1(c) of Article 2102.
3. If the Parties are unable to agree on a resolution within 30 days of presentation of the final report, or such other period as the Parties may agree, the Party complained against shall, if so requested by the complaining Party, enter into negotiations with a view to agreeing to compensation.

Article 2114: Non-Implementation – Suspension of Benefits

1. If no agreement on compensation has been reached pursuant to paragraph 3 of Article 2113 within 20 days after the date of the complaining Party's request, or if 30 days have passed following the presentation of the final report where compensation is not requested pursuant to paragraph 3 of Article 2113, or the Parties have agreed on the resolution of the dispute or on a compensation, and the complaining Party considers that the other Party has failed to observe the terms of the agreement, the complaining Party may suspend the application to the other Party of benefits of equivalent effect, following notice to the other Party, until such time as they have reached agreement on a resolution of the dispute. The notice shall specify the level of benefits that the complaining Party proposes to suspend.

2. In considering which benefits to suspend pursuant to paragraph 1:
 - (a) the complaining Party should first seek to suspend benefits or other obligations in the same sector or sectors as that affected by the measure or other matter that the panel has found to be inconsistent with the obligations of this Agreement or to have caused nullification or impairment in the sense of subparagraph 1(c) of Article 2102; and
 - (b) a complaining Party that considers it is not practicable or effective to suspend benefits or other obligations in the same sector or sectors may suspend benefits in other sectors.

3. The suspension of benefits shall be temporary and be applied by the complaining Party only until the measure found to be inconsistent with the obligations of this Agreement or otherwise nullifying or impairing benefits in the sense of subparagraph 1(c) of Article 2102 has been brought into conformity with this Agreement, including as a result of the panel process described in Article 2115, or until such time as the Parties have otherwise reached agreement on a resolution of the dispute.

Article 2115: Review of Compliance and Suspension of Benefits

1. A Party may, by written notice to the other Party, request that a panel established pursuant to Article 2106 be reconvened to make a determination with respect to:

- (a) whether the level of benefits suspended by a Party pursuant to paragraph 1 of Article 2114 is manifestly excessive; or
- (b) any disagreement as to the existence or consistency with this Agreement of measures taken to comply with the determinations or recommendations of the previously established panel.¹

2. In the written notice of the request, the Party shall identify the specific measures or matters at issue and provide a brief summary of the legal basis of the complaint sufficient to present the problem clearly.

3. The panel shall be reconvened upon receipt by the other Party of the written notice of the request. In the event that any original panelist is unable to serve on the panel the provisions of Article 2108 shall apply *mutatis mutandis*.

4. The provisions of Articles 2109 and 2110 apply *mutatis mutandis* to procedures adopted and reports issued by a panel reconvened under this Article, with the exception that, subject to paragraph 10 of Article 2109, the panel shall present an initial report within 60 days of being reconvened where the request concerns paragraph 1(a) only, and otherwise within 90 days.

5. A panel reconvened under this Article may include in its reports a recommendation, where appropriate, that any suspension of benefits be terminated or that the amount of benefits suspended be modified.

¹ In interpreting the terms “the existence or consistency with” and “measures taken to comply”, a compliance panel established under this paragraph shall take into account relevant jurisprudence under the Dispute Settlement Understanding.

Article 2116: Referrals of Matters from Judicial or Administrative Proceedings

1. If an issue of interpretation or application of this Agreement arises in any domestic judicial or administrative proceeding of a Party that either Party considers would merit its intervention, or if a court or administrative body solicits the views of a Party, that Party shall notify the other Party. The Commission shall endeavour to agree on an appropriate response as expeditiously as possible.
2. The Party in whose territory the court or administrative body is located shall submit any agreed interpretation of the Commission to the court or administrative body in accordance with the rules of that forum.
3. If the Commission is unable to agree, each Party may submit its own views to the court or administrative body in accordance with the rules of that forum.

Article 2117: Private Rights

No Party may provide for a right of action under its domestic law against the other Party on the ground that a measure of the other Party is inconsistent with this Agreement.

Article 2118: Alternative Dispute Resolution

1. Each Party shall, to the maximum extent possible, encourage and facilitate the use of arbitration and other means of alternative dispute resolution for the settlement of international commercial disputes between private parties in the free trade area.

2. To this end, each Party shall provide appropriate procedures to ensure observance of agreements to arbitrate and for the recognition and enforcement of awards in such disputes.

3. A Party shall be deemed to be in compliance with paragraph 2 if it is a party to and is in compliance with the *United Nations Convention on the Recognition and Enforcement of Foreign Arbitral Awards*, done at New York on 10 June 1958.

