- (a) such samples be imported solely for the solicitation of orders for goods, or services provided from the territory, of another Party or a non-Party; or
- (b) such advertising materials be imported in packets that each contain no more than one copy of each such material and that neither such materials nor packets form part of a larger consignment.

Section D: Non-Tariff Measures

Article 3.8

- (c) voluntary export restraints inconsistent with Article VI of the GATT 1994, as implemented under Article 18 of the SCM Agreement and Article 8.1 of the AD Agreement.

3. In the event that a Party adopts or maintains a prohibition or restriction on the importation from or exportation to a non-Party of a good, nothing in this Agreement shall be construed to prevent the Party from:

- (a) limiting or prohibiting the importation from the territory of another Party of such good of that non-Party; or
- (b) requiring as a condition of export of such good of the Party to the territory of another Party, that the good not be re-exported to the non-Party, directly or indirectly, without being consumed in the territory of the other Party.

4. In the event that a Party adopts or maintains a prohibition or restriction on the importation of a good from a non-Party, the Parties, on the request of any Party, shall consult with a view to avoiding undue interference with or distortion of pricing, marketing, or distribution arrangements in another Party.

5. Paragraphs 1 through 4 shall not apply to the measures set out in Annex 3.2.

6. Neither a Central American Party nor the Dominican Republic may, as a condition for engaging in importation or for the import of a good, require a person of another Party to establish or maintain a contractual or other relationship with a dealer in its territory.

7. Neither a Central American Party nor the Dominican Republic may remedy a violation or alleged violation of any law, regulation, or other measure regulating or otherwise relating to the relationship between any dealer in its territory and any person of another Party, by prohibiting or restricting the importation of any good of another Party.

8. For purposes of this Article:

dealer means a person of a Party who is responsible for the distribution, agency, concession, or representation in the territory of that Party of goods of another Party; and

If the importing Party adopts the agreed-on measures, the exporting Party shall refrain from applying any subsidy to its exports of the good to the territory of the importing Party. If the importing Party does not adopt the agreed-on measures, the exporting Party may apply an export subsidy on its exports of the good to the territory of the importing Party only to the extent necessary to counter the trade-distorting effect of subsidized exports of the good from the non-Party to the importing Party's territory.

3. The additional duty under paragraph 1 shall be set according to each Party's Schedule to Annex 3.15.

4. No Party may apply an agricultural safeguard measure and at the same time apply or maintain:

Textile Safeguard Measures

1. Subject to the following paragraphs, and during the transition period only, if, as a result of the reduction or elimination of a duty provided for in this Agreement, a textile or apparel good of another Party is being imported into the territory of a Party in such increased quantities, in absolute terms or relative to the domestic market for that good, and under such conditions as to cause serious damage, or actual threat thereof, to a domestic industry producing a like or directly competitive good, the importing Party may, to the extent necessary to prevent or remedy such damage and to facilitate adjustment, apply a textile safeguard measure to that good, consisting of an increase in the rate of duty on the good to a level not to exceed the lesser of:

- (a) the most-favored-nation (MFN) applied rate of duty in effect at the time the measure is applied; and
- (b) the MFN applied rate of duty in effect on the date of entry into force of this Agreement.

2. In determining serious damage, or actual threat thereof, the importing Party:

- (a) shall examine the effect of increased imports of the good of the other Party on the particular industry, as reflected in changes in such relevant economic variables as output, productivity, utilization of capacity, inventories, market share, exports, wages, employment, domestic prices, profits, and investment, none of which, either alone or combined with other factors, shall necessarily be decisive; and

- (b) shall not consider changes in technology or consumer preference as factors supporting a determination of serious damage or actual threat thereof.
- 3. The importing Party may apply a textile safeguard measure only following an investigation by its competent authority.
- 4. If, on the basis of the results of the investigation under paragraph 3, the importing Party intends to apply a textile safeguard measure, the importing Party shall promptly provide written notice to the exporting Party of its intent to apply a textile safeguard measure, and on request shall enter into consultations with that Party. The importing Party and the exporting Party shall begin the consultations without delay and shall complete them within 60 days of the date of receipt of the request. - 6. The Party applying a textile safeguard measure shall provide to the Party against whose good the measure is taken mutually agreed trade liberalizing compensation in the form of concessions having substantially equivalent trade effects or equivalent to the value of the additional duties expected to result from the textile safeguard measure. Such concessions shall be limited to textile or apparel goods, unless the consulting Parties otherwise agree. If the consulting Parties are unable to agree on compensation within 30 days of application of a textile safeguard measure, the Party against whose good the measure is taken may take tariff action having trade effects substantially equivalent to the trade effects of the textile safeguard measure. Such tariff action may be taken against any goods of the Party applying the measure. The Party taking the tariff action shall apply such action only for the minimum period necessary to achieve the substantially equivalent trade effects. The importing Party's obligation to provide trade compensation and the exporting Party's right to take tariff action shall terminate when the textile safeguard measure terminates.

 - (A) laws, regulations, and procedures that the exporting Party adopts and maintains pursuant to this Agreement; and

 - (c) The exporting Party shall conduct a verification under subparagraph (a)(i), regardless of whether an importer claims preferential tariff treatment for the textile or apparel good for which a claim of origin has been made.
3. The importing Party, through its competent authority, may assist in a verification conducted under paragraph 2(a), or, at the request of the exporting Party, undertake such a verification, including by conducting, along with the competent authority of the exporting Party, visits in the territory of the exporting Party to the premises of an exporter, producer, or any other enterprise involved in the movement of textile or apparel goods from the territory of the exporting Party to the territory of the importing Party.
4. (a) The competent authority of the importing Party shall provide a written request to the competent authority of the exporting Party 20 days before the proposed date of a visit under paragraph 3. If consent is not provided, the importing Party may deny preferential tariff treatment to the type of goods of the enterprise that would have been the subject of the verification, except that the importing Party may not deny preferential tariff treatment to such goods based solely on a postponement of the visit, if there is adequate reason for such postponement.
- (c) Authorized personnel of the importing and exporting Parties shall conduct the visit in accordance with the laws, regulations, and procedures of the exporting Party.
- (d) On completion of a visit, the importing Party shall provide the exporting Party with an oral summary of the results of the visit and provide it with a written report of the results of the visit within approximately 45 days of the visit. The written report shall include:

6. (a) (i) During a verification conducted under paragraph 2(a), if there is insufficient information to support a claim for preferential tariff treatment, the importing Party may take appropriate action, which may include suspending the application of such treatment to:
- (A) in the case of a verification conducted under paragraph 2(a)(i), the textile or apparel good for which a claim for preferential tariff treatment has been made; and

- (iii) During or on completion of a verification conducted under paragraph (a), if the importing Party discovers that an enterprise has provided incorrect information to support a claim for preferential tariff treatment, the importing Party may take appropriate action, which may include denying the application of such treatment to any textile or apparel good described in clauses (i)(A) and (B).

- (c) The importing Party may continue to take appropriate action under any provision of this paragraph only until it receives information sufficient to enable it to make the determination in paragraph 2(a)(i) or (ii), as the case may be, but in any event for no longer than the period permitted under its law.
- (d) The importing Party may deny preferential tariff treatment or entry under this paragraph only after providing a written determination to the importer of the reason for the denial.

7. Not later than 45 days after it completes a verification conducted under paragraph 2(a), the exporting Party shall provide the importing Party a written report on the results of the verification. The report shall include all documents and facts supporting any conclusion that the exporting Party reaches. After receiving the report, the importing Party shall notify the exporting Party of any action it will take under paragraph 6(a)(ii) or (iii) or 6(b)(ii) or (iii), based on the information provided in the report.

- (a) it is a good wholly obtained or produced entirely in the territory of one or more of the Parties;
- (b) it is produced entirely in the territory of one or more of the Parties and
 - (i) each of the non-originating materials used in the production of the good undergoes an applicable change in tariff classification specified in Annex 4.1, or
 - (ii) the good otherwise satisfies any applicable regional value content or other requirements specified in Annex 4.1,

and the good satisfies all other applicable requirements of this Chapter; or

- (c) it is produced entirely in the territory of one or more of the Parties exclusively from originating materials.

- (a) Method Based on Value of Non-Originating Materials (“Build-down Method”)

$$RVC = \frac{AV - VNM}{AV} \times 100$$

- (b) Method Based on Value of Originating Materials (“Build-up Method”)

$$RVC = \frac{VOM}{AV} \times 100$$

where,

RVC is the regional value content, expressed as a percentage;

AV is the adjusted value;

VNM is the value of non-originating materials that are acquired and used by the producer in the production of the good; VNM does not include the value of a material that is self-produced; and

VOM is the value of originating materials acquired or self-produced, and used by the producer in the production of the good.

2. Each Party shall provide that all costs considered for the calculation of regional value content shall be recorded and maintained in conformity with the Generally Accepted Accounting Principles applicable in the territory of the Party where the good is produced.

3. Where Annex 4.1 specifies a regional value content test to determine if an automotive good¹ is originating, each Party shall provide that the importer, exporter, or producer may use a calculation of the regional value content of that good as provided in paragraph 1 or based on the following method:

Method for Automotive Products (“Net Cost Method”)

$$RVC = \frac{NC - VNM}{NC} \times 100$$

where,

RVC is the regional value content, expressed as a percentage;

NC is the net cost of the good; and

VNM is the value of non-originating materials acquired and used by the producer in the production of the good; VNM does not include the value of a material that is self-produced.

4. Each Party shall provide that, for purposes of the regional value content method in paragraph 3, the importer, exporter, or producer may use a calculation averaged over the producer’s fiscal year, using any one of the following categories, on the basis of all motor vehicles in the category or only those motor vehicles in the category that are exported to the territory of one or more of the other Parties:

- (b) in which the average in subparagraph (a) is calculated separately for such goods sold to one or more motor vehicle producers; or
- (c) in which the average in subparagraph (a) or (b) is calculated separately for those goods that are exported to the territory of one or more of the Parties.

Article 4.3

Value Of Materials

CHAPTER EIGHT: TRADE REMEDIES

Section A: Safeguards

Article 8.1

Imposition Of A Safeguard Measure

1. A Party may apply a measure described in paragraph 2, during the transition period only, if as a result of the reduction or elimination of a duty pursuant to this Agreement, an originating good is being imported into the Party's territory in such increased quantities, in absolute terms or relative to domestic production, and under such conditions as to constitute a substantial cause of serious injury, or threat thereof, to a domestic industry producing a like or directly competitive good.
2. If the conditions in paragraph 1 are met, a Party may to the extent necessary to prevent or remedy serious injury, or threat thereof, and facilitate adjustment:
 - (a) suspend the further reduction of any rate of duty provided for under this Agreement on the good; or
 - (b) increase the rate of duty on the good to a level not to exceed the lesser of
 - (i) the most-favored-nation (MFN) applied rate of duty in effect at the time the measure is applied, and
 - (ii) the MFN applied rate of duty in effect on the day immediately preceding the date of entry into force of this Agreement.¹
3.
 - (a) Except as provided in subparagraph (b), a Party shall apply a safeguard measure to imports of an originating good that are subject to a determination under paragraph 1 irrespective of their source.
 - (b) A Party may exclude imports of an originating good of another Party from application of a safeguard measure if the Party accorded duty-free treatment to imports of the good from such other Party, pursuant to an agreement between those Parties, for the three-year period preceding the date of entry into force of this Agreement.
4. No Party may apply a safeguard measure against an originating good of another Party as long as the exporting Party's share of imports of the originating good in the importing Party does not exceed three percent, provided that Parties with less than three percent import share collectively account for not more than nine percent of total imports of such originating good.

Article 8.2

Standards For A Safeguard Measure

1. A Party may apply a safeguard measure, including any extension thereof, for no longer than four years. Regardless of its duration, such measure shall terminate at the end of the transition period.
2. Subject to paragraph 1, a Party may extend the period of a safeguard measure if the competent investigating authority determines, in conformity with the procedures set out in Article 8.3, that the measure continues to be necessary to prevent or remedy serious injury and to facilitate adjustment and that there is evidence that the domestic industry is adjusting.

¹ The Parties understand that neither tariff rate quotas nor quantitative restrictions would be a permissible form of safeguard measure.

3. In order to facilitate adjustment in a situation where the expected duration of a safeguard measure is over one year, the Party applying the measure shall progressively liberalize it at regular intervals during the period of application.

4. A Party may not apply a safeguard measure more than once on the same good.

5. On the termination of a safeguard measure, the rate of duty shall be no higher than the rate that, according to the Party's Schedule to Annex 3.3 (Tariff Elimination), would have been in effect one year after the imposition of the measure. Beginning on January 1 of the year following the termination of the measure, the Party that has applied the measure shall:

- (a) apply the rate of duty set out in the Party's Schedule to Annex 3.3 (Tariff Elimination) as if the safeguard measure had never been applied; or
- (b) eliminate the tariff in equal annual stages ending on the date set out in the Party's Schedule to Annex 3.3 (Tariff Elimination) for the elimination of the tariff.

Article 8.3

Administration Of Safeguard Proceedings

1. Each Party shall ensure the consistent, impartial, and reasonable administration of its laws, regulations, decisions, and rulings governing safeguard proceedings under this Chapter.

2. Each Party shall entrust determinations of serious injury, or threat thereof, in safeguard proceedings under this Chapter to a competent investigating authority, subject to review by judicial or administrative tribunals, to the extent provided by domestic law. Negative injury determinations shall not be subject to modification, except by such review. The competent investigating authority empowered under domestic law to conduct such proceedings should be provided with the necessary resources to enable it to fulfill its duties.

3. Each Party shall adopt or maintain equitable, timely, transparent, and effective procedures for safeguard proceedings under this Chapter, in accordance with the requirements set out in Annex 8.3.

Article 8.4

Notification And Consultation

1. A Party shall promptly notify the other Parties, in writing, on:

- (a) initiating a safeguard proceeding under this Chapter;
- (b) making a finding of serious injury, or threat thereof, caused by increased imports under Article 8.1; and
- (c) taking a decision to apply or extend a safeguard measure.

2. A Party shall provide to the other Parties a copy of the public version of the report of its competent investigating authority required under Annex 8.3.

3. On request of a Party whose good is subject to a safeguard proceeding under this Chapter, the Party conducting that proceeding shall enter into consultations with the requesting Party to review a notification under paragraph 1 or any public notice or report that the competent investigating authority has issued in connection with the proceeding.

Article 8.5

Compensation

1. A Party applying a safeguard measure shall, after consultations with each Party against whose good the measure is applied, provide to such Party or Parties mutually agreed trade liberalizing compensation in the form of concessions having substantially equivalent trade effects or equivalent to the value of the additional duties expected to result from the measure. The Party shall provide an opportunity for such consultations no later than 30 days after the application of the safeguard measure.
2. If the consultations under paragraph 1 do not result in an agreement on trade liberalizing compensation within 30 days, any Party against whose good the measure is applied may suspend the application of substantially equivalent concessions to the trade of the Party applying the safeguard measure.
3. A Party shall notify the Party applying the safeguard measure in writing at least 30 days before suspending concessions under paragraph 2.
4. The obligation to provide compensation under paragraph 1 and the right to suspend concessions under paragraph 2 shall terminate on the later of: (a) the termination of the safeguard measure, or (b) the date on which the rate of duty returns to the rate of duty set out in the Party's Schedule to Annex 3.3 (Tariff Elimination).

Article 8.6

Global Actions

1. Each Party retains its rights and obligations under Article XIX of the GATT 1994 and the Safeguards Agreement.
2. This Agreement does not confer any additional rights or obligations on the Parties with regard to actions taken pursuant to Article XIX of the GATT 1994 and the Safeguards Agreement, except that a Party taking such an action may exclude imports of an originating good of another Party if such imports are not a substantial cause of serious injury or threat thereof.
3. No Party may apply, with respect to the same good, at the same time:
 - (a) a safeguard measure; and
 - (b) a measure under Article XIX of the GATT 1994 and the Safeguards Agreement.

serious injury means a significant overall impairment in the position of a domestic industry;

Section B: Antidumping and Countervailing Duties

Article 8.8

Antidumping And Countervailing Duties

1. The United States shall continue to treat each other Party as a “beneficiary country” for purposes of 19 U.S.C. §§ 1677(7)(G)(ii)(III) and 1677(7)(H) and any successor provisions. No Party may have recourse to dispute settlement under this Agreement for any matter arising under this paragraph.
2. Except for paragraph 1, no provision of this Agreement, including the provisions of Chapter Twenty (Dispute Settlement), shall be construed as imposing any rights or obligations on the Parties with respect to antidumping or countervailing duty measures.
3. Each Party retains its rights and obligations under the WTO Agreement with regard to the application of antidumping and countervailing duties.

ANNEX 8.3: ADMINISTRATION OF SAFEGUARD PROCEEDINGS

Institution of a Proceeding

1. A safeguard proceeding under this Chapter may be instituted by a petition or complaint by entities specified in domestic law. The entity filing the petition or complaint shall demonstrate that it is representative of the domestic industry producing a good like or directly competitive with the imported good.
2. A Party may direct its competent investigating authority to institute a proceeding or the authority may institute a proceeding on its own motion.

Contents of a Petition or Complaint

3. Where the basis for an investigation is a petition or complaint filed by an entity representative of a domestic industry, the petitioning entity shall, in its petition or complaint, provide the following information to the extent that such information is publicly available from governmental or other sources, or best estimates and the basis therefor if such information is not available:

- (a) product description: the name and description of the imported good concerned, the tariff subheading under which that good is classified, its current tariff treatment and the name and description of the like or directly competitive domestic good concerned;
- (b) representativeness:
 - (i) the names and addresses of the entities filing the petition or complaint, and the locations of the establishments in which they produce the domestic good;
 - (ii) the percentage of domestic production of the like or directly competitive good that such entities account for and the basis for claiming that they are representative of an industry; and
 - (iii) the names and locations of all other domestic establishments in which the like or directly competitive good is produced;
- (c) import data: import data for each of the five most recent full years that form the basis of the claim that the good concerned is being imported in increased quantities, either in absolute terms or relative to domestic production as appropriate;
- (d) domestic production data: data on total domestic production of the like or directly competitive good for each of the five most recent full years;
- (e) data showing injury: quantitative and objective data indicating the nature and extent of injury to the concerned industry, such as data showing changes in the level of sales, prices, production, productivity, capacity utilization, market share, profits and losses, and employment; and
- (f) cause of injury: an enumeration and description of the alleged causes of the injury, or threat thereof, and a summary of the basis for the assertion that increased imports, either actual or relative to domestic production, of the imported good are causing or threatening to cause serious injury, supported by pertinent data.

4. Petitions or complaints, except to the extent that they contain confidential business information, shall promptly be made available for public inspection on being filed.

Notice Requirement

5. On instituting a safeguard proceeding under this Chapter, the competent investigating authority shall publish notice of the institution of the proceeding in the official journal of the Party. The notice shall identify the petitioner or other requester, the imported good that is the subject of the proceeding and its tariff subheading, the nature and timing of the determination to be made, dates of deadlines for filing briefs, statements, and other documents, the place at which the petition and any other documents filed in the course of the proceeding may be inspected, and the name, address, and telephone number of the office to be contacted for more information.

6. With respect to a safeguard proceeding instituted on the basis of a petition or complaint filed by an entity asserting that it is representative of the domestic industry, the competent investigating authority shall not publish the notice required by paragraph 5 without first assessing carefully whether the petition or complaint meets the requirements of paragraph 3, including representativeness.

Public Hearing

7. In the course of each proceeding, the competent investigating authority shall:
- (a) hold a public hearing, after providing reasonable notice, including notice of the time and place of the hearing, to allow all interested parties, and any association whose purpose is to represent the interests of consumers in the territory of the Party instituting the proceeding, to appear in person or by counsel, to present evidence and to be heard on the questions of serious injury, or threat thereof, and the appropriate remedy; and
 - (b) provide an opportunity to all interested parties and any such association appearing at the hearing to cross-question interested parties making presentations at that hearing.

Confidential Information

8. The competent investigating authority shall adopt or maintain procedures for the treatment of confidential information, protected under domestic law, that is provided in the course of a proceeding, including a requirement that interested parties and consumer associations providing such information furnish non-confidential written summaries thereof, or where they indicate that the information cannot be summarized, the reasons why a summary cannot be provided.

Evidence of Injury and Causation

9. In conducting its proceeding the competent investigating authority shall gather, to the best of its ability, all relevant information appropriate to the determination it must make. It shall evaluate all relevant factors of an objective and quantifiable nature having a bearing on the situation of that industry, including the rate and amount of the increase in imports of the good concerned, in absolute terms or relative to domestic production as appropriate, the share of the domestic market taken by increased imports, and changes in the level of sales, production, productivity, capacity utilization, profits and losses, and employment. In making its determination, the competent investigating authority may also consider other economic factors, such as changes in prices and inventories, and the ability of firms in the industry to generate capital.

10. The competent investigating authority shall not make an affirmative injury determination unless its investigation demonstrates, on the basis of objective evidence, the existence of a clear causal link between increased imports of the good concerned and serious injury, or threat thereof. Where factors other than increased imports are causing injury to the domestic industry at the same time, such injury shall not be attributed to increased imports.

Deliberation and Report

11. The competent investigating authority, before making an affirmative determination in a safeguard proceeding under this Chapter, shall allow sufficient time to gather and consider the relevant information, hold a public hearing, and provide an opportunity for all interested parties and consumer associations to prepare and submit their views.

12. The competent investigating authority shall publish promptly a report, including a summary thereof in the official journal of the Party, setting out its findings and reasoned conclusions on all pertinent issues of law and fact. The report shall describe the imported good and its tariff item number, the standard applied and the finding made. The statement of reasons shall set out the basis for the determination, including a description of:

- (a) the domestic industry seriously injured or threatened with serious injury;

- (b) information supporting a finding that imports are increasing, the domestic industry is seriously injured or threatened with serious injury, and increasing imports are causing or threatening serious injury; and
- (c) if provided for by domestic law, any finding or recommendation regarding the appropriate remedy and the basis therefore.

