Scope And Coverage

Except as otherwise provided, this Chapter applies to trade in all goods of a Party.

Article 2.2

National Treatment

Each Party shall accord national treatment to the goods of the other Party in accordance with Article III of GATT 1994. To this end, the provisions of Article III of GATT 1994 and its interpretative notes are incorporated into and shall form part of this Agreement, *mutatis mutandis*.

Article 2.3

Elimination Of Customs Duties

The provisions of this Chapter concerning the elimination of customs duties on imports shall apply to goods originating in the territory of the Parties.

3. A Party shall not increase an existing customs duty or introduce a new customs duty on imports of an originating good.

4. Except as otherwise provided in this Agreement, each Party shall progressively eliminate its customs duties on originating goods of the other Party in accordance with its Tariff Schedule at Annex 1. The base rate and the interim rate of customs duty at each stage of reduction for an item are indicated for the item in each Party's Schedule. Reductions shall occur upon entry into force of the Agreement and thereafter on 1 January of each year, as provided for in each Party's Schedule.

5. Each Party may adopt or maintain measures necessary to administer a tariff quota set out in its Tariff Schedule, including allocating access to that quota opportunity. Such measures shall be transparent and predictable and shall not have trade restrictive effects on imports additional to those caused by the imposition of the tariff quota.

6. On the written request of the other Party, a Party applying or intending to apply measures pursuant to Paragraph 4 shall consult to consider a review of the administration of those measures.

Article 2.4

Accelerated Tariff Elimination

Each Party is prepared to eliminate its customs duties more rapidly than provided for in Article 2.3 or otherwise to improve the conditions of access of originating goods taking into account its general economic situation and the economic situation of the sector concerned.

On the request of a Party, the Parties shall promptly enter into consultations to accelerate the elimination of customs duties on originating goods as set out in its Tariff Schedule in Annex 1.

An Agreement by the Parties to accelerate the elimination of customs duties on originating goods shall enter into force after the Parties have exchanged written notification advising that they have completed the necessary internal legal procedures and on such date or dates as may be agreed between them.

A Party may at any time accelerate unilaterally the elimination of customs duties on originating goods of the other Party set out in its Tariff Schedule. A Party considering doing so shall inform the other Party as early as practicable before the new rate of customs duties takes effect.

Article 2.5

Administrative Fees And Formalities

Each Party shall ensure, in accordance with Article VIII.1 of GATT 1994, that all fees and charges of whatever character (other than customs duties, charges equivalent to an internal tax or other internal charge applied consistently with Article III.2 of GATT 1994, and anti-dumping and countervailing duties) imposed on or in connection with import or export are limited in amount to the approximate cost of services rendered and do not represent an indirect protection to domestic goods or a taxation on imports or exports for fiscal purposes.

Article 2.6

Agricultural Export Subsidies

For the purposes of this Article, agricultural goods means those products listed in Annex 1 of the *WTO Agreement on Agriculture*.

The Parties share the objective of the multilateral elimination of all forms of export subsidies for agricultural goods and shall work towards an agreement in the WTO to eliminate those subsidies and prevent the introduction in any form of any new export subsidies for agricultural goods.

Recognising the trade-distorting nature of export subsidies and consistent with their rights and obligations under the *WTO Agreement on Agriculture*, neither Party shall introduce or maintain any form of export subsidy on any agricultural good destined for the territory of the other Party.

If a Party believes that a policy or measure implemented by the other Party has the effect of providing an export subsidy on any agricultural good exported to that Party, it may request consultations with the aim of preventing such subsidisation occurring on trade between the Parties.

Article 2.7

Non-Tariff Measures

A Party shall not adopt or maintain any non-tariff measures on the importation of any good of the other Party or on the exportation of any good destined for the territory of the other Party except in accordance with its WTO rights and obligations or in accordance with other provisions of this Agreement.

satisfy the requirements of Annex 2 to this Agreement as a result of processes performed entirely in the territory of one or both of the Parties and the goods did not enter the commerce of a non-party after export from the first Party and before import into the other Party.

15. Originating materials from the territory of a Party, used in the production of particular goods in the territory of the other Party, shall be considered to originate in the territory of the Party in which the production is performed.