Annex 2109
Model Rules of Procedure

Application

1. The following rules of procedure apply to dispute settlement proceedings under Chapter 21 unless the Parties otherwise agree.

Definitions

2. For the purposes of this Annex:

adviser means a person retained by a Party to advise or assist the Party in connection with the panel proceeding;

complaining Party means a Party that requests the establishment of a panel under Article 2106;

court reporter means a designated note-taker.

legal holiday means every Saturday and Sunday and any other day designated by a Party as a holiday for the purposes of these rules;

panel means a panel established under Article 2106; and

representative means an employee of a government department or agency or of any other government entity of a Party;

3. Any reference made in these rules of procedure to an Article is a reference to the appropriate Article in Chapter 21.

Written Submissions and Other Documents

4. Each Party shall deliver the original and no less than four copies of any written submission to the panel and one copy to the Embassy of the other Party. Delivery of submissions and any other document related to the panel proceeding may be made by facsimile or other means of electronic transmission if the Parties so agree. Where a Party delivers physical copies of written submissions or any other document related to the panel proceeding, that Party shall deliver at the same time an electronic version of such submissions or other document.

5. The complaining Party shall deliver an initial written submission no later than 10 days after the date on which the last panelist is appointed. The Party complained against shall, in turn, deliver a written counter-submission no later than 20 days after the date on which the initial written submission of the complaining Party is due.

6. The panel shall establish, in consultation with the Parties, dates for the delivery of the subsequent written rebuttal submissions of the Parties and any other written submissions that the panel and the Parties agree are appropriate.

7. A Party may at any time correct minor errors of a clerical nature in any written submission or other document related to the panel proceeding by delivering a new document clearly indicating the changes.

8. If the last day for delivery of a document falls on a legal holiday observed by a Party or on any other day on which the government offices of that Party are closed by order of the government or by *force majeure*, the document may be delivered on the next business day.

Burden of Proof

9. A Party asserting that a measure of the other Party is inconsistent with the provisions of this Agreement shall have the burden of establishing such inconsistency.

10. A Party asserting that a measure is subject to an exception under this Agreement shall have the burden of establishing that the exception applies.

Written Submission by a Non-Governmental Entity

11. A panel may, on application, grant leave to a non-governmental entity to file a written submission. In making its decision to grant leave, the panel shall consider, *inter alia*:

- (a) whether there is a public interest in the proceeding;
- (b) whether the non-governmental entity has a substantial interest in the proceeding;²
- (c) whether the written submission would assist the panel in the determination of a factual or legal issue related to the proceeding by bringing a perspective, particular knowledge or insight that is different from that of the Parties; and
- (d) any submissions by the Parties on the application for leave.

² An interest in the development of trade law jurisprudence, the interpretation of the Agreement, or in the subject matter of the dispute does not alone suffice in establishing the presence of a substantial interest in the proceeding by a non-governmental entity.

12. Where the panel has granted leave to a non-governmental entity to file a written submission, it shall ensure that:

- (a) the written submission does not introduce new issues to the dispute and is within the terms of reference of the dispute as defined by the Parties;
- (b) the non-governmental entity follows any rules adopted by the Commission for the filing of such written submissions;
- (c) the written submission avoids disrupting the proceeding and preserves the equality of the Parties; and
- (d) the Parties have the opportunity to respond to the written submission.

Role of Experts

13. On request of a Party, or on its own initiative, the panel may seek information and technical advice from any person or body that it deems appropriate subject to paragraphs 14 and 15 and such additional terms and conditions as the Parties may agree upon. The requirements set out in Article 2107 shall apply to the experts or bodies, as appropriate.

14. Before the panel seeks information or technical advice, it shall:

- (a) notify the Parties of its intention to seek information or technical advice pursuant to paragraph 13 and provide them with an adequate period of time to submit comments; and
- (b) provide the Parties with a copy of any information or technical advice received pursuant to paragraph 13 and provide them with an adequate period of time to submit comments.

15. When the panel takes into consideration the information or technical advice received pursuant to paragraph 13 for the preparation of its report, it shall also take into consideration any comments or observations submitted by the Parties with respect to such information or technical advice.

Operation of Panels

16. The chair of the panel shall preside at all of its meetings.

17. The panel may conduct its business by any appropriate means, including by telephone, facsimile transmission and video or computer links.