13. In its report, the competent investigating authority shall not disclose any confidential information provided pursuant to any undertaking concerning confidential information that may have been made in the course of the proceedings.

2. For purposes of this Chapter, **covered procurement** means a procurement of goods, services, or both:
 - (a) by any contractual means, including purchase, rental, or lease, with or without an option to buy, build-operate-transfer contracts, and public works concession contracts;
 - (b) listed and subject to the conditions specified in:
 - (i) Annex 9.1.2(b)(i), which shall apply between the United States and each other Party;
 - (ii) Annex 9.1.2(b)(ii), which shall apply between the Central American Parties; and
 - (iii) Annex 9.1.2(b)(iii), which shall apply between each Central American Party and the Dominican Republic;
 - (c) that is conducted by a procuring entity; and

 - (d) hiring of government employees and related employment measures;
 - (e) any good or service component of any contract that is awarded by a procuring entity that is not listed in Sections A through C of Annexes 9.1.2(b)(i), 9.1.2(b)(ii), and 9.1.2(b)(iii); and

- (f) purchases made under exceptionally advantageous conditions that only arise in the very short term, such as unusual disposals by companies that normally are not suppliers, or disposals of assets of businesses in liquidation or receivership.
- 4. Each Party shall ensure that its procuring entities comply with this Chapter in conducting any covered procurement.
- 5. Where a procuring entity awards a contract in a procurement that is not covered by this Chapter, nothing in this Chapter shall be construed to cover any good or service component of that contract.
- 6. No procuring entity may prepare, design, or otherwise structure or divide any procurement in order to avoid the obligations of this Chapter.
- 7. Nothing in this Chapter shall prevent a Party from developing new procurement policies, procedures, or contractual means, provided they are not inconsistent with this Chapter.

Article 9.2

General Principles

- 1. With respect to any measure covered by this Chapter, each Party shall accord to the goods and services of another Party, and to the suppliers of another Party of such goods and services, treatment no less favorable than the most favorable treatment the Party or procuring entity accords to its own goods, services, and suppliers.
- 2. With respect to any measure covered by this Chapter, no Party may:
 - (a) treat a locally established supplier less favorably than another locally established supplier on the basis of degree of foreign affiliation or ownership; or
 - (b) discriminate against a locally established supplier on the basis that the goods or services offered by that supplier for a particular procurement are goods or services of another Party.
- 3. For purposes of paragraphs 1 and 2, determination of the origin of goods shall be made in a manner consistent with Chapter Four (Rules of Origin and Origin Procedures).
- 4. With respect to covered procurement, a procuring entity shall not seek, take account of, or impose offsets in any stage of a procurement.
- 5. Paragraphs 1 and 2 do not apply to measures respecting customs duties or other charges of any kind imposed on or in connection with importation, the method of levying such duties or charges, other import regulations, including restrictions and formalities, or measures affecting trade in services other than measures specifically governing procurement covered by this Chapter.

Article 9.3

Publication Of Procurement Measures

Each Party shall promptly:

- (a) publish any law or regulation, and any modification thereof, relating to procurement;
- (b) make publicly available any procedure, judicial decision, or administrative ruling of general application, relating to procurement; and
- (c) on request of a Party, provide to that Party a copy of a procedure, judicial decision, or administrative ruling of general application, relating to procurement.

Article 9.4

Publication Of Notice Of Intended Procurement

1. Subject to Article 9.9.2, a procuring entity shall publish in advance a notice inviting interested suppliers to submit tenders for each covered procurement.
2. The information in each such notice shall include, at a minimum, an indication that the procurement is covered by this Chapter, a description of the intended procurement, any conditions that suppliers must fulfill to participate in the procurement, the name of the procuring entity, the address where all documents relating to the procurement may be obtained, if applicable, any sum payable for the tender documentation, the time limits and address for submission of tenders, and the time for delivery of the goods or services being procured.
3. Each Party shall encourage its procuring entities to publish information regarding their future procurement plans as early as possible in each Party's fiscal year.

Article 9.5

Time Limits For The Tendering Process

1. A procuring entity shall provide suppliers sufficient time to prepare and submit responsive tenders, taking into account the nature and complexity of the procurement. In no case shall a procuring entity provide less than 40 days from the date of publication of a notice of intended procurement to the final date for submission of tenders.
2. Notwithstanding paragraph 1, where there are no qualification requirements for suppliers, a procuring entity may establish a period for tendering that is less than 40 days, but in no case less than 10 days, in the following circumstances:
 - (a) where the procuring entity published a separate notice containing a description of the procurement, the approximate time limits for the submission of tenders or, where appropriate, conditions for participation in a procurement, and the address from which documents relating to the procurement may be obtained, at least 40 days and not more than 12 months before the final date for the submission of tenders;
 - (b) where an entity procures commercial goods and services that are sold or offered for sale to, and customarily purchased and used by, non-governmental buyers for non-governmental purposes; or

- (c) where an unforeseen state of urgency that is duly substantiated by the procuring entity renders impracticable the time provided in paragraph 1.

Article 9.6

Tender Documentation

1. A procuring entity shall provide to interested suppliers tender documentation that includes all information necessary to permit suppliers to prepare and submit responsive tenders. The documentation shall include all criteria that the procuring entity will consider in awarding the contract, including all cost factors, and the weights or, where appropriate, the relative values, that the entity will assign to these criteria in evaluating tenders.
2. A procuring entity may satisfy paragraph 1 by publishing the documentation by electronic means accessible to all interested suppliers. Where a procuring entity does not publish tender documentation by electronic means accessible to all interested suppliers, the entity shall, on request of any supplier, promptly make the documentation available in written form to the supplier.
3. Where a procuring entity, in the course of a procurement, modifies the criteria referred to in paragraph 1,¹ it shall transmit all such modifications in writing:
 - (a) to all suppliers that are participating in the procurement at the time the criteria are modified, if the identities of such suppliers are known, and in cases where the identities of suppliers participating are not known, in the same manner as the original information was transmitted; and
 - (b) in adequate time to allow the suppliers to modify and re-submit their tenders, as appropriate.

Article 9.7

Technical Specifications

1. A procuring entity shall not prepare, adopt, or apply any technical specification with the purpose or the effect of creating unnecessary obstacles to trade between the Parties.
2. A procuring entity shall prescribe any technical specifications, where appropriate:
 - (a) in terms of performance requirements rather than design or descriptive characteristics; and
 - (b) based on international standards, where applicable, otherwise on recognized national standards.
3. A procuring entity shall not prescribe technical specifications that require or refer to a particular trademark or trade name, patent, design or type, specific origin or producer or supplier, unless there is no other sufficiently precise or intelligible way of describing the procurement requirements and provided that, in such cases, words such as “or equivalent” are included in the tender documentation.
4. A procuring entity shall not seek or accept, in a manner that would have the effect of precluding competition, advice that may be used in the preparation or adoption of any technical

¹ Each Central American Party and the Dominican Republic may make such modifications before tenders are opened. The United States may make such modifications before awarding the contract.

specification for a specific procurement from a person that may have a commercial interest in that procurement.

5. For greater certainty, this Article is not intended to preclude a procuring entity from preparing, adopting, or applying technical specifications to promote the conservation of natural resources.

Article 9.8

Requirements And Conditions For Participating In Procurement

1. Where a procuring entity requires suppliers to satisfy registration, qualification, or any other requirements or conditions for participation (“conditions for participation”) in order to participate in a procurement, the procuring entity shall publish a notice inviting suppliers to apply for registration or qualification, or to satisfy any other conditions for participation. The procuring entity shall publish the notice sufficiently in advance to provide interested suppliers sufficient time to prepare and submit applications and for the entity to evaluate and make its determinations based on such applications.

2. Each procuring entity shall:

- (a) limit any conditions for participation in a procurement to those that are essential to ensure that the supplier has the legal, technical, and financial abilities to fulfill the requirements and technical specifications of the procurement;
- (b) recognize as qualified all suppliers of another Party that have met the requisite conditions for participation; and
- (c) base qualification determinations solely on the conditions for participation that have been specified in advance in notices or tender documentation.

3. Procuring entities may establish publicly available lists of suppliers qualified to participate in procurements. Where a procuring entity requires suppliers to qualify for such a list as a condition for participation in a procurement, and a supplier that has not yet qualified applies for inclusion in the list, the procuring entity shall promptly start the qualification procedures and shall allow the supplier to submit a tender, if it is determined to be a qualifying supplier, provided there is sufficient time to fulfill the conditions for participation within the time period established for tendering.

4. No procuring entity may make it a condition for participation in a procurement that a supplier has previously been awarded one or more contracts by a procuring entity or that the supplier has prior work experience in the territory of a Party. A procuring entity shall evaluate the financial and technical abilities of a supplier on the basis of that supplier’s business activity outside the territory of the Party of the procuring entity, as well as activity, if any, in the territory of the Party of the procuring entity.

5. A procuring entity shall promptly communicate to any supplier that has applied for qualification its decision on whether that supplier is qualified. Where a procuring entity rejects an application for qualification or ceases to recognize a supplier as qualified, that entity shall, on request of the supplier, promptly provide a written explanation of the reasons for its action.

6. Nothing in this Article shall preclude a procuring entity from prohibiting a supplier from participating in a procurement on grounds such as bankruptcy or false declarations.

*Article 9.9*Tendering Procedures

1. Subject to paragraph 2, a procuring entity shall award contracts by means of open tendering procedures.
2. Provided that the tendering procedure is not used to avoid competition or to protect domestic suppliers, a procuring entity may award contracts by means other than an open tendering procedure in the following circumstances:
 - (a) in the absence of tenders that conform to the essential requirements in the tender documentation provided in a prior notice of intended procurement or invitation to participate, including any conditions for participation, provided that the requirements of the initial notice or invitation are not substantially modified;
 - (b) where, for works of art, or for reasons connected with the protection of exclusive intellectual property rights, such as patents or copyrights, or proprietary information, or where there is an absence of competition for technical reasons, the goods or services can be supplied only by a particular supplier and no reasonable alternative or substitute exists;
 - (c) for additional deliveries by the original supplier that are intended either as replacement parts, extensions, or continuing services for existing equipment, software, services, or installations, where a change of supplier would compel the entity to procure goods or services not meeting requirements of interchangeability with existing equipment, software, services, or installations;
 - (d) for goods purchased on a commodity market;
 - (e) where a procuring entity procures a prototype or a first good or service that is developed at its request in the course of, and for, a particular contract for research, experiment, study, or original development. When such contracts have been fulfilled, subsequent procurements of goods or services shall be subject to this Chapter;

However, the total value of contracts awarded for additional construction services may not exceed 50 percent of the amount of the initial contract; or
 - (g) in so far as is strictly necessary where, for reasons of urgency brought about by events unforeseeable by the procuring entity, the goods or services could not be obtained in time by means of an open tendering procedure and the use of an open tendering procedure would result in serious injury to the procuring entity, the entity's program responsibilities, or the Party.
3. A procuring entity shall maintain records or prepare written reports providing specific justification for any contract awarded under paragraph 2, in a manner consistent with Article 9.11.3.

Article 9.10

Awarding Of Contracts

1. A procuring entity shall require that, in order to be considered for award, a tender must be submitted in writing and must, at the time it is submitted, conform to the essential requirements of the tender documentation that the procuring entity provided in advance to all participating suppliers, and be from a supplier that has complied with any conditions for participation that the procuring entity has communicated in advance to all participating suppliers.
2. Unless a procuring entity determines that it is not in the public interest to award a contract, the procuring entity shall award the contract to a supplier that the procuring entity has determined to be fully capable of undertaking the contract and whose tender is determined to be the most advantageous in terms of the requirements and evaluation criteria set out in the tender documentation.
3. No procuring entity may cancel a procurement, or terminate or modify a contract it has awarded, in order to avoid the obligations of this Chapter.

Article 9.11

Information On Contract Awards

1. A procuring entity shall promptly inform participating suppliers of decisions on contract awards. A procuring entity shall, on request, provide a supplier whose tender was not selected for award the reasons for not selecting its tender and the relative advantages of the tender selected.
2. Promptly after awarding a contract in a covered procurement, a procuring entity shall publish a notice that includes at least the following information about the contract award:

3. A procuring entity shall maintain records and reports relating to tendering procedures and contract awards in procurements covered by this Chapter, including the records and reports provided for in Article 9.9.3, for at least three years after the date a contract is awarded.

Article 9.12

Non-Disclosure Of Information

1. A Party, its procuring entities, and its review authorities shall not disclose confidential information the disclosure of which would prejudice legitimate commercial interests of a particular person or might prejudice fair competition between suppliers, without the formal authorization of the person that provided the information to the Party.

2. Nothing in this Chapter shall prevent a Party or its procuring entities from withholding the release of information where release might:

- (a) impede law enforcement;
- (b) prejudice fair competition between suppliers;
- (c) prejudice the legitimate commercial interests of particular suppliers or entities, including the protection of intellectual property; or
- (d) otherwise be contrary to the public interest.

Article 9.13

Ensuring Integrity In Procurement Practices

Further to Article 18.8 (Anti-Corruption Measures), each Party shall adopt or maintain procedures to declare ineligible for participation in the Party's procurements, either indefinitely or for a specified time, suppliers that the Party has determined to have engaged in fraudulent or other illegal actions in relation to procurement. On request of another Party, a Party shall identify the suppliers determined to be ineligible under these procedures, and, where appropriate, exchange information regarding those suppliers or the fraudulent or illegal action.

Article 9.14

Exceptions

1. Provided that such measures are not applied in a manner that would constitute a means of arbitrary or unjustifiable discrimination between Parties where the same conditions prevail or a disguised restriction on trade between the Parties, nothing in this Chapter shall be construed to prevent a Party from adopting or maintaining measures:

- (a) necessary to protect public morals, order, or safety;
- (b) necessary to protect human, animal, or plant life or health;
- (c) necessary to protect intellectual property; or
- (d) relating to goods or services of handicapped persons, of philanthropic institutions, or of prison labor.

2. The Parties understand that paragraph 1(b) includes environmental measures necessary to protect human, animal, or plant life or health.

Article 9.15

Domestic Review Of Supplier Challenges

1. Each Party shall establish or designate at least one impartial administrative or judicial authority, which shall be independent from its procuring entities, to receive and review challenges that suppliers submit relating to the obligations of the Party and its entities under this Chapter and to make appropriate findings and recommendations. In the event that a body other than such an impartial authority initially reviews a supplier's challenge, the Party shall ensure that the supplier may appeal

the initial decision to an impartial administrative or judicial authority that is independent from the procuring entity that is the subject of the challenge.

2. Each Party shall provide that an authority established or designated under paragraph 1 may take prompt interim measures, pending the resolution of a challenge, to preserve the opportunity to correct potential breaches of this Chapter, including the suspension of the award of a contract or the performance of a contract already awarded.
3. Each Party shall ensure that its review procedures are publicly available in writing, and are timely, transparent, effective, and consistent with the principle of due process.
4. Each Party shall ensure that all documents related to a challenge to a procurement are available to any impartial authority established or designated under paragraph 1.
5. A procuring entity shall respond in writing to a supplier's complaint.
6. Each Party shall ensure that an impartial authority it establishes or designates under paragraph 1 provides to suppliers the following:
 - (a) a sufficient period to prepare and submit written challenges, which in no case shall be less than 10 days from the time when the basis of the complaint became known or reasonably should have become known to the supplier;
 - (b) an opportunity to review relevant documents and to be heard by the authority in a timely manner;
 - (c) an opportunity to reply to the procuring entity's response to the supplier's complaint; and
 - (d) prompt delivery in writing of its findings and recommendations relating to the challenge, with an explanation of the grounds for each decision.
7. Each Party shall ensure that a supplier's submission of a challenge does not prejudice the supplier's participation in ongoing or future procurements.

Article 9.16

Modifications And Rectifications To Coverage

1. A Party may make technical rectifications of a purely formal nature to its coverage under this Chapter, or minor amendments to its Schedules to Sections A through C of Annexes 9.1.2(b)(i), 9.1.2(b)(ii), and 9.1.2(b)(iii), provided that it notifies the other Parties in writing and no other Party objects in writing within 30 days after the notification. A Party that makes such a rectification or minor amendment shall not be required to provide compensatory adjustments to the other Parties.
2. A Party may modify its coverage under this Chapter provided that it:
 - (a) notifies the other Parties in writing and no other Party objects in writing within 30 days after the notification; and
 - (b) except as provided in paragraph 3, offers within 30 days after notifying the other Parties acceptable compensatory adjustments to the other Parties to maintain a level of coverage comparable to that existing before the modification.

3. A Party need not provide compensatory adjustments in those circumstances where the proposed modification covers one or more procuring entities on which the Parties agree that government control or influence has been effectively eliminated. Where the Parties do not agree that such government control or influence has been effectively eliminated, the objecting Party or Parties may request further information or consultations with a view to clarifying the nature of any government control or influence and reaching agreement on the procuring entity's continued coverage under this Chapter.

4. The Commission shall modify the relevant section of Annexes 9.1.2(b)(i), 9.1.2(b)(ii), and 9.1.2(b)(iii) to reflect any agreed modification, technical rectification, or minor amendment.

With regard to the thresholds for goods and services in Section A, the United States shall calculate the U.S. dollar value for the threshold every two years, based on the U.S. inflation rate measured by the Producer Price Index for Finished Goods published by the U.S. Bureau of Labor Statistics, using the two-year period that ends on October 31 in the year prior to the adjustment taking effect, and using the following formula:

$$T_0 \times (1 + \prod i) = T_1$$

$\prod i$ = accumulated U.S. inflation rate for the i^{th} two-year period

T_1 = new threshold value.

The thresholds for construction services in Section A and the thresholds in Sections B and C are conversions into U.S. dollars of the thresholds listed in the U.S. Appendix 1 to the WTO Agreement on Government Procurement, which are set out in Special Drawing Rights (SDRs) and listed below. The United States shall calculate adjustments of these thresholds based on an average of the daily conversion rates of the U.S. dollar in terms of SDRs, published by the IMF in its monthly "International Financial Statistics," for the two-year period preceding October 1 or November 1 of the year before the adjusted thresholds are to take effect:
 - (a) 5 million SDRs for construction services;

- (b) promptly notify the other Parties of the value in its currency of the adjusted thresholds.

1. The disputing parties may agree on the legal place of any arbitration under the arbitral rules applicable under Article 10.16.3. If the disputing parties fail to reach agreement, the tribunal shall determine the place in accordance with the applicable arbitral rules, provided that the place shall be in the territory of a State that is a party to the New York Convention.
2. A non-disputing Party may make oral and written submissions to the tribunal regarding the interpretation of this Agreement.
3. The tribunal shall have the authority to accept and consider *amicus curiae* submissions from a person or entity that is not a disputing party.
4. Without prejudice to a tribunal's authority to address other objections as a preliminary question, a tribunal shall address and decide as a preliminary question any objection by the respondent that, as a matter of law, a claim submitted is not a claim for which an award in favor of the claimant may be made under Article 10.26.
 - (a) Such objection shall be submitted to the tribunal as soon as possible after the tribunal is constituted, and in no event later than the date the tribunal fixes for the respondent to submit its counter-memorial (or, in the case of an amendment to the notice of arbitration, the date the tribunal fixes for the respondent to submit its response to the amendment).
 - (b) On receipt of an objection under this paragraph, the tribunal shall suspend any proceedings on the merits, establish a schedule for considering the objection consistent with any schedule it has established for considering any other preliminary question, and issue a decision or award on the objection, stating the grounds therefor.

- (c) In deciding an objection under this paragraph, the tribunal shall assume to be true claimant's factual allegations in support of any claim in the notice of arbitration (or any amendment thereof) and, in disputes brought under the UNCITRAL Arbitration Rules, the statement of claim referred to in Article 18 of the UNCITRAL Arbitration Rules. The tribunal may also consider any relevant facts not in dispute.
- (d) The respondent does not waive any objection as to competence or any argument on the merits merely because the respondent did or did not raise an objection under this paragraph or make use of the expedited procedure set out in paragraph 5.

5. In the event that the respondent so requests within 45 days after the tribunal is constituted, the tribunal shall decide on an expedited basis an objection under paragraph 4 and any objection that the dispute is not within the tribunal's competence. The tribunal shall suspend any proceedings on the merits and issue a decision or award on the objection(s), stating the grounds therefor, no later than 150 days after the date of the request. However, if a disputing party requests a hearing, the tribunal may take an additional 30 days to issue the decision or award. Regardless of whether a hearing is requested, a tribunal may, on a showing of extraordinary cause, delay issuing its decision or award by an additional brief period, which may not exceed 30 days.

6. When it decides a respondent's objection under paragraph 4 or 5, the tribunal may, if warranted, award to the prevailing disputing party reasonable costs and attorney's fees incurred in submitting or opposing the objection. In determining whether such an award is warranted, the tribunal shall consider whether either the claimant's claim or the respondent's objection was frivolous, and shall provide the disputing parties a reasonable opportunity to comment.

7. A respondent may not assert as a defense, counterclaim, right of set-off, or for any other reason that the claimant has received or will receive indemnification or other compensation for all or part of the alleged damages pursuant to an insurance or guarantee contract.

8. A tribunal may order an interim measure of protection to preserve the rights of a disputing party, or to ensure that the tribunal's jurisdiction is made fully effective, including an order to preserve evidence in the possession or control of a disputing party or to protect the tribunal's jurisdiction. A tribunal may not order attachment or enjoin the application of a measure alleged to constitute a breach referred to in Article 10.16. For purposes of this paragraph, an order includes a recommendation.

9. (a) In any arbitration conducted under this Section, at the request of a disputing party, a tribunal shall, before issuing a decision or award on liability, transmit its proposed decision or award to the disputing parties and to the non-disputing Parties. Within 60 days after the tribunal transmits its proposed decision or award, the disputing parties may submit written comments to the tribunal concerning any aspect of its proposed decision or award. The tribunal shall consider any such comments and issue its decision or award not later than 45 days after the expiration of the 60-day comment period.

- (b) Subparagraph (a) shall not apply in any arbitration conducted pursuant to this Section for which an appeal has been made available pursuant to paragraph 10 or Annex 10-F.