16. Particular goods which do not satisfy a change in tariff classification required pursuant to Annex 2 are nonetheless originating goods if:

- (a) the value of non-originating materials used in the production of the goods that do not undergo the required change in tariff classification does not exceed 10 percent of the FOB value of the goods; and
- (b) the goods meet all other applicable criteria of this Article.

17. Except where goods are subject to a regional value content requirement pursuant to Annex 2, goods produced by minimal operations or processes shall not be treated as originating goods even where those minimal processes or operations meet the change in tariff classification requirements of Annex 2.

18. Accessories, spare parts, or tools delivered with originating goods that form part of the standard accessories, spare parts, or tools for those goods, shall be treated as originating goods and shall be disregarded in determining whether or not all the non-originating materials used in the production of the originating goods undergo the applicable change in tariff classification, provided that:

- (a) the accessories, spare parts, or tools are not invoiced separately from the originating goods;
- (b) the quantities and value of the accessories, spare parts, or tools are customary for the originating goods; and
- (c) if the goods are subject to a regional value content requirement, the value of the accessories, spare parts, or tools shall be taken into account as originating or non-originating materials, as the case may be, in calculating the regional value content of the goods.

19. Paragraph 5 does not apply where the accessories, spare parts, or tools have been added solely for the purpose of artificially raising the regional value content of the goods.

20. The determination of whether fungible goods or materials are originating goods shall be made either by physical separation of each of the goods or materials or through the use of any inventory management method, such as averaging, last-in, first-out, or first-in, first-out, recognised in the generally accepted accounting principles of the Party in which the production is performed or otherwise accepted by the Party in which the production is performed.

21. An inventory management method selected under Paragraph 7 for a particular fungible good or materials shall continue to be used for those fungible goods or materials throughout the fiscal year of the producer that selected the inventory management method.

22. Packaging materials and containers in which goods are packaged for retail sale, if classified with those goods, shall be disregarded in determining whether all the non-originating materials used

in the production of those goods have undergone the applicable change in tariff classification set out in Annex 2. However if the goods are subject to a regional value content requirement, the value of the packaging used for retail sale will be counted as originating or non originating, as the case may be, in calculating a regional value content.

23. Packaging materials and containers in which the goods are packaged for shipment shall be disregarded in determining the origin of the good.

Regional Value Content

1. Subject to Paragraphs 2 and 3 of this Article, where Annex 2 requires goods to have a regional value content, the regional value content of particular goods shall be calculated as follows:

3. Each Party shall provide that, for the purposes of calculating regional value content, the importer may use a calculation averaged over the producer’s fiscal year.

Article 4.4

Recording Of Costs

For the purposes of this Chapter all costs shall be recorded and maintained in accordance with the generally accepted accounting principles applicable in the territory of the Party in which the goods are produced or manufactured.

Article 4.5

Treatment Of Goods For Which Preference Is Claimed

1. Each Party may require a declaration as to the origin of a good from the exporter, or producer, or other competent person, public or private body for a good for which preferential tariff treatment is claimed. The declaration shall specify on the face of the invoice or any other document issued in

respect of the good that the goods enumerated thereon are the origin of the exporting Party and meet the terms of this Chapter.

2. Nothing in Paragraph 1 of this Article shall be construed to require a producer who is not the exporter of the good to make a declaration as to the origin of the good.

3. Where a declaration is required in accordance with Paragraph 1, a Party shall provide that where an exporter is not the producer of the good, the exporter, or other competent person, public or private body may complete and sign a declaration as to the origin of a good on the basis of:

- (a) specific knowledge that the good qualifies as an originating good; or
- (b) a reasonable reliance on the producer's written representation that the good qualifies as an originating good.

4. The importing Party shall grant preferential tariff treatment to goods imported into its territory from the other Party only in cases where an importer claiming preferential tariff treatment:

- (a) provides a declaration as to the origin of the good pursuant to Paragraph 1 of this Article; or
- (b) provides sufficient documentary or other evidence to substantiate the origin of the goods.