18. Only panelists may take part in the deliberations of the panel. The panel may, in consultation with the Parties, employ such number of assistants, interpreters or translators, or court reporters as may be required for the proceeding and permit them to be present during such deliberations. The members of the panel and the persons employed by the panel shall maintain the confidentiality of the panel's deliberations and any information that is protected pursuant to Article 2109 and Annex 2109.

19. A panel may, in consultation with the Parties, modify any time-period applicable in the panel proceedings and make other procedural or administrative adjustments as may be required in the proceeding.

Hearings

20. The chair of the panel shall fix the date and time of the initial hearing and any subsequent hearings in consultation with the Parties and the panelists, and then notify the Parties in writing of those dates and times.

21. The location of hearings shall alternate between the territories of the Parties with the first hearing to take place in the territory of the Party complained against.

22. No later than five days before the date of a hearing, each Party shall deliver to the other Party and the panel a list of the names of those persons who will be present at the hearing on behalf of that Party and of other representatives or advisers who will be attending the hearing.

23. Each hearing shall be conducted by the panel in a manner that ensures that the complaining Party and the Party complained against are afforded equal time for arguments, replies and counter-replies.

24. Hearings shall be open to the public, except as necessary to protect information designated by either Party for confidential treatment. The panel shall, in consultation with the Parties, adopt appropriate logistical arrangements and procedures to ensure that hearings are not disrupted by the attendance of the public. Such procedures may include, *inter alia*, the use of live web-broadcasting or of closed-circuit television.

25. The panel shall arrange the preparation of hearing transcripts, if any, and shall, as soon as possible after any such transcripts are prepared, deliver a copy to each Party.

Ex Parte Contacts

26. No Party may communicate with the panel without notifying the other Party. The panel shall not communicate with a Party in the absence of, or without notifying, the other Party.

27. No panelist may discuss any aspect of the substantive subject matter of the proceeding with the Parties in the absence of the other panelists.

Remuneration and Payment of Expenses

28. Unless the Parties agree otherwise, the expenses of the Panel, the remuneration of the panelists and their assistants, their travel and lodging expenses, and all general expenses shall be born in equal shares between the Parties.

29. Each panelist shall keep a record and render a final account of his or her time and expenses, and those of any assistant, and shall keep a record and render a final account of all general expenses.

For the purposes of Chapters Two to Seven and Fifteen (National Treatment and Market Access for Goods, Rules of Origin, Origin Procedures and Trade Facilitation, Sanitary and Phytosanitary Measures, Technical Barriers to Trade, Emergency Action and Trade Remedies and Electronic Commerce), except to the extent that a provision of these chapters applies to services or investment, Article XX of GATT 1994 is incorporated into and made part of this Agreement, *mutatis mutandis*. The Parties understand that the measures referred to in Article XX (b) of GATT 1994 include environmental measures necessary to protect human, animal or plant life or health. The Parties further understand that Article XX (g) of GATT 1994 applies to measures relating to the conservation of living and non-living exhaustible natural resources.

2. For the purposes of Chapters Nine, Ten, Twelve and Fifteen (Cross-Border Trade in Services, Telecommunications, Temporary Entry for Business Persons and Electronic Commerce), and of Chapters Two to Seven (National Treatment and Market Access for Goods, Rules of Origin, Origin Procedures and Trade Facilitation, Sanitary and Phytosanitary Measures, Technical Barriers to Trade, and Emergency Action and Trade Remedies) to the extent that a provision of these chapters applies to services, Article XIV (a), (b) and (c) of GATS is incorporated into and made part of this Agreement, *mutatis mutandis*. The Parties understand that the measures referred to in Article XIV (b) of GATS include environmental measures necessary to protect human, animal or plant life or health.

3. For the purposes of Chapter Eight (Investment), subject to the requirement that such measures are not applied in a manner that constitute arbitrary or unjustifiable discrimination between investments or between investors, or a disguised restriction on international trade or investment, nothing in this Agreement shall be construed to prevent a Party from adopting or enforcing measures necessary:

- (a) to protect human, animal or plant life or health, which the Parties understand to include environmental measures necessary to protect human, animal or plant life or health;
- (b) to ensure compliance with laws and regulations that are not inconsistent with this Agreement; or
- (c) for the conservation of living or non-living exhaustible natural resources.