10. If a separate multilateral agreement enters into force as between the Parties that establishes an appellate body for purposes of reviewing awards rendered by tribunals constituted pursuant to international trade or investment arrangements to hear investment disputes, the Parties shall strive to reach an agreement that would have such appellate body review awards rendered under Article 10.26 in arbitrations commenced after the multilateral agreement enters into force as between the Parties.

The tribunal shall make appropriate arrangements to protect the information from disclosure.
3. Nothing in this Section requires a respondent to disclose protected information or to furnish or allow access to information that it may withhold in accordance with Article 21.2 (Essential Security) or Article 21.5 (Disclosure of Information).
4. Any protected information that is submitted to the tribunal shall be protected from disclosure in accordance with the following procedures:
 - (a) Subject to subparagraph (d), neither the disputing parties nor the tribunal shall disclose to any non-disputing Party or to the public any protected information where the disputing party that provided the information clearly designates it in accordance with subparagraph (b);
 - (b) Any disputing party claiming that certain information constitutes protected information shall clearly designate the information at the time it is submitted to the tribunal;
 - (c) A disputing party shall, at the same time that it submits a document containing information claimed to be protected information, submit a redacted version of the document that does not contain the information. Only the redacted version shall be provided to the non-disputing Parties and made public in accordance with paragraph 1; and
 - (d) The tribunal shall decide any objection regarding the designation of information claimed to be protected information. If the tribunal determines that such information was not properly designated, the disputing party that submitted the information may (i) withdraw all or part of its submission containing such information, or (ii) agree to resubmit complete and redacted documents with corrected designations in accordance with the tribunal's determination and subparagraph (c). In either case, the other disputing party shall, whenever necessary, resubmit complete and redacted documents which either remove the information withdrawn under (i) by the disputing

- (g) licenses, authorizations, permits, and similar rights conferred pursuant to domestic law;^{10 11} and
- (h) other tangible or intangible, movable or immovable property, and related property rights, such as leases, mortgages, liens, and pledges;

investment agreement means a written agreement¹² that takes effect on or after the date of entry into force of this Agreement between a national authority¹³ of a Party and a covered investment or an investor of another Party that grants the covered investment or investor rights:

- (a) with respect to natural resources or other assets that a national authority controls; and
- (b) upon which the covered investment or the investor relies in establishing or acquiring a covered investment other than the written agreement itself;

investment authorization¹⁴ means an authorization that the foreign investment authority of a Party grants to a covered investment or an investor of another Party;

investor of a non-Party means, with respect to a Party, an investor that attempts to make, is making, or has made an investment in the territory of that Party, that is not an investor of a Party;

investor of a Party means a Party or state enterprise thereof, or a national or an enterprise of a Party, that attempts to make, is making, or has made an investment in the territory of another Party; provided, however, that a natural person who is a dual national shall be deemed to be exclusively a national of the State of his or her dominant and effective nationality;

⁸ Some forms of debt, such as bonds, debentures, and long-term notes, are more likely to have the characteristics of an investment, while other forms of debt are less likely to have such characteristics.

⁹ For purposes of this Agreement, claims to payment that are immediately due and result from the sale of goods or services are not investments.

¹⁰ Whether a particular type of license, authorization, permit, or similar instrument (including a concession, to the extent that it has the nature of such an instrument) has the characteristics of an investment depends on such factors as the nature and extent of the rights that the holder has under the law of the Party. Among the licenses, authorizations, permits, and similar instruments that do not have the characteristics of an investment are those that do not create any rights protected under domestic law. For greater certainty, the foregoing is without prejudice to whether any asset associated with the license, authorization, permit, or similar instrument has the characteristics of an investment.

¹¹ The term “investment” does not include an order or judgment entered in a judicial or administrative action.

¹² “Written agreement” refers to an agreement in writing, executed by both parties, that creates an exchange of rights and obligations, binding on both parties under the law applicable under Article 10.22.2. For greater certainty, (a) a unilateral act of an administrative or judicial authority, such as a permit, license, or authorization issued by a Party solely in its regulatory capacity or a decree, order, or judgment; and (b) an administrative or judicial consent decree or order, shall not be considered a written agreement.

¹³ For purposes of this definition, “national authority” means an authority at the central level of government.

¹⁴ For greater certainty, actions taken by a Party to enforce laws of general application, such as competition laws, are not encompassed within this definition.

national means a natural person who has the nationality of a Party according to Annex 2.1 (Country-Specific Definitions);

New York Convention means the *United Nations Convention on the Recognition and Enforcement of Foreign Arbitral Awards*, done at New York, June 10, 1958;

non-disputing Party means a Party that is not a party to an investment dispute;

protected information means confidential business information or information that is privileged or otherwise protected from disclosure under a Party's law;

respondent means the Party that is a party to an investment dispute;

Secretary-General means the Secretary-General of ICSID;

tribunal means an arbitration tribunal established under Article 10.19 or 10.25; and

ANNEX 10-A: PUBLIC DEBT

The rescheduling of the debts of a Central American Party or the Dominican Republic, or of such Party's institutions owned or controlled through ownership interests by such Party, owed to the United States and the rescheduling of any of such Party's debts owed to creditors in general are not subject to any provision of Section A other than Articles 10.3 and 10.4.

ANNEX 10-B: CUSTOMARY INTERNATIONAL LAW

The Parties confirm their shared understanding that "customary international law" generally and as specifically referenced in Articles 10.5, 10.6, and Annex 10-C results from a general and consistent practice of States that they follow from a sense of legal obligation. With regard to Article 10.5, the customary international law minimum standard of treatment of aliens refers to all customary international law principles that protect the economic rights and interests of aliens.

ANNEX 10-C: EXPROPRIATION

The Parties confirm their shared understanding that:

1. Article 10.7.1 is intended to reflect customary international law concerning the obligation of States with respect to expropriation.
2. An action or a series of actions by a Party cannot constitute an expropriation unless it interferes with a tangible or intangible property right or property interest in an investment.
3. Article 10.7.1 addresses two situations. The first is direct expropriation, where an investment is nationalized or otherwise directly expropriated through formal transfer of title or outright seizure.

4. The second situation addressed by Article 10.7.1 is indirect expropriation, where an action or series of actions by a Party has an effect equivalent to direct expropriation without formal transfer of title or outright seizure.

- (a) The determination of whether an action or series of actions by a Party, in a specific fact situation, constitutes an indirect expropriation, requires a case-by-case, fact-based inquiry that considers, among other factors:
 - (i) the economic impact of the government action, although the fact that an action or series of actions by a Party has an adverse effect on the economic value of an investment, standing alone, does not establish that an indirect expropriation has occurred;
 - (ii) the extent to which the government action interferes with distinct, reasonable investment-backed expectations; and
 - (iii) the character of the government action.
- (b) Except in rare circumstances, nondiscriminatory regulatory actions by a Party that are designed and applied to protect legitimate public welfare objectives, such as public health, safety, and the environment, do not constitute indirect expropriations.

ANNEX 10-D: TREATMENT IN CASE OF STRIFE

1. No investor may submit to arbitration under Section B a claim alleging that Guatemala has breached Article 10.6.2 as a result of an armed movement or civil disturbance and that the investor or the investor's enterprise has incurred loss or damage by reason of or arising out of such movement or disturbance.

2. No investor of Guatemala may submit to arbitration under Section B a claim alleging that any other Party has breached Article 10.6.2(b).

3. The limitation set out in paragraph 1 is without prejudice to other limitations existing in Guatemala's law with respect to an investor's claim that Guatemala has breached Article 10.6.2.

ANNEX 10-E: SUBMISSION OF A CLAIM TO ARBITRATION

1. An investor of the United States may not submit to arbitration under Section B a claim that a Central American Party or the Dominican Republic has breached an obligation under Section A either:

- (a) on its own behalf under Article 10.16.1(a), or
- (b) on behalf of an enterprise of a Central American Party or the Dominican Republic that is a juridical person that the investor owns or controls directly or indirectly under Article 10.16.1(b),

if the investor or the enterprise, respectively, has alleged that breach of an obligation under Section A in proceedings before a court or administrative tribunal of a Central American Party or the Dominican Republic.

2. For greater certainty, if an investor of the United States elects to submit a claim of the type described in paragraph 1 to a court or administrative tribunal of a Central American Party or the

Dominican Republic, that election shall be definitive, and the investor may not thereafter submit the claim to arbitration under Section B.

3. Notwithstanding Article 10.18, an investor of the United States may not submit to arbitration under Section B a claim relating to an investment in sovereign debt instruments with a maturity of less than one year unless one year has elapsed from the date of the events giving rise to the claim.

ANNEX 10-F: APPELLATE BODY OR SIMILAR MECHANISM

1. Within three months of the date of entry into force of this Agreement, the Commission shall establish a Negotiating Group to develop an appellate body or similar mechanism to review awards rendered by tribunals under this Chapter. Such appellate body or similar mechanism shall be designed to provide coherence to the interpretation of investment provisions in the Agreement. The Commission shall direct the Negotiating Group to take into account the following issues, among others:

- (a) the nature and composition of an appellate body or similar mechanism;
- (b) the applicable scope and standard of review;
- (c) transparency of proceedings of an appellate body or similar mechanism;
- (d) the effect of decisions by an appellate body or similar mechanism;
- (e) the relationship of review by an appellate body or similar mechanism to the arbitral rules that may be selected under Articles 10.16 and 10.25; and
- (f) the relationship of review by an appellate body or similar mechanism to existing domestic laws and international law on the enforcement of arbitral awards.

2. The Commission shall direct the Negotiating Group to provide to the Commission, within one year of establishment of the Negotiating Group, a draft amendment to the Agreement that establishes an appellate body or similar mechanism. On approval of the draft amendment by the Parties, in accordance with Article 22.2 (Amendments), the Agreement shall be so amended.

CHAPTER ELEVEN: CROSS-BORDER TRADE IN SERVICES

Article 11.1

Scope And Coverage

1. This Chapter applies to measures adopted or maintained by a Party affecting cross-border trade in services by service suppliers of another Party. Such measures include measures affecting:

- (a) the production, distribution, marketing, sale, and delivery of a service;
- (b) the purchase or use of, or payment for, a service;
- (c) the access to and use of distribution, transport, or telecommunications networks and services in connection with the supply of a service;
- (d) the presence in its territory of a service supplier of another Party; and
- (e) the provision of a bond or other form of financial security as a condition for the supply of a service.

2. For purposes of this Chapter, “measures adopted or maintained by a Party” means measures adopted or maintained by:

- (a) central, regional, or local governments and authorities; and
- (b) non-governmental bodies in the exercise of powers delegated by central, regional, or local governments or authorities.

3. Articles 11.4, 11.7, and 11.8 also apply to measures by a Party affecting the supply of a service in its territory by an investor of another Party as defined in Article 10.28 (Definitions) or a covered investment.¹

4. This Chapter does not apply to:

- (a) financial services, as defined in Article 12.20 (Definitions), except as provided in paragraph 3;

¹ The Parties understand that nothing in this Chapter, including this paragraph, is subject to investor-state dispute settlement pursuant to Section B of Chapter Ten (Investment).

- (b) air services, including domestic and international air transportation services, whether scheduled or non-scheduled, and related services in support of air services, other than:
 - (i) aircraft repair and maintenance services during which an aircraft is withdrawn from service, and
 - (ii) specialty air services;
- (c) procurement; or
- (d) subsidies or grants provided by a Party, including government-supported loans, guarantees and insurance.

5. This Chapter does not impose any obligation on a Party with respect to a national of another Party seeking access to its employment market, or employed on a permanent basis in its territory, and does not confer any right on that national with respect to that access or employment.

6. This Chapter does not apply to services supplied in the exercise of governmental authority. A “service supplied in the exercise of governmental authority” means any service that is supplied neither on a commercial basis, nor in competition with one or more service suppliers.

Article 11.2

National Treatment

1. Each Party shall accord to service suppliers of another Party treatment no less favorable than that it accords, in like circumstances, to its own service suppliers.

2. The treatment to be accorded by a Party under paragraph 1 means, with respect to a regional level of government, treatment no less favorable than the most favorable treatment accorded, in like circumstances, by that regional level of government to service suppliers of the Party of which it forms a part.

Article 11.3

Most-Favored-Nation Treatment

Each Party shall accord to service suppliers of another Party treatment no less favorable than that it accords, in like circumstances, to service suppliers of any other Party or a non-Party.

Article 11.4

Market Access

No Party may adopt or maintain, either on the basis of a regional subdivision or on the basis of its entire territory, measures that:

- (a) impose limitations on:
 - (i) the number of service suppliers whether in the form of numerical quotas, monopolies, exclusive service suppliers, or the requirement of an economic needs test,

- (ii) the total value of service transactions or assets in form of numerical quotas or the requirement of an economic needs test,
 - (iii) the total number of service operations or on the total quantity of services output expressed in terms of designated numerical units in the form of quotas or the requirement of an economic needs test,² or
 - (iv) the total number of natural persons that may be employed in a particular service sector or that a service supplier may employ and who are necessary for, and directly related to, the supply of a specific service in the form of numerical quotas or the requirement of an economic needs test; or
- (b) restrict or require specific types of legal entity or joint venture through which a service supplier may supply a service.

Article 11.5

Local Presence

No Party may require a service supplier of another Party to establish or maintain a representative office or any form of enterprise, or to be resident, in its territory as a condition for the cross-border supply of a service.

Article 11.6

Non-Conforming Measures

1. Articles 11.2, 11.3, 11.4, and 11.5 do not apply to:
 - (a) any existing non-conforming measure that is maintained by a Party at:
 - (i) the central level of government, as set out by that Party in its Schedule to Annex I;
 - (ii) a regional level of government, as set out by that Party in its Schedule to Annex I; or
 - (iii) a local level of government;
 - (b) the continuation or prompt renewal of any non-conforming measure referred to in subparagraph (a); or
 - (c) an amendment to any non-conforming measure referred to in subparagraph (a) to the extent that the amendment does not decrease the conformity of the measure, as it existed immediately before the amendment, with Articles 11.2, 11.3, 11.4, and 11.5.
2. Articles 11.2, 11.3, 11.4, and 11.5 do not apply to any measure that a Party adopts or maintains with respect to sectors, sub-sectors or activities as set out in its Schedule to Annex II.

² This clause does not cover measures of a Party that limit inputs for the supply of services.

*Article 11.7*Transparency In Developing And Applying Regulations³

Further to Chapter Eighteen (Transparency):

- (a) each Party shall maintain or establish appropriate mechanisms for responding to inquiries from interested persons regarding its regulations relating to the subject matter of this Chapter;
- (b) at the time it adopts final regulations relating to the subject matter of this Chapter, each Party shall, to the extent possible, including on request, address in writing substantive comments received from interested persons with respect to the proposed regulations; and
- (c) to the extent possible, each Party shall allow a reasonable time between publication of final regulations and their effective date.

*Article 11.8*Domestic Regulation

1. Where a Party requires authorization for the supply of a service, the Party's competent authorities shall, within a reasonable time after the submission of an application considered complete under its laws and regulations, inform the applicant of the decision concerning the application. At the request of the applicant, the Party's competent authorities shall provide, without undue delay, information concerning the status of the application. This obligation shall not apply to authorization requirements that are within the scope of Article 11.6.2.

2. With a view to ensuring that measures relating to qualification requirements and procedures, technical standards, and licensing requirements do not constitute unnecessary barriers to trade in services, each Party shall endeavor to ensure, as appropriate for individual sectors, that any such measures that it adopts or maintains are:

- (a) based on objective and transparent criteria, such as competence and the ability to supply the service;
- (b) not more burdensome than necessary to ensure the quality of the service; and
- (c) in the case of licensing procedures, not in themselves a restriction on the supply of the service.

3. If the results of the negotiations related to Article VI:4 of the GATS (or the results of any similar negotiations undertaken in other multilateral fora in which the Parties participate) enter into effect for each Party, this Article shall be amended, as appropriate, after consultations between the Parties, to bring those results into effect under this Agreement. The Parties will coordinate on such negotiations as appropriate.

³ For greater certainty, "regulations" includes regulations establishing or applying to licensing authorization or criteria.

*Article 11.9*Mutual Recognition

1. For the purposes of the fulfillment, in whole or in part, of its standards or criteria for the authorization, licensing, or certification of services suppliers, and subject to the requirements of paragraph 4, a Party may recognize the education or experience obtained, requirements met, or licenses or certifications granted in a particular country, including another Party and a non-Party. Such recognition, which may be achieved through harmonization or otherwise, may be based upon an agreement or arrangement with the country concerned or may be accorded autonomously.
2. Where a Party recognizes, autonomously or by agreement or arrangement, the education or experience obtained, requirements met, or licenses or certifications granted in the territory of another Party or a non-Party, nothing in Article 11.3 shall be construed to require the Party to accord such recognition to the education or experience obtained, requirements met, or licenses or certifications granted in the territory of any other Party.
3. A Party that is a party to an agreement or arrangement of the type referred to in paragraph 1, whether existing or future, shall afford adequate opportunity for another Party, if that other Party is interested, to negotiate its accession to such an agreement or arrangement or to negotiate a comparable one with it. Where a Party accords recognition autonomously, it shall afford adequate opportunity for another Party to demonstrate that education, experience, licenses, or certifications obtained or requirements met in that other Party's territory should be recognized.
4. No Party may accord recognition in a manner that would constitute a means of discrimination between countries in the application of its standards or criteria for the authorization, licensing, or certification of services suppliers, or a disguised restriction on trade in services.
5. Annex 11.9 applies to measures adopted or maintained by a Party relating to the licensing or certification of professional service suppliers as set out in that Annex.

*Article 11.10*Transfers And Payments

1. Each Party shall permit all transfers and payments relating to the cross-border supply of services to be made freely and without delay into and out of its territory.
2. Each Party shall permit such transfers and payments relating to the cross-border supply of services to be made in a freely usable currency at the market rate of exchange prevailing at the time of transfer.
3. Notwithstanding paragraphs 1 and 2, a Party may prevent a transfer or payment through the equitable, non-discriminatory, and good faith application of its laws relating to:
 - (a) bankruptcy, insolvency, or the protection of the rights of creditors;
 - (b) issuing, trading, or dealing in securities, futures, options, or derivatives;
 - (c) financial reporting or record keeping of transfers when necessary to assist law enforcement or financial regulatory authorities;
 - (d) criminal or penal offenses; or

- (e) ensuring compliance with orders or judgments in judicial or administrative proceedings.

Article 11.11

Implementation

The Parties shall consult annually, or as otherwise agreed, to review the implementation of this Chapter and consider other issues of mutual interest.

Article 11.12

Denial Of Benefits

1. A Party may deny the benefits of this Chapter to a service supplier of another Party if the service is being supplied by an enterprise owned or controlled by persons of a non-Party, and the denying Party:

- (a) does not maintain diplomatic relations with the non-Party; or
- (b) adopts or maintains measures with respect to the non-Party that prohibit transactions with the enterprise or that would be violated or circumvented if the benefits of this Chapter were accorded to the enterprise.

2. Subject to Articles 18.3 (Notification and Provision of Information) and 20.4 (Consultations), a Party may deny the benefits of this Chapter to a service supplier of another Party that is an enterprise of such other Party if the enterprise has no substantial business activities in the territory of any Party, other than the denying Party, and persons of a non-Party, or the denying Party, own or control the enterprise.

Article 11.13

Specific Commitments

1. Express Delivery Services:

- (a) The Parties affirm that measures affecting express delivery services are subject to this Agreement.
- (b) For purposes of this Agreement, express delivery services means the collection, transport, and delivery, of documents, printed matter, parcels, goods, or other items on an expedited basis, while tracking and maintaining control of these items throughout the supply of the service. Express delivery services do not include (i) air transport services, (ii) services supplied in the exercise of governmental authority, or (iii) maritime transport services.⁴

⁴ For greater certainty, for the United States, express delivery services do not include delivery of letters subject to the *Private Express Statutes* (18 U.S.C. § 1693 *et seq.*, 39 U.S.C. § 601 *et seq.*), but do include delivery of letters subject to the exceptions to, or suspensions promulgated under, those statutes, which permit private delivery of extremely urgent letters.

- (c) The Parties express their desire to maintain at least the level of market openness they provided for express delivery services existing on the date this Agreement is signed.
- (d) Neither a Central American Party nor the Dominican Republic may adopt or maintain any restriction on express delivery services that is not in existence on the date this Agreement is signed. Each such Party confirms that it does not intend to direct revenues from its postal monopoly to benefit express delivery services as defined in subparagraph (b). Under title 39 of the United States Code, an independent government agency determines whether postal rates meet the requirement that each class of mail or type of mail service bear the direct and indirect postal costs attributable to that class or type plus that portion of all other costs of the U.S. Postal Service reasonably assignable to such class or type.
- (e) Each Party shall ensure that, where its monopoly supplier of postal services competes, either directly or through an affiliated company, in the supply of express delivery services outside the scope of its monopoly rights, such a supplier does not abuse its monopoly position to act in its territory in a manner inconsistent with the Party's obligations under Articles 11.2, 11.3, 11.4, 10.3 (National Treatment), or 10.4 (Most-Favored-Nation Treatment). The Parties also reaffirm their obligations under Article VIII of the GATS.⁵

2. A Party's Section of Annex 11.13 sets out specific commitments by that Party.

Article 11.14

For purposes of this Chapter:

cross-border trade in services or **cross-border supply of services** means the supply of a service:

- (a) from the territory of one Party into the territory of another Party;
- (b) in the territory of one Party by a person of that Party to a person of another Party; or
- (c) by a national of a Party in the territory of another Party;

but does not include the supply of a service in the territory of a Party by an investor of another Party as defined in Article 10.28 (Definitions) or a covered investment;

enterprise means an "enterprise" as defined in Article 2.1 (Definitions of General Application), and a branch of an enterprise;

enterprise of a Party means an enterprise constituted or organized under the laws of that Party, and a branch located in the territory of that Party and carrying out business activities there;

professional services means services, the provision of which requires specialized post-secondary education, or equivalent training or experience, and for which the right to practice is granted or restricted by a Party, but does not include services provided by trades-persons or vessel and aircraft crew members;

⁵ For greater certainty, the Parties reaffirm that nothing in this Article is subject to investor-state dispute settlement pursuant to Section B of Chapter Ten (Investment).

service supplier of a Party means a person of a Party that seeks to supply or supplies a service;⁶ and

specialty air services means any non-transportation air services, such as aerial fire-fighting, sightseeing, spraying, surveying, mapping, photography, parachute jumping, glider towing, and helicopter-lift for logging and construction, and other airborne agricultural, industrial, and inspection services.

ANNEX 11.9: PROFESSIONAL SERVICES

Development of Professional Standards

1. The Parties shall encourage the relevant bodies in their respective territories to develop mutually acceptable standards and criteria for licensing and certification of professional service suppliers and to provide recommendations on mutual recognition to the Commission.

2. The standards and criteria referred to in paragraph 1 may be developed with regard to the following matters:

- (a) education – accreditation of schools or academic programs;
- (b) examinations – qualifying examinations for licensing, including alternative methods of assessment such as oral examinations and interviews;
- (c) experience – length and nature of experience required for licensing;
- (d) conduct and ethics – standards of professional conduct and the nature of disciplinary action for non-conformity with those standards;

- (h) consumer protection – alternatives to residency requirements, including bonding, professional liability insurance, and client restitution funds, to provide for the protection of consumers.

3. On receipt of a recommendation referred to in paragraph 1, the Commission shall review the recommendation within a reasonable time to determine whether it is consistent with this Agreement. Based on the Commission’s review, each Party shall encourage its respective competent authorities, where appropriate, to implement the recommendation within a mutually agreed time.

Temporary licensing

4. Where the Parties agree, each Party shall encourage the relevant bodies in its territory to develop procedures for the temporary licensing of professional service suppliers of another Party.

⁶ The Parties understand that for purposes of Articles 11.2 and 11.3, “service suppliers” has the same meaning as “services and service suppliers” in the GATS.

Review

5. The Commission shall review the implementation of this Annex at least once every three years.

ANNEX 11.13: SPECIFIC COMMITMENTS

Section A: Costa Rica

1. Costa Rica shall repeal articles 2 and 9 of Law No. 6209, entitled *Ley de Protección al Representante de Casas Extranjeras*, dated 9 March 1978, and its regulation, and item b) of article 361 of the *Código de Comercio*, Law No. 3284 of 24 April 1964, effective on the date of entry into force of this Agreement.

2. Subject to paragraph 1, Costa Rica shall enact a new legal regime that shall become applicable to contracts of representation, distribution, or production, and:

- (a) shall apply principles of general contract law to such contracts;
- (b) shall be consistent with the obligations of this Agreement and the principle of freedom of contract;
- (c) shall treat such contracts as establishing an exclusive relationship only if the contract explicitly states that the relationship is exclusive;
- (d) shall provide that the termination of such contracts either on their termination dates or in the circumstances described in subparagraph (e) is just cause for a goods or service supplier of another Party to terminate the contract or allow the contract to expire without renewal; and
- (e) will allow contracts with no termination date to be terminated by any of the parties by giving ten months advance termination notice.

3. The absence of an express provision for settlement of disputes in a contract of representation, distribution, or production shall give rise to a presumption that the parties intended to settle any disputes through binding arbitration. Such arbitration may take place in Costa Rica. However, the presumption of an intent to submit to arbitration shall not apply where any of the parties objects to arbitration.

4. The United States and Costa Rica shall encourage parties to existing contracts of representation, distribution, or production to renegotiate such contracts so as to make them subject to the new legal regime enacted in accordance with paragraph 2.

5. In any case, the repeal of articles 2 and 9 of Law No. 6209 shall not impair any vested right, when applicable, derived from that legislation and recognized under Article 34 of the *Constitución Política de la República de Costa Rica*.

6. Costa Rica shall, to the maximum extent possible, encourage and facilitate the use of arbitration for the settlement of disputes in contracts of representation, distribution, or production. To this end, Costa Rica shall endeavor to facilitate the operation of arbitration centers and other effective means of alternative resolution of claims arising pursuant to Law No. 6209 or the new legal regime enacted in accordance with paragraph 2, and shall encourage the development of rules for such arbitrations that provide, to the greatest extent possible, for the prompt, low-cost, and fair resolution of such claims.

7. For purposes of this Section:
- (a) **contract of representation, distribution, or production** has the same meaning as under Law No. 6209; and
 - (b) **termination date** means the date provided in the contract for the contract to end, or the end of a contract extension period agreed upon by the parties to the contract.

Section B: The Dominican Republic

1. The Dominican Republic shall not apply Law No. 173 to any covered contract signed after the date of entry into force of this Agreement unless the contract explicitly provides for the application of Law No. 173 and in place of Law No. 173 shall:

- (a) apply principles of the *Código Civil* of the Dominican Republic to the covered contract;
- (b) treat the covered contract in a manner consistent with the obligations of this Agreement and the principle of freedom of contract;
- (c) treat the termination of the covered contract, either on its termination date or pursuant to subparagraph (d), as just cause for a goods or service supplier to terminate the contract or allow the contract to expire without renewal;
- (d) if the covered contract has no termination date, allow it to be terminated by any of the parties by giving six months advance termination notice;
- (e) provide that after the termination of the covered contract or the decision not to renew it:
 - (i) if the covered contract contains an indemnification provision, including a provision providing for no indemnification, the indemnification shall be based on such provision;
 - (ii) if the covered contract contains no such provision, any indemnification shall be based on actual economic damages and not on a statutory formula;
 - (iii) the principal shall honor any pending warranties; and
 - (iv) the principal shall compensate the distributor for the value of any inventory that the distributor is unable to sell by reason of the termination or decision not to renew the contract. The value of inventory shall include any customs duties, surcharges, freight expenses, internal movement costs, and inventory carrying costs paid by the distributor;
- (f) allow disputes arising from the covered contract to be resolved through binding arbitration; and
- (g) allow the parties to the covered contract to establish in the contract the mechanisms and forums that will be available in the case of disputes.

Nothing in subparagraph (c) shall prevent parties from demanding indemnification, when appropriate, in the form, type, and amount agreed in the contract.

2. If Law No. 173 applies to a covered contract, either because the contract was signed before the entry into force of this Agreement or the contract explicitly provides for the application of Law No. 173, and the contract is registered with the *Banco Central* in accordance with Article 10 of Law No. 173, the Dominican Republic shall provide, consistent with articles 46 and 47 of the *Constitución de la República Dominicana*, that:

- (a) the amount of an indemnity for termination of a covered contract based on the factors listed in Article 3 of Law No. 173 shall be no greater than would be available to the claimant under the *Código Civil* of the Dominican Republic;
- (b) during or after the conciliation process under Article 7 of Law No. 173, the parties to a contract may agree to resolve the dispute through binding arbitration; and
- (c) the Government of the Dominican Republic and the conciliation authorities shall take all appropriate steps to encourage the resolution of disputes arising under covered contracts through binding arbitration.

3. For all covered contracts,

- (a) a goods or service supplier shall not be required to pay damages or an indemnity for terminating a covered contract for just cause or allowing such a contract to expire without renewal for just cause; and
- (b) a contract shall be interpreted as establishing an exclusive distributorship only to the extent that the terms of the contract explicitly state that the distributor has exclusive rights to distribute a product or service.

4. The requirement that the parties to a contract seek a negotiated settlement of any dispute through conciliation, and all other provisions of Law No. 173, shall retain all their validity and force for all contractual relations not subject to paragraph 1.

5. For purposes of this Section:

- (a) **covered contract** means a concession contract, as defined in Law No. 173, to which a goods or service supplier of the United States or any enterprise controlled by such supplier is a party;
- (b) **Law No. 173** means Law No. 173, entitled “*Ley sobre Protección a los Agentes Importadores de Mercancías y Productos*,” dated April 6, 1966, and its modifications; and

5. Under Salvadoran law, a distribution contract shall be treated as exclusive only if the contract states so expressly.
6. El Salvador shall encourage parties to distribution contracts made after the date of entry into force of this Agreement to include provisions providing for binding arbitration of disputes and specifying methods for determining any indemnity.

2. During the year following the date of entry into force of this Agreement, the United States and Guatemala shall encourage parties to contracts without a fixed termination date that remain subject to Decree 78-71 to renegotiate such contracts. The new contracts shall be based on the terms and conditions established by mutual agreement of the parties and on the provisions of the *Código de Comercio de Guatemala*, which shall regulate the activities of agents of commerce, distributors, and representatives. The United States and Guatemala shall also encourage parties to other contracts of agency, distribution, or representation that remain subject to Decree 78-71 to renegotiate such contracts so as to make them subject to the new regime referenced in paragraph 1.
3. The absence of an express provision for settlement of disputes in a contract of agency, distribution, or representation shall, to the extent consistent with the *Constitución Política de la República de Guatemala*, give rise to a rebuttable presumption that the parties intended to settle any disputes through binding arbitration.
4. The United States and Guatemala shall encourage the parties to contracts of agency, distribution, or representation to settle any disputes through binding arbitration. In particular, if the amount and form of any indemnification payment is not established in the contract and a party wishes to terminate the contract, the parties may agree to arbitration to establish the amount, if any, of the indemnity.

5. For purposes of this Section:
 - (a) **termination date** means the date provided in the contract for the contract to end, or the end of a contract extension period agreed upon by the parties to the contract; and
 - (b) **contract of agency, distribution, or representation** has the same meaning as under Decree 78-71.

3. Honduras may not require that a representative, agent, or distributor be a national of Honduras or an enterprise controlled by nationals of Honduras;
4. Honduras shall provide that:
 - (a) the fact that a contract of representation, distribution, or agency has reached its termination date shall be considered just cause for a goods or service supplier of another Party to terminate the contract or allow the contract to expire without renewal; and
 - (b) any damages or indemnity for terminating a contract of representation, distribution, or agency, or allowing it to expire without renewal, without just cause shall be based on the general law of contracts.

Nothing in subparagraph (b) shall be construed to require Honduras to adopt any measure that affects the right of the parties to demand indemnification, when appropriate, in the form, type, and amount agreed in the contract.

5. Honduras shall provide that:
 - (a) if the amount and form of any indemnification payment is not established in a contract of representation, distribution, or agency and a party wishes to terminate the contract;

 - (c) in any decision awarding an indemnity calculated under Article 14 of Decree Law No. 549, the amount shall be calculated as of the date of entry into force of this Agreement, expressed in terms of Honduran lempiras as of that date, and converted into U.S. dollars at the exchange rate in effect on the date of the decision.
6. Under Honduran law, a contract of representation, distribution, or agency is exclusive only if the contract states so expressly.
7. For purposes of this Section:
 - (a) **termination date** means the date provided in the contract for the contract to end, at 12:00 p.m. on that day, or the end of a contract extension period agreed upon by the parties to the contract; and

2. Each Party shall accord to investors of another Party, financial institutions of another Party, investments of investors in financial institutions, and cross-border financial service suppliers of another Party treatment no less favorable than that it accords to the investors, financial institutions, investments of investors in financial institutions, and cross-border financial service suppliers of any other Party or of a non-Party, in like circumstances.

 - (a) accorded unilaterally;
 - (b) achieved through harmonization or other means; or
 - (c) based upon an agreement or arrangement with another Party or a non-Party.

Where a Party accords recognition of prudential measures under paragraph 2(c) and the circumstances set out in paragraph 3 exist, the Party shall provide adequate opportunity to another Party to negotiate accession to the agreement or arrangement, or to negotiate a comparable agreement or arrangement.

Article 12.4

Market Access For Financial Institutions

No Party may adopt or maintain, with respect to financial institutions of another Party, either on the basis of a regional subdivision or on the basis of its entire territory, measures that:

- (a) impose limitations on:

2. Each Party shall permit persons located in its territory, and its nationals wherever located, to purchase financial services from cross-border financial service suppliers of another Party located in the territory of that other Party or of any other Party. This obligation does not require a Party to permit such suppliers to do business or solicit in its territory. Each Party may define “doing business” and “solicitation” for purposes of this obligation, provided that those definitions are not inconsistent with paragraph 1.
3. Without prejudice to other means of prudential regulation of cross-border trade in financial services, a Party may require the registration of cross-border financial service suppliers of another Party and of financial instruments.

Article 12.6

Where a Party requires authorization to supply a new financial service, a decision shall be made within a reasonable time and the authorization may only be refused for prudential reasons.

¹ The Parties understand that nothing in Article 12.6 prevents a financial institution of a Party from applying to another Party to request it to consider authorizing the supply of a financial service that is not supplied in the territory of any Party. The application shall be subject to the law of the Party to which the application is made and, for greater certainty, shall not be subject to the obligations of Article 12.6.

 - (b) the continuation or prompt renewal of any non-conforming measure referred to in subparagraph (a); or
 - (c) an amendment to any non-conforming measure referred to in subparagraph (a) to the extent that the amendment does not decrease the conformity of the measure, as it existed immediately before the amendment, with Article 12.2, 12.3, 12.4, or 12.8.²
2. Annex 12.9.2 sets out certain specific commitments by each Party.

4. Articles 12.2 through 12.5 and 12.8 do not apply to any measure that a Party adopts or maintains with respect to sectors, subsectors, or activities, as set out in its Schedule to Annex III.
5. A non-conforming measure set out in a Party's Schedule to Annex I or II as a measure to which Article 10.3 (National Treatment), 10.4 (Most-Favored-Nation Treatment), 11.2 (National Treatment), 11.3 (Most-Favored-Nation Treatment), or 11.4 (Market Access) does not apply shall be treated as a non-conforming measure to which Article 12.2, 12.3, or 12.4, as the case may be, does not apply, to the extent that the measure, sector, subsector, or activity set out in the Schedule is covered by this Chapter.

² For greater certainty, Article 12.5 does not apply to an amendment to any non-conforming measure referred to in subparagraph (a) to the extent that the amendment does not decrease the conformity of the measure, as it existed on the date of entry into force of this Agreement, with Article 12.5.

Where such measures do not conform with the provisions of this Agreement referred to in this paragraph, they shall not be used as a means of avoiding the Party's commitments or obligations under such provisions.
2. Nothing in this Chapter or Chapters Ten (Investment), Thirteen (Telecommunications), including specifically Article 13.16 (Relationship to Other Chapters), or Fourteen (Electronic Commerce), and Article 11.1.3 (Scope and Coverage) with respect to the supply of financial services in the territory of a Party by an investor of another Party or a covered investment, applies to non-discriminatory measures of general application taken by any public entity in pursuit of monetary and related credit policies or exchange rate policies. 3. Notwithstanding Articles 10.8 (Transfers) and 11.10 (Transfers and Payments), as incorporated into this Chapter, a Party may prevent or limit transfers by a financial institution or cross-border financial service supplier to, or for the benefit of, an affiliate of or person related to such institution or supplier, through the equitable, non-discriminatory, and good faith application of measures relating to maintenance of the safety, soundness, integrity, or financial responsibility of financial institutions or cross-border financial service suppliers. This paragraph does not prejudice any other provision of this Agreement that permits a Party to restrict transfers.
4. For greater certainty, nothing in this Chapter shall be construed to prevent the adoption or enforcement by any Party of measures necessary to secure compliance with laws or regulations that are not inconsistent with this Chapter, including those relating to the prevention of deceptive and fraudulent practices or to deal with the effects of a default on financial services contracts, subject to the requirement that such measures are not applied in a manner which would constitute a means of arbitrary or unjustifiable discrimination between countries where like conditions prevail, or a disguised restriction on investment in financial institutions or cross-border trade in financial services.

*Article 12.11*Transparency

1. The Parties recognize that transparent regulations and policies governing the activities of financial institutions and cross-border financial service suppliers are important in facilitating both access of foreign financial institutions and foreign cross-border financial service suppliers to, and their operations in, each other's markets. 7. Each Party's regulatory authorities shall make available to interested persons the requirements, including any documentation required, for completing applications relating to the supply of financial services.
8. On the request of an applicant, a Party's regulatory authority shall inform the applicant of the status of its application. If the authority requires additional information from the applicant, it shall notify the applicant without undue delay.
9. A Party's regulatory authority shall make an administrative decision on a completed application of an investor in a financial institution, a financial institution, or a cross-border financial service supplier of another Party relating to the supply of a financial service within 120 days, and shall promptly notify the applicant of the decision. An application shall not be considered complete until all relevant hearings are held and all necessary information is received. Where it is not practicable for a decision to be made within 120 days, the regulatory authority shall notify the applicant without undue delay and shall endeavor to make the decision within a reasonable time thereafter.

*Article 12.13*Payment And Clearing Systems

Under terms and conditions that accord national treatment, each Party shall grant financial institutions of another Party established in its territory access to payment and clearing systems operated by public entities, and to official funding and refinancing facilities available in the normal course of ordinary business. Article 13.15

Forbearance

To this end, each Party may forbear from applying a regulation to a service that the Party classifies as a public telecommunications service, if its telecommunications regulatory body determines that:

- (a) enforcement of such regulation is not necessary to prevent unreasonable or discriminatory practices;
- (b) enforcement of such regulation is not necessary for the protection of consumers; and
- (c) forbearance is consistent with the public interest, including promoting and enhancing competition between suppliers of public telecommunications services.

Article 13.16

ANNEX 13: SPECIFIC COMMITMENTS OF COSTA RICA ON TELECOMMUNICATIONS SERVICES

I. Preamble

The Government of the Republic of Costa Rica:

acknowledging the unique nature of the Costa Rican social policy on telecommunications, and reaffirming its decision to ensure that the process of opening its telecommunications services sector must be based on its Constitution;

emphasizing that such process shall be to the benefit of the user and shall be based on the principles of graduality, selectivity, and regulation, and in strict conformity with the social objectives of universality and solidarity in the supply of telecommunications services; and

recognizing its commitment to strengthen and modernize the *Instituto Costarricense de Electricidad* (ICE) as a market participant in a competitive telecommunications marketplace while ensuring that the use of its infrastructure shall be remunerated and to develop a regulatory body to oversee market development;

undertakes through this Annex the following specific commitments on telecommunications services.

II. Modernization of ICE

Costa Rica shall enact a new legal framework to strengthen ICE, through its appropriate modernization, no later than December 31, 2004.

III. Selective And Gradual Market Opening Commitments

1. Market Access Standstill

Costa Rica shall allow service providers of another Party to supply telecommunications services on terms and conditions that are no less favorable than those established by or granted pursuant to its legislation in force on January 27, 2003.

2. Gradual and Selective Opening of Certain Telecommunications Services

- (a) As provided in Annex I, Costa Rica shall allow telecommunications services providers of another Party, on a non-discriminatory basis, to effectively compete to

supply directly to the customer, through the technology of their choice, the following telecommunications services in its territory:¹

- (i) private network services,² no later than January 1, 2006;
 - (ii) Internet services,³ no later than January 1, 2006; and
 - (iii) mobile wireless services,⁴ no later than January 1, 2007.
- (b) Subparagraph (a) shall also apply to any other telecommunications service that Costa Rica may decide to allow in the future.

IV. Regulatory principles⁵

The regulatory framework on telecommunications services that the Government of Costa Rica shall have in force as of January 1, 2006, shall conform, among others, to the following provisions:

1. Universal Service

Costa Rica has the right to define the kind of universal service obligations it wishes to maintain. Such obligations will not be regarded as anti-competitive *per se*, provided they are administered in a transparent, non-discriminatory, and competitively neutral manner and are not more burdensome than necessary for the kind of universal service defined.

2. Independence of the Regulatory Authority

Costa Rica shall establish or maintain a regulatory authority for telecommunications services, which shall be separate from and not accountable to any supplier of telecommunications services. Costa Rica shall ensure that its telecommunications regulatory authority is authorized to impose effective sanctions to enforce domestic measures relating to the obligations set out in this Annex. This regulatory authority may include jurisdiction over spectrum management, universal service, tariffing, and licensing of new market entrants. The decisions and the procedures of the regulatory authority shall be impartial with respect to all market participants.

3. Transparency

Costa Rica shall ensure that applicable procedures for interconnection to a major supplier and either its interconnection agreements or referenced interconnection offers are made publicly available. Costa Rica shall also make publicly available all licensing or authorization criteria and procedures required for telecommunications service suppliers, and the terms and conditions of all licenses or authorizations issued.

¹ If Costa Rica requires a license for the provision of a listed service, Costa Rica shall make licenses available within the timeframes specified in this subparagraph.

² **Private network services** (closed-user group services) mean networks provided for communications with no interconnection to the public switched telecommunications network at either end. Nothing in this Annex shall be construed to prevent Costa Rica from prohibiting persons operating private networks from using their networks to supply public telecommunications networks or services to third parties.

³ **Internet services** shall include electronic mail, retrieval and processing of on-line information and databases and electronic data exchange services, and offering the ability to access the Internet.

⁴ **Mobile wireless services** mean voice, data, and/or broadband services provided by radio electric means in specifically allocated bands, using mobile or fixed terminal equipment, using cellular, PCS (Personal Communications Service), satellite, or any other similar technology that may be developed in the future for these services.

⁵ For greater certainty, this section does not create market access rights and obligations.

4. Allocation and Use of Scarce Resources

Costa Rica shall ensure that procedures for the allocation and use of limited resources, including frequencies, numbers, and rights of way, are administered in an objective, timely, transparent, and non-discriminatory manner by a competent domestic authority.⁶ The Republic of Costa Rica shall issue licenses for use of spectrum directly to the service providers, in accordance with article 121, item 14 of the *Constitución Política de la República de Costa Rica*.

5. Regulated Interconnection

- (a) Costa Rica shall ensure that public telecommunications services suppliers of another Party are provided interconnection with a major supplier in a timely fashion, under non-discriminatory terms, conditions,⁷ and cost-oriented rates that are transparent, reasonable, and having regard to economic feasibility.
- (b) Costa Rica shall also ensure that a service supplier requesting interconnection with a major supplier has recourse to an independent domestic body,⁸ which may be the regulatory authority referred to in paragraph 2, to resolve disputes regarding appropriate terms, conditions, and rates for interconnection within a reasonable time.