Article 2202: National Security

Nothing in this Agreement shall be construed:

- (a) to require either Party to furnish or allow access to any information the disclosure of which it determines to be contrary to its essential security interests;

- (b) to prevent either Party from taking any actions that it considers necessary for the protection of its essential security interests:
 - (i) relating to the traffic in arms, ammunition and implements of war and to such traffic and transactions in other goods, materials, services and technology undertaken directly or indirectly for the purpose of supplying a military or other security establishment,
 - (ii) taken in time of war or other emergency in international relations, or
 - (iii) relating to the implementation of national policies or international agreements respecting the non-proliferation of nuclear weapons or other nuclear explosive devices; or
- (c) to prevent either Party from taking action in pursuance of its obligations under the United Nations Charter for the maintenance of international peace and security.

Article 2203: Taxation

1. Except where express reference is made thereto, nothing in this Agreement shall apply to taxation measures.
2. Nothing in this Agreement shall affect the rights and obligations of any Party under any tax convention. In the event of any inconsistency between this Agreement and any such convention, the convention shall prevail to the extent of the inconsistency.

3. Where similar provisions with respect to a taxation measure exist under this Agreement and under a tax convention, the procedural provisions of the tax convention alone shall be used, by the competent authorities identified in the tax convention, to resolve any issue related to such provisions arising under this Agreement.

4. Notwithstanding paragraphs 2 and 3:

(a) Article 202 (National Treatment and Market Access for Goods - National Treatment) and such other provisions of this Agreement as are necessary to give effect to that Article applies to taxation measures to the same extent as does Article III of the GATT 1994; and

(b) Article 210 (National Treatment and Market Access for Goods - Export Taxes) applies to taxation measures.

5. Subject to paragraphs 2, 3, and 6:

(a) Articles 903 (Cross-Border Trade in Services - National Treatment) and Article 1102 (Financial Services - National Treatment) apply to taxation measures on income, capital gains or on the taxable capital of corporations that relate to the purchase or consumption of particular services; and

(b) Articles 803 and 804 (Investment - National Treatment and Most-Favoured Nation Treatment), 903 and 904 (Cross-Border Trade in Services - National Treatment and Most-Favoured Nation Treatment) and 1102 and 1103 (Financial Services - National Treatment and Most-Favoured Nation Treatment) apply to all taxation measures, other than those on income, capital gains or on the taxable capital of corporations.

6. Paragraph 5 shall not:
- (a) impose any most-favoured-nation obligation with respect to an advantage accorded by a Party pursuant to a tax convention;
 - (b) impose on a Party any national treatment obligation with respect to the conditioning of a receipt, or continued receipt, of an advantage relating to the contributions to, or income of, pension trusts or pension plans on a requirement that the Party maintain continuous jurisdiction over the pension trust or pension plan;
 - (c) impose on a Party any national treatment obligation with respect to the conditioning of a receipt, or continued receipt, of an advantage relating to the purchase or consumption of a particular service on a requirement that the service be provided in its territory;
 - (d) apply to a non-conforming provision of any existing taxation measure;
 - (e) apply to the continuation or prompt renewal of a non-conforming provision of any existing taxation measure;
 - (f) apply to an amendment to a non-conforming provision of any existing taxation measure to the extent that the amendment does not decrease its conformity, at the time of the amendment, with any of the Articles referred to in paragraph 5; or

- (g) apply to any new taxation measure that is aimed at ensuring the equitable and effective imposition or collection of taxes (including, for greater certainty, any measure that is taken by a Party in order to ensure compliance with the Party's taxation system or to prevent the avoidance or evasion of taxes) and that does not arbitrarily discriminate between persons, goods or services of the Parties.

7. Subject to paragraphs 2 and 3, and without prejudice to the rights and obligations of the Parties under paragraph 4, Article 807 (Investment - Performance Requirements) shall apply to taxation measures.

8. Notwithstanding paragraphs 2 and 3, Article 812 (Investment - Expropriation) shall apply to taxation measures except that no investor may invoke that Article as the basis for a claim under Article 819 (Investment - Claim by an Investor of a Party on Its Own Behalf) or 820 (Investment - Claim by an Investor of a Party on Behalf of an Enterprise), where it has been determined pursuant to this paragraph that a taxation measure is not an expropriation. The investor shall refer the issue of whether a measure is not an expropriation for a determination to the designated authorities of the Parties at the time that it gives notice under subparagraph 1(c) of Article 823 (Investment - Conditions Precedent to Submission of a Claim to Arbitration). If, within a period of six months from the date of such referral, the designated authorities do not agree to consider the issue or, having agreed to consider it, fail to agree that the measure is not an expropriation, the investor may submit its claim to arbitration under Article 824 (Investment - Submission of a Claim to Arbitration).