6. Access to and Use of the Network

- (a) Costa Rica shall ensure that enterprises of another Party have access to and use of any public telecommunications services, including leased circuits, offered in its territory or across its borders, on reasonable and non-discriminatory terms and conditions and are permitted to:
 - (i) purchase or lease and attach terminal or other equipment that interfaces with a public telecommunications network;
 - (ii) provide services to individual or multiple end-users over leased or owned circuits;
 - (iii) connect owned or leased circuits with public telecommunications networks and services in its territory, or across Costa Rica's borders or with circuits leased or owned by another person;
 - (iv) perform switching, signaling, processing, and conversion functions, and use operating protocols of their choice; and
 - (v) use public telecommunications services for the movement of information contained in databases or otherwise stored in machine-readable form in the territory of any Party.
- (b) Notwithstanding subparagraph (a), Costa Rica may take such measures as are necessary to ensure the security and confidentiality of messages or to protect the privacy of non-public personal data of subscribers to public telecommunications

⁶ The competent domestic authority shall be separate from and not accountable to any supplier of telecommunications services.

⁷ For purposes of subparagraph (a), **conditions** include technical regulations and specifications, as well as the quality of interconnection.

⁸ The independent domestic body shall be separate from and not accountable to any supplier of telecommunications services.

services, subject to the requirement that such measures are not applied in a manner that would constitute a means of arbitrary or unjustifiable discrimination or disguised restriction on trade in services.

- (c) Costa Rica shall also ensure that no condition is imposed on access to and use of public telecommunications networks or services, other than that necessary to safeguard the public service responsibilities of providers of public telecommunications networks or services, in particular their ability to make their networks or services available to the public generally, or protect the technical integrity of public telecommunications networks or services.

7. Provision of Information Services

- (a) Costa Rica may not require an enterprise of another Party in its territory that it classifies⁹ as a supplier of information services and that supplies such services over facilities that it does not own to:
 - (i) supply such services to the public generally;
 - (ii) cost-justify rates for such services;
 - (iii) file tariffs for such services;
 - (iv) interconnect its networks with any particular customer for the supply of such services; or
 - (v) conform to any particular standard or technical regulation for interconnection other than that for interconnection to a public telecommunications network.
- (b) Notwithstanding subparagraph (a), Costa Rica may take any action referred to in clauses (i) through (v) to remedy a practice of a supplier of information services that it has found in a particular case to be anti-competitive under its law or regulations, or to otherwise promote competition or safeguard the interests of consumers.

8. Competition

Costa Rica shall maintain appropriate measures for the purpose of preventing suppliers who, alone or together, are a major supplier from engaging in anti-competitive practices, such as not making available, on a timely basis, to suppliers of public telecommunications services, technical information about essential facilities and commercially relevant information that is necessary for them to provide public telecommunications services.

9. Submarine Cable Systems

Costa Rica shall ensure reasonable and non-discriminatory treatment for access to submarine cable systems (including landing facilities) in its territory, where a supplier is authorized to operate such submarine cable system as a public telecommunications service.

⁹ The telecommunications regulatory authority will have the competence within its territory to classify the services included in the information services category.

10. Flexibility in the Choice of Technologies

Costa Rica may not prevent suppliers of public telecommunications services from having the flexibility to choose the technologies that they use to supply their services, subject to requirements necessary to satisfy legitimate public policy interests.

ANNEX 13.3: RURAL TELEPHONE SUPPLIERS

1. A state regulatory authority in the United States may exempt a rural local exchange carrier, as defined in section 251(f)(2) of the *Communications Act of 1934*, as amended, from the obligations contained in paragraphs 2 through 4 of Article 13.3 and from the obligations contained in Article 13.4.

The number of subscriber lines supplied by a rural telephone company includes all subscriber lines supplied by the company, and by its owners, subsidiaries, and affiliates.
4. Nothing in this Annex shall be construed to preclude a Party from imposing the requirements set out in Article 13.4 on rural telephone companies.

ANNEX 13.4.5: INTERCONNECTION

1. For any Party that does not have an existing commitment under the GATS to ensure that a major supplier in its territory provides interconnection at cost-oriented rates, the obligation under Article 13.4.5 to ensure the provision of cost-oriented interconnection shall become effective:

- (a) two years after the date of entry into force of this Agreement; or
- (b) January 1, 2007,

whichever is earlier.

2. During the transition period, each such Party shall ensure that major suppliers of public telecommunications services in its territory:

- (a) do not charge interconnection rates above the rates charged on December 31, 2003; and
- (b) proportionally reduce interconnection rates as necessary to ensure that a cost-oriented interconnection rate has been achieved by the end of the transition period.

ANNEX 13.4.8: ACCESS TO RIGHTS-OF-WAY

1. No Party may impose customs duties, fees, or other charges on or in connection with the importation or exportation of digital products by electronic transmission.
2. For purposes of determining applicable customs duties, each Party shall determine the customs value of an imported carrier medium bearing a digital product based on the cost or value of the carrier medium alone, without regard to the cost or value of the digital product stored on the carrier medium.
3. No Party may accord less favorable treatment to some digital products transmitted electronically than it accords to other like digital products transmitted electronically:
 - (a) on the basis that
 - (i) the digital products receiving less favorable treatment are created, produced, published, stored, transmitted, contracted for, commissioned, or first made available on commercial terms outside its territory; or
 - (ii) the author, performer, producer, developer, or distributor of such digital products is a person of another Party or non-Party,

- (b) whose author, performer, producer, developer, or distributor is a person of another Party than it accords to like digital products transmitted electronically whose author, performer, producer, developer, or distributor is a person of a non-Party.

General Provisions

1. Each Party shall, at a minimum, give effect to this Chapter. 2. Each Party shall ratify or accede to the following agreements by the date of entry into force of this Agreement:
 - (a) the *WIPO Copyright Treaty* (1996); and
 - (b) the *WIPO Performances and Phonograms Treaty* (1996).
3. Each Party shall ratify or accede to the following agreements by January 1, 2006:
 - (a) the *Patent Cooperation Treaty*, as revised and amended (1970); and
 - (b) the *Budapest Treaty on the International Recognition of the Deposit of Microorganisms for the Purposes of Patent Procedure* (1980).

9. A Party may derogate from paragraph 8 in relation to its judicial and administrative procedures, including any procedure requiring a national of another Party to designate for service of process an address in its territory or to appoint an agent in its territory, provided that such derogation:
 - (a) is necessary to secure compliance with laws and regulations that are not inconsistent with this Chapter; and

¹ The Parties recognize that the UPOV Convention 1991 contains exceptions to the breeder's right, including for acts done privately and for non-commercial purposes, such as private and non-commercial acts of farmers. Further, the Parties recognize that the UPOV Convention 1991 provides for restrictions to the exercise of a breeder's right for reasons of public interest, provided that the Parties take all measures necessary to ensure that the breeder receives equitable remuneration. The Parties also understand that each Party may avail itself of these exceptions and restrictions. Finally, the Parties understand that there is no conflict between the UPOV Convention 1991 and a Party's ability to protect and conserve its genetic resources.

² For purposes of Articles 15.1.8, 15.1.9, 15.4.2, and 15.7.1, a national of a Party shall also mean, in respect of the relevant right, an entity located in that Party that would meet the criteria for eligibility for protection provided for in the agreements listed in Article 15.1.2 through 15.1.6 and the TRIPS Agreement.

Except as it provides otherwise, this Chapter gives rise to obligations in respect of all subject matter existing on the date of entry into force of this Agreement that is protected on that date in the Party where protection is claimed, or that meets or comes subsequently to meet the criteria for protection under this Chapter.

12. Except as otherwise provided in this Chapter, a Party shall not be required to restore protection to subject matter that on the date of entry into force of this Agreement has fallen into the public domain in the Party where the protection is claimed.

13. This Chapter does not give rise to obligations in respect of acts that occurred before the date of entry into force of this Agreement.

14. Each Party shall ensure that all laws, regulations, and procedures concerning the protection or enforcement of intellectual property rights shall be in writing and shall be published,⁴ or where such publication is not practicable, made publicly available, in a national language in such a manner as to enable governments and right holders to become acquainted with them, with the object of making the protection and enforcement of intellectual property rights transparent.

15. Nothing in this Chapter shall be construed to prevent a Party from adopting measures necessary to prevent anticompetitive practices that may result from the abuse of the intellectual property rights set out in this Chapter, provided that such measures are consistent with this Chapter.

16. Recognizing the Parties' commitment to trade capacity building as reflected in the establishment of the Committee on Trade Capacity Building under Article 19.4 (Committee on Trade Capacity Building) and the importance of trade capacity building activities, the Parties shall cooperate through that Committee in the following initial capacity-building priority activities, on mutually agreed terms and conditions, and subject to the availability of appropriated funds:

*Article 15.2*Trademarks

1. Each Party shall provide that trademarks shall include collective, certification, and sound marks, and may include geographical indications and scent marks. A geographical indication is capable of constituting a mark to the extent that the geographical indication consists of any sign, or any combination of signs, capable of identifying a good or service as originating⁵ in the territory of a Party, or a region or locality in that territory, where a given quality, reputation, or other characteristic of the good or service is essentially attributable to its geographical origin.
2. In view of the obligations of Article 20 of the TRIPS Agreement, each Party shall ensure that measures mandating the use of the term customary in common language as the common name for a good or service (“common name”) including, *inter alia*, requirements concerning the relative size, placement, or style of use of the trademark in relation to the common name, do not impair the use or effectiveness of trademarks used in relation to such goods.
3. Each Party shall provide that the owner of a registered trademark shall have the exclusive right to prevent all third parties not having the owner’s consent from using in the course of trade identical or similar signs, including geographical indications, for goods or services that are related to those goods or services in respect of which the owner’s trademark is registered, where such use would result in a likelihood of confusion. In case of the use of an identical sign, including a geographical indication, for identical goods or services, a likelihood of confusion shall be presumed.
4. Each Party may provide limited exceptions to the rights conferred by a trademark, such as fair use of descriptive terms, provided that such exceptions take account of the legitimate interest of the owner of the trademark and of third parties.
5. Article 6bis of the *Paris Convention for the Protection of Industrial Property* (1967) (Paris Convention) shall apply, *mutatis mutandis*, to goods or services that are not identical or similar to those identified by a well-known trademark,⁶ whether registered or not, provided that use of that trademark in relation to those goods or services would indicate a connection between those goods or services and the owner of the trademark, and provided that the interests of the owner of the trademark are likely to be damaged by such use.
6. Each Party shall provide a system for the registration of trademarks, which shall include:
 - (a) providing to the applicant a communication in writing, which may be electronic, of the reasons for any refusal to register a trademark;
 - (b) an opportunity for the applicant to respond to communications from the trademark authorities, to contest an initial refusal, and to appeal judicially a final refusal to register;
 - (c) an opportunity for interested parties to petition to oppose a trademark application or to seek cancellation of a trademark after it has been registered; and

⁵ For purposes of this Chapter, “originating” does not have the meaning ascribed to that term in Article 2.1 (Definitions of General Application).

⁶ In determining whether a trademark is well known, the reputation of the trademark need not extend beyond the sector of the public that normally deals with the relevant goods or services.

- (d) a requirement that decisions in opposition or cancellation proceedings be reasoned and in writing.
7. Each Party shall provide, to the maximum degree practical, a system for the electronic application, processing, registration, and maintenance of trademarks, and work to provide, to the maximum degree practical, a publicly available electronic database – including an on-line database – of trademark applications and registrations.
8. (a) Each Party shall provide that each registration or publication that concerns a trademark application or registration and that indicates goods or services shall indicate the goods or services by their common names, grouped according to the classes of the classification established by the *Nice Agreement Concerning the International Classification of Goods and Services for the Purposes of the Registration of Marks* (1979), as revised and amended (Nice Classification).
- (b) Each Party shall provide that goods or services may not be considered as being similar to each other solely on the ground that, in any registration or publication, they appear in the same class of the Nice Classification. Conversely, each Party shall provide that goods or services may not be considered as being dissimilar from each other solely on the ground that, in any registration or publication, they appear in different classes of the Nice Classification.
9. Each Party shall provide that initial registration and each renewal of registration of a trademark shall be for a term of no less than ten years.
10. No Party may require recordal of trademark licenses to establish the validity of the license, to assert any rights in a trademark, or for other purposes.⁷

Article 15.3

Geographical Indications

Definition

1. For purposes of this Article, geographical indications are indications that identify a good as originating in the territory of a Party, or a region or locality in that territory, where a given quality, reputation, or other characteristic of the good is essentially attributable to its geographical origin. Any sign or combination of signs, in any form whatsoever, shall be eligible to be a geographical indication.

Procedures with Respect to Geographical Indications

2. Each Party shall provide the legal means to identify⁸ and protect geographical indications of the other Parties that meet the criteria of paragraph 1. Each Party shall provide the means for persons of another Party to apply for protection or petition for recognition of geographical indications. Each Party shall accept applications and petitions from persons of another Party without the requirement for intercession by that Party on behalf of its persons.

3. Each Party shall process applications or petitions, as the case may be, for geographical indications with a minimum of formalities.

⁷ A Party may establish a means to allow licensees to record licenses for the purpose of providing notice to the public as to the existence of the license. However, no Party may make notice to the public a requirement for asserting any rights under the license.

⁸ For purposes of this paragraph, **legal means to identify** means a system that permits applicants to provide information on the quality, reputation, or other characteristics of the asserted geographical indication.

4. Each Party shall make its regulations governing filing of such applications or petitions, as the case may be, readily available to the public.

5. Each Party shall ensure that applications or petitions, as the case may be, for geographical indications are published for opposition, and shall provide procedures for opposing geographical indications that are the subject of applications or petitions. Each Party shall also provide procedures to cancel any registration resulting from an application or a petition.

6. Each Party shall ensure that measures governing the filing of applications or petitions, as the case may be, for geographical indications set out clearly the procedures for these actions. Each Party shall make available contact information sufficient to allow (a) the general public to obtain guidance concerning the procedures for filing applications or petitions and the processing of those applications or petitions in general; and (b) applicants, petitioners, or their representatives to ascertain the status of, and to obtain procedural guidance concerning, specific applications and petitions.

Relationship between Trademarks and Geographical Indications

7. Each Party shall ensure that grounds for refusing protection or recognition of a geographical indication include the following:

- (a) the geographical indication is likely to be confusingly similar to a trademark that is the subject of a good-faith pending application or registration; and
- (b) the geographical indication is likely to be confusingly similar to a pre-existing trademark, the rights to which have been acquired in accordance with the Party's law.⁹

Article 15.4

Domain Names On The Internet

1. In order to address trademark cyber-piracy, each Party shall require that the management of its country-code top-level domain (ccTLD) provides an appropriate procedure for the settlement of disputes based on the principles established in the *Uniform Domain-Name Dispute-Resolution Policy*.

2. Each Party shall require that the management of its ccTLD provides on-line public access to a reliable and accurate database of contact information for domain-name registrants. In determining the appropriate contact information, the management of a Party's ccTLD may give due regard to the Party's laws protecting the privacy of its nationals.

Article 15.5

Obligations Pertaining To Copyright And Related Rights

1. Each Party shall provide that authors, performers, and producers of phonograms¹⁰ have the right¹¹ to authorize or prohibit all reproductions of their works, performances, or phonograms, in any manner or form, permanent or temporary (including temporary storage in electronic form).¹²

⁹ For purposes of this paragraph, the Parties understand that each Party has already established grounds for refusing protection of a trademark under its law, including that (a) the trademark is likely to be confusingly similar to a geographical indication that is the subject of a registration; and (b) the trademark is likely to be confusingly similar to a pre-existing geographical indication, the rights to which have been acquired in accordance with the Party's law.

2. Each Party shall provide to authors, performers, and producers of phonograms the right to authorize the making available to the public of the original and copies of their works, performances, and phonograms¹³ through sale or other transfer of ownership.

3. In order to ensure that no hierarchy is established between rights of authors, on the one hand, and rights of performers and producers of phonograms, on the other hand, each Party shall establish that in cases where authorization is needed from both the author of a work embodied in a phonogram and a performer or producer owning rights in the phonogram, the need for the authorization of the author does not cease to exist because the authorization of the performer or producer is also required. Likewise, each Party shall establish that in cases where authorization is needed from both the author of a work embodied in a phonogram and of a performer or producer owning rights in the phonogram, the need for the authorization of the performer or producer does not cease to exist because the authorization of the author is also required.

4. Each Party shall provide that, where the term of protection of a work (including a photographic work), performance, or phonogram is to be calculated:

- (a) on the basis of the life of a natural person, the term shall be not less than the life of the author and 70 years after the author's death; and
- (b) on a basis other than the life of a natural person, the term shall be:
 - (i) not less than 70 years from the end of the calendar year of the first authorized publication of the work, performance, or phonogram, or
 - (ii) failing such authorized publication within 50 years from the creation of the work, performance, or phonogram, not less than 70 years from the end of the calendar year of the creation of the work, performance, or phonogram.

5. Each Party shall apply the provisions of Article 18 of the Berne Convention and Article 14.6 of the TRIPS Agreement, *mutatis mutandis*, to the subject matter, rights, and obligations provided for in this Article and Articles 15.6 and 15.7.

6. Each Party shall provide that for copyright and related rights:

- (a) any person acquiring or holding any economic right in a work, performance, or phonogram may freely and separately transfer such right by contract; and
- (b) any person acquiring or holding any such economic right by virtue of a contract, including contracts of employment underlying the creation of works and performances, and production of phonograms, shall be able to exercise such right in that person's own name and enjoy fully the benefits derived from such right.

¹⁰ References in this Chapter to "authors, performers, and producers of phonograms" include any successors in interest.

¹¹ With respect to copyrights and related rights in this Chapter, a right to authorize or prohibit or a right to authorize means an exclusive right.

¹² The Parties understand that the reproduction right as set out in this paragraph and in Article 9 of the *Berne Convention for the Protection of Literary and Artistic Works* (1971) (Berne Convention) and the exceptions permitted under the Berne Convention and Article 15.5.10(a) fully apply in the digital environment, in particular to the use of works in digital form.

¹³ With respect to copyright and related rights in this Chapter, a "performance" refers to a performance fixed in a phonogram, unless otherwise specified.

7. (a) In order to provide adequate legal protection and effective legal remedies against the circumvention of effective technological measures that authors, performers, and producers of phonograms use in connection with the exercise of their rights and that restrict unauthorized acts in respect of their works, performances, and phonograms, each Party shall provide that any person who:
- (i) circumvents without authority any effective technological measure that controls access to a protected work, performance, phonogram, or other subject matter; or
 - (ii) manufactures, imports, distributes, offers to the public, provides, or otherwise traffics in devices, products, or components, or offers to the public or provides services, that:
 - (A) are promoted, advertised, or marketed for the purpose of circumvention of any effective technological measure; or
 - (B) have only a limited commercially significant purpose or use other than to circumvent any effective technological measure; or
 - (C) are primarily designed, produced, or performed for the purpose of enabling or facilitating the circumvention of any effective technological measure,

shall be liable and subject to the remedies provided for in Article 15.11.14. Each Party shall provide for criminal procedures and penalties to be applied when any person, other than a nonprofit library, archive, educational institution, or public non-commercial broadcasting entity, is found to have engaged willfully and for purposes of commercial advantage or private financial gain in any of the foregoing activities.

- (b) In implementing subparagraph (a), no Party shall be obligated to require that the design of, or the design and selection of parts and components for, a consumer electronics, telecommunications, or computing product provide for a response to any particular technological measure, so long as the product does not otherwise violate any measures implementing subparagraph (a).
- (c) Each Party shall provide that a violation of a measure implementing this paragraph is a separate civil cause of action or criminal offense, independent of any infringement that might occur under the Party's law on copyright and related rights.
- (d) Each Party shall confine exceptions to any measures implementing the prohibition in subparagraph (a)(ii) on technology, products, services, or devices that circumvent effective technological measures that control access to, and, in the case of clause (i), that protect any of the exclusive rights of copyright or related rights in, a protected work, performance, or phonogram referred to in subparagraph (a)(ii), to the following activities, provided that they do not impair the adequacy of legal protection or the effectiveness of legal remedies against the circumvention of effective technological measures:
 - (i) noninfringing reverse engineering activities with regard to a lawfully obtained copy of a computer program, carried out in good faith with respect to particular elements of that computer program that have not been readily

- available to the person engaged in those activities, for the sole purpose of achieving interoperability of an independently created computer program with other programs;
- (ii) noninfringing good faith activities, carried out by an appropriately qualified researcher who has lawfully obtained a copy, unfixed performance or display of a work, performance, or phonogram, and who has made a good faith effort to obtain authorization for such activities, to the extent necessary for the sole purpose of identifying and analyzing flaws and vulnerabilities of technologies for scrambling and descrambling of information;
 - (iii) the inclusion of a component or part for the sole purpose of preventing the access of minors to inappropriate on-line content in a technology, product, service, or device that itself is not prohibited under the measures implementing subparagraph (a)(ii); and
 - (iv) noninfringing good faith activities that are authorized by the owner of a computer, computer system, or computer network for the sole purpose of testing, investigating, or correcting the security of that computer, computer system, or computer network.
- (e) Each Party shall confine exceptions to any measures implementing the prohibition referred to in subparagraph (a)(i) to the activities listed in subparagraph (d) and the following activities, provided that they do not impair the adequacy of legal protection or the effectiveness of legal remedies against the circumvention of effective technological measures:
- (i) access by a nonprofit library, archive, or educational institution to a work, performance, or phonogram, not otherwise available to it, for the sole purpose of making acquisition decisions;
 - (ii) noninfringing activities for the sole purpose of identifying and disabling a capability to carry out undisclosed collection or dissemination of personally identifying information reflecting the on-line activities of a natural person in a way that has no other effect on the ability of any person to gain access to any work; and
 - (iii) noninfringing uses of a work, performance, or phonogram, in a particular class of works, performances, or phonograms, when an actual or likely adverse impact on those noninfringing uses is demonstrated in a legislative or administrative proceeding by substantial evidence; provided that in order for any such exception to remain in effect for more than four years, a Party must conduct a review before the expiration of the four-year period and at intervals of at least every four years thereafter, pursuant to which it is demonstrated in such a proceeding by substantial evidence that there is a continuing actual or likely adverse impact on the particular noninfringing use.
- (f) Each Party may provide exceptions to any measures implementing the prohibitions referred to in subparagraph (a) for lawfully authorized activities carried out by government employees, agents, or contractors for law enforcement, intelligence, essential security, or similar governmental purposes.
- (g) **Effective technological measure** means any technology, device, or component that, in the normal course of its operation, controls access to a protected work,

performance, phonogram, or other protected subject matter, or protects any copyright or any rights related to copyright.

8. In order to provide adequate legal protection and effective legal remedies to protect rights management information:

- (a) Each Party shall provide that any person who, without authority, and knowing, or, with respect to civil remedies, having reasonable grounds to know, that it would induce, enable, facilitate, or conceal an infringement of any copyright or related right,
 - (i) knowingly removes or alters any rights management information;
 - (ii) distributes or imports for distribution rights management information knowing that the rights management information has been removed or altered without authority; or
 - (iii) distributes, imports for distribution, broadcasts, communicates or makes available to the public copies of works, performances, or phonograms, knowing that rights management information has been removed or altered without authority,

shall be liable and subject to the remedies provided for in Article 15.11.14. Each Party shall provide for criminal procedures and penalties to be applied when any person, other than a nonprofit library, archive, educational institution, or public non-commercial broadcasting entity, is found to have engaged willfully and for purposes of commercial advantage or private financial gain in any of the foregoing activities.

- (b) Each Party shall confine exceptions to measures implementing subparagraph (a) to lawfully authorized activities carried out by government employees, agents, or contractors for law enforcement, intelligence, national defense, essential security, or similar governmental purposes.
- (c) **Rights management information** means:
 - (i) information that identifies a work, performance, or phonogram, the author of the work, the performer of the performance, or the producer of the phonogram, or the owner of any right in the work, performance, or phonogram; or
 - (ii) information about the terms and conditions of the use of the work, performance, or phonogram; or
 - (iii) any numbers or codes that represent such information,

when any of these items is attached to a copy of the work, performance, or phonogram or appears in connection with the communication or making available of a work, performance, or phonogram to the public. Nothing in this paragraph shall obligate a Party to require the owner of any right in the work, performance, or phonogram to attach rights management information to copies of the work, performance, or phonogram, or to cause rights management information to appear in connection with a communication of the work, performance, or phonogram to the public.

9. In order to confirm that all agencies at the central level of government use computer software only as authorized, each Party shall issue appropriate laws, orders, regulations, or decrees to actively regulate the acquisition and management of software for such use. These measures may take the form of procedures such as preparing and maintaining inventories of software on agency computers and inventories of software licenses.

10. (a) With respect to Articles 15.5, 15.6, and 15.7, each Party shall confine limitations or exceptions to exclusive rights to certain special cases that do not conflict with a normal exploitation of the work, performance, or phonogram, and do not unreasonably prejudice the legitimate interests of the right holder.
- (b) Notwithstanding subparagraph (a) and Article 15.7.3(b), no Party may permit the retransmission of television signals (whether terrestrial, cable, or satellite) on the Internet without the authorization of the right holder or right holders of the content of the signal and, if any, of the signal.

Article 15.6

Obligations Pertaining Specifically To Copyright

Without prejudice to Articles 11(1)(ii), 11*bis*(1)(i) and (ii), 11*ter*(1)(ii), 14(1)(ii), and 14*bis*(1) of the Berne Convention, each Party shall provide to authors the exclusive right to authorize or prohibit the communication to the public of their works, directly or indirectly, by wire or wireless means, including the making available to the public of their works in such a way that members of the public may access these works from a place and at a time individually chosen by them.

Article 15.7

Obligations Pertaining Specifically To Related Rights

1. Each Party shall accord the rights provided for in this Chapter with respect to performers and producers of phonograms to the performers and producers of phonograms who are nationals of another Party and to performances or phonograms first published or fixed in the territory of a Party. A performance or phonogram shall be considered first published in the territory of a Party in which it is published within 30 days of its original publication.¹⁴
2. Each Party shall provide to performers the right to authorize or prohibit:
- (a) the broadcasting and communication to the public of their unfixed performances except where the performance is already a broadcast performance; and
- (b) the fixation of their unfixed performances.
3. (a) Each Party shall provide to performers and producers of phonograms the right to authorize or prohibit the broadcasting or any communication to the public of their performances or phonograms, by wire or wireless means, including the making available to the public of those performances and phonograms in such a way that members of the public may access them from a place and at a time individually chosen by them.

¹⁴ For purposes of this Article, fixation includes the finalization of the master tape or its equivalent.

- (b) Notwithstanding subparagraph (a) and Article 15.5.10, the application of this right to traditional free over-the-air noninteractive broadcasting, and exceptions or limitations to this right for such broadcasting, shall be a matter of domestic law.
 - (c) Each Party may adopt limitations to this right in respect of other noninteractive transmissions in accordance with Article 15.5.10, provided that the limitations do not prejudice the right of the performer or producer of phonograms to obtain equitable remuneration.
4. No Party may subject the enjoyment and exercise of the rights of performers and producers of phonograms provided for in this Chapter to any formality.
5. For purposes of this Article and Article 15.5, the following definitions apply with respect to performers and producers of phonograms:
- (a) **performers** means actors, singers, musicians, dancers, and other persons who act, sing, deliver, declaim, play in, interpret, or otherwise perform literary or artistic works or expressions of folklore;
 - (b) **phonogram** means the fixation of the sounds of a performance or of other sounds, or of a representation of sounds, other than in the form of a fixation incorporated in a cinematographic or other audiovisual work;
 - (c) **fixation** means the embodiment of sounds, or of the representations thereof, from which they can be perceived, reproduced, or communicated through a device;
 - (d) **producer of a phonogram** means the person, or the legal entity, who or which takes the initiative and has the responsibility for the first fixation of the sounds of a performance or other sounds, or the representations of sounds;
 - (e) **publication** of a performance or a phonogram means the offering of copies of the fixed performance or the phonogram to the public, with the consent of the right holder, and provided that copies are offered to the public in reasonable quantity;
 - (f) **broadcasting** means the transmission by wireless means or satellite to the public of sounds or sounds and images, or of the representations thereof, including wireless transmission of encrypted signals where the means for decrypting are provided to the public by the broadcasting organization or with its consent; and
 - (g) **communication to the public** of a performance or a phonogram means the transmission to the public by any medium, otherwise than by broadcasting, of sounds of a performance or the sounds or the representations of sounds fixed in a phonogram. For purposes of paragraph 3, “communication to the public” includes making the sounds or representations of sounds fixed in a phonogram audible to the public.

Article 15.8

Protection Of Encrypted Program-Carrying Satellite Signals

1. Each Party shall make it a criminal offense:
 - (a) to manufacture, assemble, modify, import, export, sell, lease, or otherwise distribute a tangible or intangible device or system, knowing or having reason to know that the device or system is primarily of assistance in decoding an encrypted program-

carrying satellite signal without the authorization of the lawful distributor of such signal; and

- (b) willfully to receive and further distribute a program-carrying signal that originated as an encrypted satellite signal knowing that it has been decoded without the authorization of the lawful distributor of the signal.

2. Each Party shall provide for civil remedies, including compensatory damages, for any person injured by any activity described in paragraph 1, including any person that holds an interest in the encrypted programming signal or its content.

Article 15.9

Patents

1. Each Party shall make patents available for any invention, whether a product or a process, in all fields of technology, provided that the invention is new, involves an inventive step, and is capable of industrial application. For purposes of this Article, a Party may treat the terms “inventive step” and “capable of industrial application” as being synonymous with the terms “non-obvious” and “useful,” respectively.

2. Nothing in this Chapter shall be construed to prevent a Party from excluding inventions from patentability as set out in Articles 27.2 and 27.3 of the TRIPS Agreement. Notwithstanding the foregoing, any Party that does not provide patent protection for plants by the date of entry into force of this Agreement shall undertake all reasonable efforts to make such patent protection available. Any Party that provides patent protection for plants or animals on or after the date of entry into force of this Agreement shall maintain such protection.

3. A Party may provide limited exceptions to the exclusive rights conferred by a patent, provided that such exceptions do not unreasonably conflict with a normal exploitation of the patent and do not unreasonably prejudice the legitimate interests of the patent owner, taking account of the legitimate interests of third parties.

4. Without prejudice to Article 5.A(3) of the Paris Convention, each Party shall provide that a patent may be revoked or cancelled only on grounds that would have justified a refusal to grant the patent. However, a Party may also provide that fraud, misrepresentation, or inequitable conduct may be the basis for revoking, canceling, or holding a patent unenforceable.

5. Consistent with paragraph 3, if a Party permits a third person to use the subject matter of a subsisting patent to generate information necessary to support an application for marketing approval of a pharmaceutical or agricultural chemical product, that Party shall provide that any product produced under such authority shall not be made, used, or sold in the territory of that Party other than for purposes related to generating information to meet requirements for approval to market the product once the patent expires, and if the Party permits exportation, the product shall only be exported outside the territory of that Party for purposes of meeting marketing approval requirements of that Party.

6. (a) Each Party, at the request of the patent owner, shall adjust the term of a patent to compensate for unreasonable delays that occur in granting the patent. For purposes of this paragraph, an unreasonable delay shall at least include a delay in the issuance of the patent of more than five years from the date of filing of the application in the territory of the Party, or three years after a request for examination of the application has been made, whichever is later, provided that periods attributable to actions of the patent applicant need not be included in the determination of such delays.

- (b) With respect to any pharmaceutical product that is covered by a patent, each Party shall make available a restoration of the patent term to compensate the patent owner for unreasonable curtailment of the effective patent term resulting from the marketing approval process related to the first commercial marketing of the product in that Party.

7. Each Party shall disregard information contained in public disclosures used to determine if an invention is novel or has an inventive step if the public disclosure (a) was made or authorized by, or derived from, the patent applicant, and (b) occurred within 12 months prior to the date of filing of the application in the territory of the Party.

8. Each Party shall provide patent applicants with at least one opportunity to submit amendments, corrections, and observations in connection with their applications.

9. Each Party shall provide that a disclosure of a claimed invention shall be considered to be sufficiently clear and complete if it provides information that allows the invention to be made and used by a person skilled in the art, without undue experimentation, as of the filing date.

10. Each Party shall provide that a claimed invention is sufficiently supported by its disclosure if the disclosure reasonably conveys to a person skilled in the art that the applicant was in possession of the claimed invention as of the filing date.

11. Each Party shall provide that a claimed invention is industrially applicable if it has a specific, substantial, and credible utility.

Article 15.10

Measures Related To Certain Regulated Products

1. (a) If a Party requires, as a condition of approving the marketing of a new pharmaceutical or agricultural chemical product, the submission of undisclosed data concerning safety or efficacy, the Party shall not permit third persons, without the consent of the person who provided the information, to market a product on the basis of (1) the information, or (2) the approval granted to the person who submitted the information for at least five years for pharmaceutical products and ten years for agricultural chemical products from the date of approval in the Party.¹⁵
- (b) If a Party permits, as a condition of approving the marketing of a new pharmaceutical or agricultural chemical product, third persons to submit evidence concerning the safety or efficacy of a product that was previously approved in another territory, such as evidence of prior marketing approval, the Party shall not permit third persons, without the consent of the person who previously obtained such approval in the other territory, to obtain authorization or to market a product on the basis of (1) evidence of prior marketing approval in the other territory, or (2) information concerning safety or efficacy that was previously submitted to obtain marketing approval in the other territory, for at least five years for pharmaceutical products and ten years for agricultural chemical products from the date approval was granted in the Party's territory to the person who received approval in the other territory. In order to receive protection under this subparagraph, a Party may require that the person providing the

¹⁵ Where a Party, on the date it implemented the TRIPS Agreement, had in place a system for protecting pharmaceutical or agricultural chemical products not involving new chemical entities from unfair commercial use that conferred a period of protection shorter than that specified in paragraph 1, that Party may retain such system notwithstanding the obligations of paragraph 1.

information in the other territory seek approval in the territory of the Party within five years after obtaining marketing approval in the other territory.

- (c) For purposes of this paragraph, a new product is one that does not contain a chemical entity that has been previously approved in the territory of the Party.
- (d) For purposes of this paragraph, each Party shall protect such undisclosed information against disclosure except where necessary to protect the public, and no Party may consider information accessible within the public domain as undisclosed data. Notwithstanding the foregoing, if any undisclosed information concerning safety and efficacy submitted to a Party, or an entity acting on behalf of a Party, for purposes of obtaining marketing approval is disclosed by such entity, the Party is still required to protect such information from unfair commercial use in the manner set forth in this Article.

2. Where a Party permits, as a condition of approving the marketing of a pharmaceutical product, persons, other than the person originally submitting safety or efficacy information, to rely on evidence or information concerning the safety and efficacy of a product that was previously approved, such as evidence of prior marketing approval in the territory of a Party or in another country, that Party:

- (a) shall implement measures in its marketing approval process to prevent such other persons from marketing a product covered by a patent claiming the previously approved product or its approved use during the term of that patent, unless by consent or acquiescence of the patent owner; and
- (b) shall provide that the patent owner shall be informed of the request and the identity of any such other person who requests approval to enter the market during the term of a patent identified as claiming the approved product or its approved use.

Article 15.11

Enforcement Of Intellectual Property Rights

General Obligations

1. Each Party understands that procedures and remedies required under this Article for enforcement of intellectual property rights are established in accordance with:

- (a) the principles of due process that each Party recognizes; and
- (b) the foundations of its own legal system.

2. This Article does not create any obligation:

- (a) to put in place a judicial system for the enforcement of intellectual property rights distinct from that for the enforcement of law in general; or
- (b) with respect to the distribution of resources for the enforcement of intellectual property rights and the enforcement of law in general.

The Parties understand that the decisions that a Party makes on the distribution of enforcement resources shall not excuse that Party from complying with this Chapter.

3. Each Party shall provide that final judicial decisions or administrative rulings of general applicability pertaining to the enforcement of intellectual property rights shall be in writing and shall state any relevant findings of fact and the reasoning or the legal basis on which the decisions and rulings are based. Each Party shall provide that such decisions or rulings shall be published,¹⁶ or where such publication is not practicable, otherwise made publicly available, in a national language in such a manner as to enable governments and right holders to become acquainted with them.

4. Each Party shall publicize information that it may collect on its efforts to provide effective enforcement of intellectual property rights in its civil, administrative, and criminal system, including any statistical information.

5. In civil, administrative, and criminal proceedings involving copyright or related rights, each Party shall provide that:

- (a) the person whose name is indicated as the author, producer, performer, or publisher of the work, performance, or phonogram in the usual manner, shall, in the absence of proof to the contrary, be presumed to be the designated right holder in such work, performance, or phonogram; and
- (b) it shall be presumed, in the absence of proof to the contrary, that the copyright or related right subsists in such subject matter.

Civil and Administrative Procedures and Remedies

6. Each Party shall make available to right holders¹⁷ civil judicial procedures concerning the enforcement of any intellectual property right.

7. Each Party shall provide that:

- (a) in civil judicial proceedings concerning the enforcement of intellectual property rights, its judicial authorities shall have the authority to order the infringer to pay the right holder:
 - (i) damages adequate to compensate for the injury the right holder has suffered as a result of the infringement; and
 - (ii) at least in the case of copyright or related rights infringement and trademark counterfeiting, the profits of the infringer that are attributable to the infringement and are not taken into account in computing the amount of the damages referred to in clause (i); and
- (b) in determining damages for infringement of intellectual property rights, its judicial authorities shall consider, *inter alia*, the value of the infringed-upon good or service based on the suggested retail price or other legitimate measure of value that the right holder presents.

¹⁶ A Party may satisfy the requirement for publication by making the document available to the public on the Internet.

¹⁷ For the purpose of this Article, the term “right holder” shall include federations and associations as well as exclusive licensees and other duly authorized licensees, as appropriate, having the legal standing and authority to assert such rights. The term “licensee” shall include the licensee of any one or more of the exclusive intellectual property rights encompassed in a given intellectual property.

8. In civil judicial proceedings, each Party shall, at least with respect to civil judicial proceedings concerning copyright or related rights infringement and trademark counterfeiting, establish or maintain pre-established damages as an alternative to actual damages. Such pre-established damages shall be set out in domestic law and determined by the judicial authorities in an amount sufficient to compensate the right holder for the harm caused by the infringement and constitute a deterrent to future infringements.

9. Each Party shall provide that its judicial authorities, except in exceptional circumstances, shall have the authority to order, at the conclusion of civil judicial proceedings concerning copyright or related rights infringement and trademark counterfeiting, that the prevailing party shall be awarded payment of court costs or fees and reasonable attorney's fees by the losing party. Further, each Party shall provide that its judicial authorities, at least in exceptional circumstances, shall have the authority to order, at the conclusion of civil judicial proceedings concerning patent infringement, that the prevailing party be awarded payment of reasonable attorney's fees by the losing party.

10. In civil judicial proceedings concerning copyright or related right infringement and trademark counterfeiting, each Party shall provide that its judicial authorities shall have the authority to order the seizure of suspected infringing goods, any related materials and implements, and, at least for trademark counterfeiting, documentary evidence relevant to the infringement.

11. Each Party shall provide that:

- (a) its judicial authorities shall have the authority to order, at their discretion, the destruction of the goods that have been found to be pirated or counterfeit;
- (b) its judicial authorities shall have the authority to order that materials and implements that have been used in the manufacture or creation of such pirated or counterfeit goods be, without compensation of any sort, promptly destroyed or, in exceptional circumstances, without compensation of any sort, disposed of outside the channels of commerce in such a manner as to minimize the risks of further infringements. In considering requests for such destruction, the Party's judicial authorities may take into account, *inter alia*, the gravity of the infringement, as well as the interests of third parties holding ownership, possessory, contractual, or secured interests;
- (c) the charitable donation of counterfeit trademark goods and goods that infringe copyright and related rights shall not be ordered by the judicial authorities without the authorization of the right holder, except that counterfeit trademark goods may in appropriate cases be donated to charity for use outside the channels of commerce when the removal of the trademark eliminates the infringing characteristic of the good and the good is no longer identifiable with the removed trademark. In no case shall the simple removal of the trademark unlawfully affixed be sufficient to permit the release of goods into the channels of commerce.

12. Each Party shall provide that in civil judicial proceedings concerning the enforcement of intellectual property rights, its judicial authorities shall have the authority to order the infringer to provide any information that the infringer possesses regarding any person involved in any aspect of the infringement and regarding the means of production or distribution channel for the infringing goods or services, including the identification of third persons that are involved in their production and distribution and their distribution channels, and to provide this information to the right holder. Each Party shall provide that its judicial authorities shall have the authority to impose sanctions, in appropriate cases, on a party to a proceeding that fails to abide by valid orders issued by such authorities.

13. To the extent that any civil remedy can be ordered as a result of administrative procedures on the merits of a case, each Party shall provide that such procedures conform to principles equivalent in substance to those provided for in this Chapter.

14. Each Party shall provide for civil remedies against the acts described in Article 15.5.7 and 15.5.8. Available civil remedies shall include at least:

- (a) provisional measures, including seizure of devices and products suspected of being involved in the prohibited activity;
- (b) actual damages (plus any profits attributable to the prohibited activity not taken into account in computing the actual damages) or pre-established damages as provided in paragraph 8;
- (c) payment to the prevailing right holder, at the conclusion of civil judicial proceedings, of court costs and fees and reasonable attorney's fees by the party engaged in the prohibited conduct; and
- (d) destruction of devices and products found to be involved in the prohibited activity, at the discretion of the judicial authorities, as provided in subparagraphs (a) and (b) of paragraph 11.

No Party may make damages available against a nonprofit library, archives, educational institution, or public broadcasting entity that sustains the burden of proving that it was not aware and had no reason to believe that its acts constituted a prohibited activity.

15. In civil judicial proceedings concerning the enforcement of intellectual property rights, each Party shall provide that its judicial authorities shall have the authority to order a party to desist from an infringement, *inter alia*, to prevent the entry into the channels of commerce in their jurisdiction of imported goods that involve the infringement of an intellectual property right, immediately after customs clearance of such goods or to prevent their exportation.

16. In the event that a Party's judicial or other authorities appoint technical or other experts in civil proceedings concerning the enforcement of intellectual property rights and require that the parties bear the costs of such experts, the Party should seek to ensure that such costs are closely related, *inter alia*, to the quantity and nature of work to be performed and do not unreasonably deter recourse to such proceedings.

Provisional Measures

17. Each Party shall act on requests for relief *inaudita altera parte* and execute such requests expeditiously, in accordance with its rules of judicial procedure.

18. Each Party shall provide that its judicial authorities shall have the authority to require the plaintiff to provide any reasonably available evidence in order to satisfy themselves with a sufficient degree of certainty that the plaintiff's right is being infringed or that such infringement is imminent, and to order the plaintiff to provide a reasonable security or equivalent assurance set at a level sufficient to protect the defendant and to prevent abuse, and so as not to unreasonably deter recourse to such procedures.

19. In proceedings concerning the grant of provisional measures in relation to enforcement of a patent, each Party shall provide for a rebuttable presumption that the patent is valid.

Special Requirements Related to Border Measures

20. Each Party shall provide that any right holder initiating procedures for its competent authorities to suspend the release of suspected counterfeit or confusingly similar trademark goods, or pirated copyright goods¹⁸ into free circulation is required to provide adequate evidence to satisfy the competent authorities that, under the laws of the country of importation, there is *prima facie* an infringement of the right holder's intellectual property right and to supply sufficient information that may reasonably be expected to be within the right holder's knowledge to make the suspected goods reasonably recognizable by the competent authorities. The requirement to provide sufficient information shall not unreasonably deter recourse to these procedures.

21. Each Party shall provide that its competent authorities shall have the authority to require a right holder initiating procedures for suspension to provide a reasonable security or equivalent assurance sufficient to protect the defendant and the competent authorities and to prevent abuse. Such security or equivalent assurance shall not unreasonably deter recourse to these procedures. Each Party shall provide that such security may take a form of an instrument issued by a financial services provider to hold the importer or owner of the imported merchandise harmless from any loss or damage resulting from any suspension of the release of goods in the event the competent authorities determine that the article is not an infringing good.