9. In order to give effect to paragraphs 1 to 3:
- (a) Where in a dispute between Parties, an issue arises as to whether a measure of a Party is a taxation measure, either Party may refer the issue to the designated authorities of the Parties. The designated authorities shall decide the issue of whether the measure is a taxation measure, and their decision shall bind any Tribunal constituted pursuant to Section B of Chapter Eight (Investment) for the dispute. Where the designated authorities have not decided the issue within six months of the referral, the Tribunal shall decide the issue in place of the designated authorities.

 - (b) Where in connection with a claim by an investor of a Party, an issue arises as to whether a measure is a taxation measure, the Party that has received notice of intention to submit a claim or against which an investor of a Party has submitted a claim may refer the issue to the designated authorities of the Parties. The designated authorities shall decide the issue of whether the measure is a taxation measure, and their decision shall bind any Tribunal formed pursuant to Section B of Chapter Eight (Investment) with jurisdiction over the claim. A Tribunal seized of a claim in which the issue arises may not proceed pending receipt of the decision of the designated authorities. Where the designated authorities have not decided the issue within six months of the referral, the Tribunal shall decide the issue in place of the designated authorities.

- (c) Where in a dispute between Parties, an issue arises as to whether a tax convention prevails over this Agreement, a Party to the dispute may refer the issue to the designated authorities of the Parties. The designated authorities shall consider the issue and decide whether the tax convention prevails. If within six months of the referral of the issue to the designated authorities, they decide with respect to the measure that gives rise to the issue that the tax convention prevails, no procedures concerning that measure may be initiated under Article 2106 (Dispute Settlement - Establishment of a Panel). No procedures concerning the measure may be initiated during the period that the issue is under consideration by the designated authorities.
- (d) Where prior to the submission of a claim by an investor of a Party, an issue arises as to whether a tax convention prevails over this Agreement, the Party that has received notice of intention to submit a claim may refer the issue to the designated authorities of the Parties. The designated authorities shall consider the issue and decide whether the tax convention prevails. If within six months of the referral of the issue to the designated authorities, they decide with respect to the measure that gives rise to the issue that the tax convention prevails, no claim concerning that measure may be submitted under Article 824 (Investment - Submission of a Claim to Arbitration). No claim concerning the measure may be submitted during the period that the issue is under consideration by the designated authorities. An investor of a Party that fails to identify a taxation measure in its notice of intention to submit a claim may not submit a claim concerning that measure under Article 824 (Investment - Submission of a Claim to Arbitration).

10. Where an investor invokes Article 812 (Investment - Expropriation) as the basis for a claim under Article 819 (Investment - Claim by an Investor of a Party on Its Own Behalf) or 820 (Investment - Claim by an Investor of a Party on Behalf of an Enterprise), any determination under paragraph 8 of whether a measure is an expropriation shall be made concurrently with any decision by the designated authorities under subparagraph 9(b) of the issue whether the measure is a taxation measure.

11. The designated authorities seized of an issue under paragraphs 8 or 9 may agree to modify the time period allowed for their consideration of the issue.

12. Nothing in this Agreement shall be construed to require a Party to furnish or allow access to information the disclosure of which would be contrary to the Party's law protecting information concerning the taxation affairs of a taxpayer.

Article 2204: Disclosure of Information

1. Nothing in this Agreement shall be construed to require a Party to furnish or allow access to information the disclosure of which would impede law enforcement or would be contrary to the Party's law protecting the deliberative and policy-making processes of the executive branch of government at the cabinet level, personal privacy or the financial affairs and accounts of individual customers of financial institutions.

2. Nothing in this Agreement shall be construed to require, during the course of any dispute settlement procedure under this Agreement, a Party to furnish or allow access to information protected under its competition laws, or a competition authority of a Party to furnish or allow access to any other information that is privileged or otherwise protected from disclosure.

Article 2205: Cultural Industries

Nothing in this Agreement shall be construed to apply to measures adopted or maintained by either Party with respect to cultural industries except as specifically provided in Article 203 (National Treatment and Market Access for Goods - Tariff Elimination).

Article 2206: World Trade Organization Waivers

To the extent that there are overlapping rights and obligations in this Agreement and the WTO Agreement, the Parties agree that any measures adopted by a Party in conformity with a waiver decision adopted by the WTO pursuant to Article IX:3 of the WTO Agreement shall be deemed to be also in conformity with the present Agreement, except as otherwise agreed by the Parties. Such conforming measures of either Party may not give rise to legal actions by an investor of one Party against the other under Chapter Eight (Investment).