22. Where its competent authorities have made a determination that goods are counterfeit or pirated, a Party shall grant its competent authorities the authority to inform the right holder of the names and addresses of the consignor, the importer, and the consignee, and of the quantity of the goods in question.

23. Each Party shall provide that its competent authorities may initiate border measures *ex officio*, with respect to imported, exported, or in-transit merchandise suspected of infringing an intellectual property right, without the need for a formal complaint from a private party or right holder.

24. Each Party shall provide that goods that have been determined to be pirated or counterfeit by its competent authorities shall be destroyed, pursuant as appropriate to judicial order, unless the right holder consents to an alternate disposition, except that counterfeit trademark goods may in appropriate cases be donated to charity for use outside the channels of commerce, when the removal of the trademark eliminates the infringing characteristic of the good and the good is no longer identifiable with the removed trademark. In regard to counterfeit trademark goods, the simple removal of the trademark unlawfully affixed shall not be sufficient to permit the release of the goods into the channels of commerce. In no event shall the competent authorities be authorized to permit the exportation of counterfeit or pirated goods or to permit such goods to be subject to other customs procedures, except in exceptional circumstances.

25. Each Party shall provide that where an application fee or merchandise storage fee is assessed in connection with border measures to enforce an intellectual property right, the fee shall not be set at an amount that unreasonably deters recourse to such measures.

¹⁸ For purposes of paragraphs 20 through 25:

counterfeit trademark goods means any goods, including packaging, bearing without authorization a trademark which is identical to the trademark validly registered in respect of such goods, or which cannot be distinguished in its essential aspects from such a trademark, and which thereby infringes the rights of the owner of the trademark in question under the law of the country of importation; and

pirated copyright goods means any goods which are copies made without the consent of the right holder or person duly authorized by the right holder in the country of production and which are made directly or indirectly from an article where the making of that copy would have constituted an infringement of a copyright or a related right under the law of the country of importation.

Criminal Procedures and Remedies

26. (a) Each Party shall provide for criminal procedures and penalties to be applied at least in cases of willful trademark counterfeiting or copyright or related rights piracy on a commercial scale. Willful copyright or related rights piracy on a commercial scale includes significant willful infringements of copyright or related rights, for purposes of commercial advantage or private financial gain, as well as willful infringements that have no direct or indirect motivation of financial gain, provided that there is more than a *de minimis* financial harm. Each Party shall treat willful importation or exportation of counterfeit or pirated goods as unlawful activities and provide for criminal penalties to the same extent as the trafficking or distribution of such goods in domestic commerce.¹⁹
- (b) Specifically, each Party shall provide:
- (i) remedies that include sentences of imprisonment or monetary fines, or both, sufficient to provide a deterrent to future acts of infringement. Each Party shall establish policies or guidelines that encourage penalties to be imposed by judicial authorities at levels sufficient to provide a deterrent to future infringements;
 - (ii) that its judicial authorities shall have the authority to order the seizure of suspected counterfeit or pirated goods, any related materials and implements that have been used in the commission of the offense, any assets traceable to the infringing activity, and any documentary evidence relevant to the offense. Each Party shall provide that items that are subject to seizure pursuant to any such judicial order need not be individually identified so long as they fall within general categories specified in the order;
 - (iii) that its judicial authorities shall have the authority to order, among other measures, (1) the forfeiture of any assets traceable to the infringing activity, (2) the forfeiture and destruction of all counterfeit or pirated goods, without compensation of any kind to the defendant, in order to prevent the re-entry of counterfeit and pirated goods into channels of commerce, and (3) with respect to willful copyright or related rights piracy, the forfeiture and destruction of materials and implements that have been used in the creation of the infringing goods; and
 - (iv) that its authorities may, at least in cases of suspected trademark counterfeiting or copyright piracy, conduct investigations or exercise other enforcement measures *ex officio*, without the need for a formal complaint by a private party or right holder, at least for the purpose of preserving evidence or preventing the continuation of the infringing activity.

Limitations on Liability for Service Providers

27. For the purpose of providing enforcement procedures that permit effective action against any act of infringement of copyright²⁰ covered under this Chapter, including expeditious remedies to

¹⁹ A Party may comply with this subparagraph in relation to exportation through its measures concerning distribution or trafficking.

²⁰ For purposes of this paragraph, “copyright” shall also include related rights.

prevent infringements, and criminal and civil remedies that constitute a deterrent to further infringements, each Party shall provide, consistent with the framework set out in this Article:

- (a) legal incentives for service providers to cooperate with copyright owners in deterring the unauthorized storage and transmission of copyrighted materials; and
- (b) limitations in its law regarding the scope of remedies available against service providers for copyright infringements that they do not control, initiate or direct, and that take place through systems or networks controlled or operated by them or on their behalf, as set out in this subparagraph.²¹
 - (i) These limitations shall preclude monetary relief and provide reasonable restrictions on court-ordered relief to compel or restrain certain actions for the following functions and shall be confined to those functions:
 - (A) transmitting, routing, or providing connections for material without modification of its content, or the intermediate and transient storage of such material in the course thereof;
 - (B) caching carried out through an automatic process;
 - (C) storage at the direction of a user of material residing on a system or network controlled or operated by or for the service provider; and
 - (D) referring or linking users to an on-line location by using information location tools, including hyperlinks and directories.
 - (ii) These limitations shall apply only where the service provider does not initiate the chain of transmission of the material and does not select the material or its recipients (except to the extent that a function described in clause (i)(D) in itself entails some form of selection).
 - (iii) Qualification by a service provider for the limitations as to each function in clauses (i)(A) through (D) shall be considered separately from qualification for the limitations as to each other function, in accordance with the conditions for qualification set forth in clauses (iv) through (vii).
 - (iv) With respect to the function referred to in clause (i)(B), the limitations shall be conditioned on the service provider:
 - (A) permitting access to cached material in significant part only to users of its system or network who have met conditions on user access to that material;
 - (B) complying with rules concerning the refreshing, reloading, or other updating of the cached material when specified by the person making the material available on-line in accordance with a generally accepted industry standard data communications protocol for the system or network through which that person makes the material available;
 - (C) not interfering with technology consistent with industry standards accepted in the Party's territory used at the originating site to obtain

²¹ The Parties understand that this subparagraph is without prejudice to the availability of defenses to copyright infringement that are of general applicability.

information about the use of the material, and not modifying its content in transmission to subsequent users; and

- (D) expeditiously removing or disabling access, on receipt of an effective notification of claimed infringement, to cached material that has been removed or access to which has been disabled at the originating site.
- (v) With respect to functions referred to in clauses (i)(C) and (D), the limitations shall be conditioned on the service provider:
- (A) not receiving a financial benefit directly attributable to the infringing activity, in circumstances where it has the right and ability to control such activity;
 - (B) expeditiously removing or disabling access to the material residing on its system or network on obtaining actual knowledge of the infringement or becoming aware of facts or circumstances from which the infringement was apparent, such as through effective notifications of claimed infringement in accordance with clause (ix); and
 - (C) publicly designating a representative to receive such notifications.
- (vi) Eligibility for the limitations in this subparagraph shall be conditioned on the service provider:
- (A) adopting and reasonably implementing a policy that provides for termination in appropriate circumstances of the accounts of repeat infringers; and
 - (B) accommodating and not interfering with standard technical measures accepted in the Party's territory that protect and identify copyrighted material, that are developed through an open, voluntary process by a broad consensus of copyright owners and service providers, that are available on reasonable and nondiscriminatory terms, and that do not impose substantial costs on service providers or substantial burdens on their systems or networks.
- (vii) Eligibility for the limitations in this subparagraph may not be conditioned on the service provider monitoring its service, or affirmatively seeking facts indicating infringing activity, except to the extent consistent with such technical measures.
- (viii) If the service provider qualifies for the limitations with respect to the function referred to in clause (i)(A), court-ordered relief to compel or restrain certain actions shall be limited to terminating specified accounts, or to taking reasonable steps to block access to a specific, non-domestic on-line location. If the service provider qualifies for the limitations with respect to any other function in clause (i), court-ordered relief to compel or restrain certain actions shall be limited to removing or disabling access to the infringing material, terminating specified accounts, and other remedies that a court may find necessary provided that such other remedies are the least burdensome to the service provider among comparably effective forms of relief. Each Party shall provide that any such relief shall be issued with due regard for the

relative burden to the service provider and harm to the copyright owner, the technical feasibility and effectiveness of the remedy and whether less burdensome, comparably effective enforcement methods are available. Except for orders ensuring the preservation of evidence, or other orders having no material adverse effect on the operation of the service provider's communications network, each Party shall provide that such relief shall be available only where the service provider has received notice and an opportunity to appear before the Party's judicial authority.

- (ix) For purposes of the notice and take down process for the functions referred to in clauses (i)(C) and (D), each Party shall establish appropriate procedures for effective notifications of claimed infringement, and effective counter-notifications by those whose material is removed or disabled through mistake or misidentification. At a minimum, each Party shall require that an effective notification of claimed infringement be a written communication, physically or electronically signed by a person who represents, under penalty of perjury or other criminal penalty, that he is an authorized representative of a right holder in the material that is claimed to have been infringed, and containing information that is reasonably sufficient to enable the service provider to identify and locate material that the complaining party claims in good faith to be infringing and to contact that complaining party. At a minimum, each Party shall require that an effective counter-notification contain the same information, *mutatis mutandis*, as a notification of claimed infringement, and contain a statement that the subscriber making the counter-notification consents to the jurisdiction of the courts of the Party. Each Party shall also provide for monetary remedies against any person who makes a knowing material misrepresentation in a notification or counter-notification that causes injury to any interested party as a result of a service provider relying on the misrepresentation.
- (x) If the service provider removes or disables access to material in good faith based on claimed or apparent infringement, each Party shall provide that the service provider shall be exempted from liability for any resulting claims, provided that, in the case of material residing on its system or network, it takes reasonable steps promptly to notify the person making the material available on its system or network that it has done so and, if such person makes an effective counter-notification and is subject to jurisdiction in an infringement suit, to restore the material on-line unless the person giving the original effective notification seeks judicial relief within a reasonable time.
- (xi) Each Party shall establish an administrative or judicial procedure enabling copyright owners who have given effective notification of claimed infringement to obtain expeditiously from a service provider information in its possession identifying the alleged infringer.
- (xii) **Service provider** means:
 - (A) for purposes of the function referred to in clause (i)(A), a provider of transmission, routing, or connections for digital on-line communications without modification of their content between or among points specified by the user of material of the user's choosing; and

- (B) for purposes of the functions referred to in clause (i)(B) through (D), a provider or operator of facilities for on-line services or network access.

ANNEX 15.11: PROCEDURES AND REMEDIES CONCERNING BROADCAST OR CABLE TRANSMISSIONS OR RETRANSMISSIONS IN THE DOMINICAN REPUBLIC

1. The Dominican Republic reaffirms its commitments under Chapter 15 to the application of administrative, civil, and criminal procedures and remedies in the case of broadcast or cable transmissions or retransmissions that are made without the authorization of the right holder or right holders of the content of the signal and, if any, of the signal.

2. The Dominican Republic shall provide that procedures and remedies are set out in its law for the temporary suspension of concessions or operating licenses, or both, for broadcast or cable transmissions or retransmissions in cases where the *Oficina Nacional de Derecho de Autor* (ONDA) or its other competent authorities determine that transmissions or retransmissions that are the subject of the concession or operating license have been made without the permission of the right holder or right holders of the content of the signal and, if any, of the signal. Such procedures shall conform to the requirements of Article 15.11 applicable to administrative enforcement, and shall include:

- (a) an opportunity for right holders to make written requests to ONDA or other competent authorities for the temporary or permanent closure of establishments transmitting the unauthorized broadcast or cable transmissions (pursuant to Article 187 of the *Ley sobre Derecho de Autor*, No. 65-00, August 21, 2000, as implemented by Articles 116.4 and 116.5 of the *Reglamento de Aplicación*, No. 362-01, March 14, 2001), and for other sanctions available under its law, and to submit evidence in support of such requests;
- (b) a requirement that holders of such concessions or operating licenses cooperate with ONDA or other competent authorities so that investigations and inspections concerning such a request can take place without delay, including by providing access to all documents relating to the transmissions or retransmissions; and
- (c) a requirement that an administrative decision concerning such a request be rendered expeditiously and not later than 60 days after the date of the request. Such decisions shall be in writing and shall state the reasons on which they are based. Any closure shall become effective immediately following a decision requiring such closure. Temporary closure shall continue in effect for up to 30 days. Failure to cease transmission or retransmission following closure shall be considered a violation classified under Article 105(d) of the *Ley General de Telecomunicaciones*, No. 153-98, May 27, 1998, and shall be subject to all available sanctions authorized by that law.

The Dominican Republic shall further provide that ONDA or other competent authorities may initiate procedures for the temporary or permanent closure of establishments transmitting the unauthorized broadcast or cable transmissions and other sanctions available under national law *ex officio*, without the need for a written request from a private party or right holder.

3. The Dominican Republic shall provide that ONDA and its other competent authorities shall have sufficient resources to carry out the actions described in paragraph 2, and hereby reaffirms its obligations under Article 15.11.2(b).

4. INDOTEL shall exercise the powers conferred on it by the *Ley General de Telecomunicaciones No. 153-98* to address copyright infringement in appropriate cases, consistent with the INDOTEL Resolution of January 30, 2004, sanctioning holders of cable transmission service authorizations who transmitted signals containing protected works or retransmitted signals issued by the entity originating the transmission without authorization. If the level of sanctions imposed in the INDOTEL Resolution of January 30, 2004 is not effective in eliminating the problem, then INDOTEL shall increase sanctions to an effective level.

5. The Dominican Republic shall provide quarterly reporting of progress made in all judicial actions concerning television broadcasting piracy consistent with the understanding set out in an exchange of letters between the Dominican Republic and the United States on the date of signature of this Agreement.

CHAPTER SIXTEEN: LABOR

Article 16.1

Statement Of Shared Commitment

1. The Parties reaffirm their obligations as members of the International Labor Organization (ILO) and their commitments under the *ILO Declaration on Fundamental Principles and Rights at Work and its Follow-Up (1998)* (ILO Declaration).¹ Each Party shall strive to ensure that such labor principles and the internationally recognized labor rights set forth in Article 16.8 are recognized and protected by its law.

2. The Parties affirm their full respect for their Constitutions. Recognizing the right of each Party to establish its own domestic labor standards, and to adopt or modify accordingly its labor laws, each Party shall strive to ensure that its laws provide for labor standards consistent with the internationally recognized labor rights set forth in Article 16.8 and shall strive to improve those standards in that light.

Article 16.2

Enforcement Of Labor Laws

1. (a) A Party shall not fail to effectively enforce its labor laws, through a sustained or recurring course of action or inaction, in a manner affecting trade between the Parties, after the date of entry into force of this Agreement.

(b) Each Party retains the right to exercise discretion with respect to investigatory, prosecutorial, regulatory, and compliance matters and to make decisions regarding the allocation of resources to enforcement with respect to other labor matters determined to have higher priorities. Accordingly, the Parties understand that a Party is in compliance with subparagraph (a) where a course of action or inaction reflects a reasonable exercise of such discretion, or results from a *bona fide* decision regarding the allocation of resources.

2. The Parties recognize that it is inappropriate to encourage trade or investment by weakening or reducing the protections afforded in domestic labor laws. Accordingly, each Party shall strive to ensure that it does not waive or otherwise derogate from, or offer to waive or otherwise derogate from, such laws in a manner that weakens or reduces adherence to the internationally recognized labor rights referred to in Article 16.8 as an encouragement for trade with another Party, or as an encouragement for the establishment, acquisition, expansion, or retention of an investment in its territory.

3. Nothing in this Chapter shall be construed to empower a Party's authorities to undertake labor law enforcement activities in the territory of another Party.

¹ The Parties recall that paragraph 5 of the ILO Declaration states that labor standards should not be used for protectionist trade purposes.

*Article 16.3*Procedural Guarantees And Public Awareness

1. Each Party shall ensure that persons with a legally recognized interest under its law in a particular matter have appropriate access to tribunals for the enforcement of the Party's labor laws. Such tribunals may include administrative, quasi-judicial, judicial, or labor tribunals, as provided in the Party's domestic law.
2. Each Party shall ensure that proceedings before such tribunals for the enforcement of its labor laws are fair, equitable, and transparent and, to this end, each Party shall ensure that:
 - (a) such proceedings comply with due process of law;
 - (b) any hearings in such proceedings are open to the public, except where the administration of justice otherwise requires;
 - (c) the parties to such proceedings are entitled to support or defend their respective positions, including by presenting information or evidence; and
 - (d) such proceedings do not entail unreasonable charges or time limits or unwarranted delays.
3. Each Party shall provide that final decisions on the merits of the case in such proceedings are:
 - (a) in writing and state the reasons on which the decisions are based;
 - (b) made available without undue delay to the parties to the proceedings and, consistent with its law, to the public; and
 - (c) based on information or evidence in respect of which the parties were offered the opportunity to be heard.
4. Each Party shall provide, as appropriate, that parties to such proceedings have the right to seek review and, where warranted, correction of final decisions issued in such proceedings.
5. Each Party shall ensure that tribunals that conduct or review such proceedings are impartial and independent and do not have any substantial interest in the outcome of the matter.
6. Each Party shall provide that the parties to such proceedings may seek remedies to ensure the enforcement of their rights under its labor laws. Such remedies may include measures such as orders, fines, penalties, or temporary workplace closures, as provided in the Party's laws.
7. Each Party shall promote public awareness of its labor laws, including by:
 - (a) ensuring the availability of public information related to its labor laws and enforcement and compliance procedures; and
 - (b) encouraging education of the public regarding its labor laws.
8. For greater certainty, decisions or pending decisions by each Party's administrative, quasi-judicial, judicial, or labor tribunals, as well as related proceedings, shall not be subject to revision or be reopened under the provisions of this Chapter.

Article 16.4

Institutional Arrangements

1. The Parties hereby establish a Labor Affairs Council, comprising cabinet-level or equivalent representatives of the Parties, or their designees.
2. The Council shall meet within the first year after the date of entry into force of this Agreement and thereafter as often as it considers necessary to oversee the implementation of and review progress under this Chapter, including the activities of the Labor Cooperation and Capacity Building Mechanism established under Article 16.5, and to pursue the labor objectives of this Agreement. Unless the Parties otherwise agree, each meeting of the Council shall include a session at which members of the Council have an opportunity to meet with the public to discuss matters relating to the implementation of this Chapter.
3. Each Party shall designate an office within its labor ministry that shall serve as a contact point with the other Parties, and with the public, for purposes of carrying out the work of the Council, including coordination of the Labor Cooperation and Capacity Building Mechanism. Each Party's contact point shall provide for the submission, receipt, and consideration of communications from persons of a Party on matters related to the provisions of this Chapter, and shall make such communications available to the other Parties and, as appropriate, to the public. Each Party shall review such communications, as appropriate, in accordance with domestic procedures. The Council shall develop general guidelines for considering such communications.
4. Each Party may convene a new, or consult an existing, national labor advisory or consultative committee, comprising members of its public, including representatives of its labor and business organizations, to provide views on any issues related to this Chapter.
5. All decisions of the Council shall be taken by consensus. All decisions of the Council shall be made public, unless otherwise provided in this Agreement, or unless the Council otherwise decides.
6. The Council may prepare reports on matters related to the implementation of this Chapter, and shall make such reports public.

Article 16.5

Labor Cooperation And Capacity Building Mechanism

1. Recognizing that cooperation on labor issues can play an important role in advancing development in the territory of the Parties and in providing opportunities to improve labor standards, and to further advance common commitments regarding labor matters, including the principles embodied in the ILO Declaration and *ILO Convention No. 182 Concerning the Prohibition and Immediate Action for the Elimination of the Worst Forms of Child Labour (1999)* (ILO Convention 182), the Parties hereby establish a Labor Cooperation and Capacity Building Mechanism, as set out in Annex 16.5. The Mechanism shall operate in a manner that respects each Party's law and sovereignty.
2. While endeavoring to strengthen each Party's institutional capacity to fulfill the common goals of the Agreement, the Parties shall strive to ensure that the objectives of the Labor Cooperation and Capacity Building Mechanism, and the activities undertaken through that Mechanism:
 - (a) are consistent with each Party's national programs, development strategies, and priorities;

- (b) provide opportunities for public participation in the development and implementation of such objectives and activities; and
- (c) take into account each Party's economy, culture, and legal system.

Article 16.6

Cooperative Labor Consultations

1. A Party may request consultations with another Party regarding any matter arising under this Chapter by delivering a written request to the contact point that the other Party has designated under Article 16.4.3.
2. The consultations shall begin promptly after delivery of the request. The request shall contain information that is specific and sufficient to enable the Party receiving the request to respond.
3. The consulting Parties shall make every attempt to arrive at a mutually satisfactory resolution of the matter, taking into account opportunities for cooperation relating to the matter, and may seek advice or assistance from any person or body they deem appropriate in order to fully examine the matter at issue.
4. If the consulting Parties fail to resolve the matter pursuant to paragraph 3, a consulting Party may request that the Council be convened to consider the matter by delivering a written request to the contact point of each of the other Parties.²
5. The Council shall promptly convene and shall endeavor to resolve the matter, including, where appropriate, by consulting outside experts and having recourse to such procedures as good offices, conciliation, or mediation.
6. If the matter concerns whether a Party is conforming to its obligations under Article 16.2.1(a), and the consulting Parties have failed to resolve the matter within 60 days of a request under paragraph 1, the complaining Party may request consultations under Article 20.4 (Consultations) or a meeting of the Commission under Article 20.5 (Commission – Good Offices, Conciliation, and Mediation) and, as provided in Chapter Twenty (Dispute Settlement), thereafter have recourse to the other provisions of that Chapter. The Council may, as appropriate, provide information to the Commission on consultations held on the matter.
7. No Party may have recourse to dispute settlement under this Agreement for any matter arising under any provision of this Chapter other than Article 16.2.1(a).
8. No Party may have recourse to dispute settlement under this Agreement for a matter arising under Article 16.2.1(a) without first pursuing resolution of the matter in accordance with this Article.
9. In cases where the consulting Parties agree that a matter arising under this Chapter would be more appropriately addressed under another agreement to which the consulting Parties are party, they shall refer the matter for appropriate action in accordance with that agreement.

² For purposes of paragraphs 4, 5, and 6, the Council shall consist of the cabinet-level representatives of the consulting Parties or their high-level designees.

*Article 16.7*Labor Roster

1. CHAPTER SEVENTEEN: ENVIRONMENT*Article 17.1*Levels Of Protection

Recognizing the right of each Party to establish its own levels of domestic environmental protection and environmental development policies and priorities, and to adopt or modify accordingly its environmental laws and policies, each Party shall ensure that its laws and policies provide for and encourage high levels of environmental protection, and shall strive to continue to improve those laws and policies.

*Article 17.2*Enforcement Of Environmental Laws

1. (a) A Party shall not fail to effectively enforce its environmental laws, through a sustained or recurring course of action or inaction, in a manner affecting trade between the Parties, after the date of entry into force of this Agreement.
- (b) The Parties recognize that each Party retains the right to exercise discretion with respect to investigatory, prosecutorial, regulatory, and compliance matters and to make decisions regarding the allocation of resources to enforcement with respect to other environmental matters determined to have higher priorities. Accordingly, the Parties understand that a Party is in compliance with subparagraph (a) where a course of action or inaction reflects a reasonable exercise of such discretion, or results from a *bona fide* decision regarding the allocation of resources.
2. The Parties recognize that it is inappropriate to encourage trade or investment by weakening or reducing the protections afforded in domestic environmental laws. Accordingly, each Party shall strive to ensure that it does not waive or otherwise derogate from, or offer to waive or otherwise derogate from, such laws in a manner that weakens or reduces the protections afforded in those laws as an encouragement for trade with another Party, or as an encouragement for the establishment, acquisition, expansion, or retention of an investment in its territory.
3. Nothing in this Chapter shall be construed to empower a Party's authorities to undertake environmental law enforcement activities in the territory of another Party.

*Article 17.3*Procedural Matters

1. Each Party shall ensure that judicial, quasi-judicial, or administrative proceedings, in accordance with its law, are available to sanction or remedy violations of its environmental laws.

- (a) Such proceedings shall be fair, equitable, and transparent and, to this end, shall comply with due process of law and be open to the public, except where the administration of justice otherwise requires.
- (b) The parties to such proceedings shall be entitled to support or defend their respective positions, including by presenting information or evidence.
- (c) Each Party shall provide appropriate and effective remedies or sanctions for a violation of its environmental laws that:
 - (i) take into consideration, as appropriate, the nature and gravity of the violation, any economic benefit the violator has derived from the violation, the economic condition of the violator, and other relevant factors; and
 - (ii) may include criminal and civil remedies and sanctions such as compliance agreements, penalties, fines, injunctions, suspension of activities, and requirements to take remedial action or pay for damage to the environment.

2. Each Party shall ensure that interested persons may request the Party's competent authorities to investigate alleged violations of its environmental laws, and that each Party's competent authorities shall give such requests due consideration in accordance with its law.

3. Each Party shall ensure that persons with a legally recognized interest under its law in a particular matter have appropriate access to proceedings referred to in paragraph 1.

4. Each Party shall provide appropriate and effective access to remedies, in accordance with its law, which may include rights such as:

5. Each Party shall ensure that tribunals that conduct or review proceedings referred to in paragraph 1 are impartial and independent and do not have any substantial interest in the outcome of the matter.

6. For greater certainty, nothing in this Chapter shall be construed to call for the examination under this Agreement of whether a Party's judicial, quasi-judicial, or administrative tribunals have appropriately applied that Party's environmental laws.

*Article 17.4*Voluntary Mechanisms To Enhance Environmental Performance

1. The Parties recognize that incentives and other flexible and voluntary mechanisms can contribute to the achievement and maintenance of environmental protection, complementing the procedures set out in Article 17.3. - (b) incentives, including market-based incentives where appropriate, to encourage conservation, restoration, and protection of natural resources and the environment, such as public recognition of facilities or enterprises that are superior environmental performers, or programs for exchanging permits or other instruments to help achieve environmental goals.

2. As appropriate and feasible and in accordance with its law, each Party shall encourage:

- (a) the maintenance, development, or improvement of performance goals and indicators used in measuring environmental performance; and
- (b) flexibility in the means to achieve such goals and meet such standards, including through mechanisms identified in paragraph 1.

2. The Council shall meet within the first year after the date of entry into force of this Agreement, and annually thereafter unless the Parties otherwise agree, to oversee the implementation of and review progress under this Chapter and to consider the status of cooperation activities developed under the Dominican Republic – Central America – United States – Environmental Cooperation Agreement (“ECA”). Unless the Parties otherwise agree, each meeting of the Council shall include a session in which members of the Council have an opportunity to meet with the public to discuss matters relating to the implementation of this Chapter.

3. The Council shall set its own agenda. In setting the agenda, each Party shall seek views from its public concerning possible issues for discussion.
4. In order to share innovative approaches for addressing environmental issues of interest to the public, the Council shall ensure a process for promoting public participation in its work, including by engaging in a dialogue with the public on those issues.
5. The Council shall seek appropriate opportunities for the public to participate in the development and implementation of cooperative environmental activities, including through the ECA.
6. All decisions of the Council shall be taken by consensus, except as provided in Article 17.8. All decisions of the Council shall be made public, unless otherwise provided in this Agreement, or unless the Council otherwise decides.

Article 17.6

1. Any person of a Party may file a submission asserting that a Party is failing to effectively enforce its environmental laws. Such submissions shall be filed with a secretariat or other appropriate body ("secretariat") that the Parties designate.¹
2. The secretariat may consider a submission under this Article if the secretariat finds that the submission:
 - (a) is in writing in either English or Spanish;
 - (b) clearly identifies the person making the submission;
 - (c) provides sufficient information to allow the secretariat to review the submission, including any documentary evidence on which the submission may be based;

¹ The Parties shall designate the secretariat and provide for related arrangements through an exchange of letters or other form of agreement between the Parties.

- (d) appears to be aimed at promoting enforcement rather than at harassing industry;
- (e) indicates that the matter has been communicated in writing to the relevant authorities of the Party and indicates the Party's response, if any; and
- (f) is filed by a person of a Party.

3. The Parties recognize that the *North American Agreement on Environmental Cooperation* ("NAAEC") provides that a person or organization residing or established in the territory of the United States may file a submission under that agreement with the Secretariat of the NAAEC Commission for Environmental Cooperation asserting that the United States is failing to effectively enforce its environmental laws.² In light of the availability of that procedure, a person of the United States who considers that the United States is failing to effectively enforce its environmental laws may not file a submission under this Article. For greater certainty, a person of a Party other than the United States who considers that the United States is failing to effectively enforce its environmental laws may file a submission with the secretariat.

4. Where the secretariat determines that a submission meets the criteria set out in paragraph 2, the secretariat shall determine whether the submission merits requesting a response from the Party. In deciding whether to request a response, the secretariat shall be guided by whether:

- (a) the submission is not frivolous and alleges harm to the person making the submission;
- (b) the submission, alone or in combination with other submissions, raises matters whose further study in this process would advance the goals of this Chapter and the ECA, taking into account guidance regarding those goals provided by the Council and the Environmental Cooperation Commission established under the ECA;
- (c) private remedies available under the Party's law have been pursued; and
- (d) the submission is drawn exclusively from mass media reports.

Where the secretariat makes such a request, it shall forward to the Party a copy of the submission and any supporting information provided with the submission.

5. The Party shall advise the secretariat within 45 days or, in exceptional circumstances and on notification to the secretariat, within 60 days of delivery of the request:

- (a) whether the precise matter at issue is the subject of a pending judicial or administrative proceeding, in which case the secretariat shall proceed no further; and
- (b) of any other information the Party wishes to submit, such as:
 - (i) whether the matter was previously the subject of a judicial or administrative proceeding;
 - (ii) whether private remedies in connection with the matter are available to the person making the submission and whether they have been pursued; or
 - (iii) information concerning relevant capacity-building activities under the ECA.

² Arrangements will be made for the United States to make available in a timely manner to the other Parties all such submissions, U.S. written responses, and factual records developed in connection with those submissions. At the request of any Party, the Council shall discuss such documents.

*Article 17.8*Factual Records And Related Cooperation

1. If the secretariat considers that the submission, in light of any response provided by the Party, warrants developing a factual record, the secretariat shall so inform the Council and provide its reasons.
2. The secretariat shall prepare a factual record if the Council, by a vote of any Party, instructs it to do so.
3. The preparation of a factual record by the secretariat pursuant to this Article shall be without prejudice to any further steps that may be taken with respect to any submission.
4. In preparing a factual record, the secretariat shall consider any information furnished by a Party and may consider any relevant technical, scientific, or other information:
 - (a) that is publicly available;
 - (b) submitted by interested persons;
 - (c) submitted by national advisory or consultative committees;
 - (d) developed by independent experts; or
 - (e) developed under the ECA.
5. The secretariat shall submit a draft factual record to the Council. Any Party may provide comments on the accuracy of the draft within 45 days thereafter.
6. The secretariat shall incorporate, as appropriate, any such comments in the final factual record and submit it to the Council.
7. The Council may, by a vote of any Party, make the final factual record publicly available, normally within 60 days following its submission.
8. The Council shall consider the final factual record in light of the objectives of this Chapter and the ECA. The Council shall, as appropriate, provide recommendations to the Environmental Cooperation Commission related to matters addressed in the factual record, including recommendations related to the further development of the Party's mechanisms for monitoring its environmental enforcement.

*Article 17.9*Environmental Cooperation

1. The Parties recognize the importance of strengthening capacity to protect the environment and to promote sustainable development in concert with strengthening trade and investment relations.
2. The Parties are committed to expanding their cooperative relationship, recognizing that cooperation is important for achieving their shared environmental goals and objectives, including the development and improvement of environmental protection, as set out in this Chapter.

3. The Parties recognize that strengthening their cooperative relationship on environmental matters can enhance environmental protection in their territories and may encourage increased trade and investment in environmental goods and services.

4. The Parties have negotiated an ECA. The Parties have identified certain priority areas of cooperation for environmental activities as reflected in Annex 17.9 and as set out in the ECA. The Parties also have established an Environmental Cooperation Commission through the ECA that is responsible for developing, and periodically revising and updating, a work program that reflects each Party's priorities for cooperative environmental programs, projects, and activities.

5. The Parties also recognize the continuing importance of current and future environmental cooperation activities in other fora.

2. The consultations shall begin promptly after delivery of the request. The request shall contain information that is specific and sufficient to enable the Party receiving the request to respond.

3. The consulting Parties shall make every attempt to arrive at a mutually satisfactory resolution of the matter, taking into account opportunities for cooperation relating to the matter and information exchanged by the consulting Parties, and may seek advice or assistance from any person or body they deem appropriate in order to fully examine the matter at issue.

4. If the consulting Parties fail to resolve the matter pursuant to paragraph 3, a consulting Party may request that the Council be convened to consider the matter by delivering a written request to the contact point of each of the other Parties.³

5. The Council shall promptly convene and shall endeavor to resolve the matter, including, where appropriate, by consulting outside experts and having recourse to such procedures as good offices, conciliation, or mediation.

6. If the matter concerns whether a Party is conforming to its obligations under Article 17.2.1(a), and the consulting Parties have failed to resolve the matter within 60 days of a request under paragraph 1, the complaining Party may request consultations under Article 20.4 (Consultations) or a meeting of the Commission under Article 20.5 (Commission – Good Offices, Conciliation, and Mediation) and, as provided in Chapter Twenty (Dispute Settlement), thereafter have recourse to the other provisions of that Chapter. The Council may, as appropriate, provide information to the Commission regarding any consultations held on the matter.

7. No Party may have recourse to dispute settlement under this Agreement for any matter arising under any provision of this Chapter other than Article 17.2.1(a).

8. No Party may have recourse to dispute settlement under this Agreement for a matter arising under Article 17.2.1(a) without first pursuing resolution of the matter in accordance with this Article.

³ For purposes of paragraphs 4, 5, and 6, the Council shall consist of cabinet-level representatives of the consulting Parties or their designees.

9. In cases where the consulting Parties agree that a matter arising under this Chapter would be more appropriately addressed under another agreement to which the consulting Parties are party, they shall refer the matter for appropriate action in accordance with that agreement.

Article 17.11

Environment roster members shall be appointed by consensus, and may be reappointed. Once established, a roster shall remain in effect for a minimum of three years, and shall remain in effect thereafter until the Parties constitute a new roster. The Parties may appoint a replacement where a roster member is no longer available to serve.

- (b) be chosen strictly on the basis of objectivity, reliability, and sound judgment;
- (c) be independent of, and not affiliated with or take instructions from, any Party; and
- (d) comply with a code of conduct to be established by the Commission.

Article 17.12

Relationship To Environmental Agreements

1. The Parties recognize that multilateral environmental agreements to which they are all party play an important role in protecting the environment globally and domestically and that their respective implementation of these agreements is critical to achieving the environmental objectives of these agreements. The Parties further recognize that this Chapter and the ECA can contribute to realizing the goals of those agreements. Accordingly, the Parties shall continue to seek means to enhance the mutual supportiveness of multilateral environmental agreements to which they are all party and trade agreements to which they are all party.

2. The Parties may consult, as appropriate, with respect to ongoing negotiations in the WTO regarding multilateral environmental agreements.

Article 17.13

Definitions

For greater certainty, **environmental law** does not include any statute or regulation, or provision thereof, the primary purpose of which is managing the commercial harvest or exploitation, or subsistence or aboriginal harvesting, of natural resources.

For purposes of the definition of “environmental law,” the primary purpose of a particular statutory or regulatory provision shall be determined by reference to its primary purpose, rather than to the primary purpose of the statute or regulation of which it is part.

- (b) an international dispute resolution proceeding to which the Party is a party.

ANNEX 17.9: ENVIRONMENTAL COOPERATION

1. The Parties recognize the importance of protecting, improving, and conserving the environment, including natural resources, in their territories. 2. Recognizing the benefits that would be derived from a framework to facilitate effective cooperation, the Parties negotiated the ECA. The Parties expect that the ECA will enhance their cooperative relationship, noting the existence of differences in the Parties' respective natural endowments, climatic and geographical conditions, and economic, technological, and infrastructure capabilities.

3. As set forth in Article V of the ECA, the Parties have identified the following priorities for environmental cooperation activities:

- (a) strengthening each Party's environmental management systems, including reinforcing institutional and legal frameworks and the capacity to develop, implement, administer, and enforce environmental laws, regulations, standards, and policies;

4. 5. Panelists may furnish separate opinions on matters not unanimously agreed.

6. A disputing Party may submit written comments to the panel on its initial report within 14 days of presentation of the report or within such other period as the disputing Parties may agree.

2. No panel may, either in its initial report or its final report, disclose which panelists are associated with majority or minority opinions.

Implementation Of Final Report

1. On receipt of the final report of a panel, the disputing Parties shall agree on the resolution of the dispute, which normally shall conform with the determinations and recommendations, if any, of the panel.

2. If, in its final report, the panel determines that a disputing Party has not conformed with its obligations under this Agreement or that a disputing Party's measure is causing nullification or impairment in the sense of Annex 20.2, the resolution, whenever possible, shall be to eliminate the non-conformity or the nullification or impairment.⁵

3. Where appropriate, the disputing Parties may agree on a mutually satisfactory action plan to resolve the dispute, which normally shall conform with the determinations and recommendations, if any, of the panel. If the disputing Parties agree on such an action plan, a complaining Party may have

⁵ Compensation, the payment of monetary assessments, and the suspension of benefits are intended as temporary measures pending the elimination of any non-conformity or nullification or impairment that the panel has found.

recourse to Article 20.16.2 or Article 20.17.1, as the case may be, only if it considers that the Party complained against has failed to carry out the action plan.⁶

Article 20.16

Non-Implementation – Suspension Of Benefits

1. If a panel has made a determination of the type described in Article 20.15.2, and the disputing Parties are unable to reach agreement on a resolution pursuant to Article 20.15 within 45 days of receiving the final report, or such other period as the disputing Parties agree, the Party complained against shall enter into negotiations with the complaining Party or Parties with a view to developing mutually acceptable compensation.

2. If the disputing Parties:

- (a) are unable to agree on compensation within 30 days after the period for developing such compensation has begun; or
- (b) have agreed on compensation or on a resolution pursuant to Article 20.15 and a complaining Party considers that the Party complained against has failed to observe the terms of the agreement,

any such complaining Party may at any time thereafter provide written notice to the Party complained against that it intends to suspend the application to the Party complained against of benefits of equivalent effect. The notice shall specify the level of benefits that the Party proposes to suspend. Subject to paragraph 6, the complaining Party may begin suspending benefits 30 days after the later of the date on which it provides notice under this paragraph or the panel issues its determination under paragraph 3, as the case may be.

3. If the Party complained against considers that:

- (a) the level of benefits proposed to be suspended is manifestly excessive; or
- (b) it has eliminated the non-conformity or the nullification or impairment that the panel has found,

it may, within 30 days after the complaining Party provides notice under paragraph 2, request that the panel be reconvened to consider the matter. The Party complained against shall deliver its request in writing to the complaining Party. The panel shall reconvene as soon as possible after delivery of the request and shall present its determination to the disputing Parties within 90 days after it reconvenes to review a request under subparagraph (a) or (b), or within 120 days for a request under subparagraphs (a) and (b). If the panel determines that the level of benefits proposed to be suspended is manifestly excessive, it shall determine the level of benefits it considers to be of equivalent effect.

4. The complaining Party may suspend benefits up to the level the panel has determined under paragraph 3 or, if the panel has not determined the level, the level the complaining Party has proposed to suspend under paragraph 2, unless the panel has determined that the Party complained against has eliminated the non-conformity or the nullification or impairment.

⁶ For greater certainty, as part of an action plan the disputing Parties may undertake, modify, or enhance cooperation activities.

5. In considering what benefits to suspend pursuant to paragraph 2:
- (a) the complaining Party should first seek to suspend benefits in the same sector or sectors as that affected by the measure or other matter that the panel has found to be inconsistent with the obligations of this Agreement or to have caused nullification or impairment in the sense of Annex 20.2; and
 - (b) if the complaining Party considers that it is not practicable or effective to suspend benefits in the same sector or sectors, it may suspend benefits in other sectors.
6. The complaining Party may not suspend benefits if, within 30 days after it provides written notice of intent to suspend benefits or, if the panel is reconvened under paragraph 3, within 20 days after the panel provides its determination, the Party complained against provides written notice to the complaining Party that it will pay an annual monetary assessment. The disputing Parties shall consult, beginning no later than ten days after the Party complained against provides notice, with a view to reaching agreement on the amount of the assessment. If the disputing Parties are unable to reach an agreement within 30 days after consultations begin, the amount of the assessment shall be set at a level, in U.S. dollars, equal to 50 percent of the level of the benefits the panel has determined under paragraph 3 to be of equivalent effect or, if the panel has not determined the level, 50 percent of the level that the complaining Party has proposed to suspend under paragraph 2.
7. Unless the Commission otherwise decides, a monetary assessment shall be paid to the complaining Party in U.S. dollars, or in an equivalent amount of the currency of the Party complained against, in equal, quarterly installments beginning 60 days after the Party complained against gives notice that it intends to pay an assessment. Where the circumstances warrant, the Commission may decide that an assessment shall be paid into a fund established by the Commission and expended at the direction of the Commission for appropriate initiatives to facilitate trade between the disputing Parties, including by further reducing unreasonable trade barriers or by assisting a disputing Party in carrying out its obligations under this Agreement.⁷
8. If the Party complained against fails to pay a monetary assessment, the complaining Party may suspend the application to the Party complained against of benefits in accordance with paragraph 4.
9. This Article shall not apply with respect to a matter described in Article 20.17.1.

Article 20.17

Non-Implementation In Certain Disputes

1. If, in its final report, a panel determines that a Party has not conformed with its obligations under Article 16.2.1(a) (Enforcement of Labor Laws) or Article 17.2.1(a) (Enforcement of Environmental Laws), and the disputing Parties:
- (a) are unable to reach agreement on a resolution pursuant to Article 20.15 within 45 days of receiving the final report; or
 - (b) have agreed on a resolution pursuant to Article 20.15 and a complaining Party considers that the Party complained against has failed to observe the terms of the agreement,

⁷ For purposes of this paragraph, the Commission shall consist of the cabinet-level representatives of the disputing Parties, as set out in Annex 19.1 (The Free Trade Commission), or their designees.

any such complaining Party may at any time thereafter request that the panel be reconvened to impose an annual monetary assessment on the Party complained against. The complaining Party shall deliver its request in writing to the Party complained against. The panel shall reconvene as soon as possible after delivery of the request.

2. The panel shall determine the amount of the monetary assessment in U.S. dollars within 90 days after it reconvenes under paragraph 1. In determining the amount of the assessment, the panel shall take into account:

- (a) the bilateral trade effects of the Party's failure to effectively enforce the relevant law;
- (b) the pervasiveness and duration of the Party's failure to effectively enforce the relevant law;
- (c) the reasons for the Party's failure to effectively enforce the relevant law, including, where relevant, its failure to observe the terms of an action plan;
- (d) the level of enforcement that could reasonably be expected of the Party given its resource constraints;
- (e) the efforts made by the Party to begin remedying the non-enforcement after the final report of the panel, including through the implementation of any mutually agreed action plan; and
- (f) any other relevant factors.

The amount of the assessment shall not exceed 15 million U.S. dollars annually, adjusted for inflation as specified in Annex 20.17.

3. On the date on which the panel determines the amount of the monetary assessment under paragraph 2, or at any time thereafter, the complaining Party may provide notice in writing to the Party complained against demanding payment of the monetary assessment.