5. When the customs administration of the importing Party has reasonable doubt as to the authenticity or accuracy of the declaration or other evidence as to the origin of goods, the importing Party may, in accordance with its national legislation, request additional evidence to verify the preference claimed. Such evidence may include accounting data in verification of Articles 4.2 and 4.3 of this Chapter, or such other evidence as may be required to establish the bona fides of the import declaration. In the absence of such evidence the customs administration of the importing Party may require payment of duties at non-preferential tariff rates or the deposit of a security or cash deposit equivalent to the amount of duties, taxes and charges that would be payable on the goods if preferential tariff treatment did not apply.

6. Each Party shall provide that, where a good would have qualified as an originating good when it was imported into the territory of that Party but no claim for preferential tariff treatment was made at that time, the importer may, in accordance with the national legislation of the importing Party, apply for a refund of any duties paid on presentation of:

- (a) a declaration as to the origin of the good in accordance with this Article; and
- (b) such other evidence in support of the declaration as may be required.

7. In accordance with its laws, regulations and policies, the importing Party may not require a declaration for:

- (a) commercial and non-commercial importations which do not exceed a specified value as determined by the importing Party; or
- (b) any good for which a Party has waived the requirement for a declaration.

Article 4.6

Records

Each Party shall require that:

- (b) an importer claiming preferential tariff treatment for a good shall, in accordance with national legislation, maintain in the importing Party's territory all documents relating to the importation of that good, including a copy of the declaration as to origin made in accordance with Article 4.5 of this Chapter.

Article 4.7

Verification Of Origin

1. For the purposes of determining whether a good imported into its territory from the territory of the other Party qualifies as an originating good, the importing Party may, through its customs administration, conduct a verification of eligibility for preferential tariff treatment by means of:

- (a) requests for information addressed to the importer;
- (b) written questions and requests for information addressed to an exporter or producer in the territory of the other Party;
- (c) visits to the premises of an exporter or producer in the territory of the other Party to review the records referred to in Article 4.6 and to observe the facilities used in the production of the good;
- (d) requests to the exporting Party to verify the origin of the good; or
- (e) such other procedures as the Parties may agree.

2. Where a request is made by the importing Party to the exporting Party to verify the origin of the good:

- (a) such request shall only be made if the customs value for duty is sufficiently material to warrant the request;
- (b) the request shall be accompanied by sufficient information to identify the good about which the request was made;
- (c) the exporting Party shall, within 90 days of receiving the request, advise the importing Party as to the origin of the good about which the request was made; and
- (d) any costs incurred by the exporting Party in meeting the request to verify the origin of the good shall be mutually determined by the Parties.

3. Prior to conducting a verification visit pursuant to Sub-paragraph 1(c) of this Article the importing Party shall:

- (a) deliver a written notification of its intention to conduct the visit to:
 - (i) the exporter or producer whose premises are to be visited; and

2. The importing Party may deny preferential tariff treatment to an imported good or recover unpaid duties where:
 - (a) the goods do not or did not meet the requirements of this Chapter;
 - (b) the producer, exporter or importer of the goods fails to comply with any of the relevant requirements of this Chapter for obtaining preferential tariff treatment; or
 - (c) action taken under Article 4.7 failed to verify the eligibility of the goods for preferential tariff treatment.

CHAPTER 5: TRADE REMEDIES

PART I: GENERAL TRADE REMEDIES

Article 5.1

Anti-Dumping Measures

1. Each Party retains its rights and obligations under the *WTO Agreement on Implementation of Article VI of GATT 1994*.
2. Before either Party applies anti-dumping measures against imports originating from the other Party, the Party initiating the action will be mindful of the provisions relating to constructive remedies under Article 15 of the *WTO Agreement on Implementation of Article VI of the GATT 1994*.

Article 5.2

Subsidies And Countervailing Measures

Each Party retains its rights and obligations under the *WTO Agreement on Subsidies and Countervailing Measures*.

Article 5.3

Global Safeguards

1. Each Party retains its rights and obligations under Article XIX of GATT 1994 and the WTO *Agreement on Safeguards* and any other relevant provisions in the WTO Agreement.

2. This Agreement does not confer any additional rights or obligations on the Parties with regard to such global safeguard measures, except that a Party taking such a measure may exclude imports of an originating good of the other Party from the action if such imports are not a cause of serious injury or threat thereof.

PART II: BILATERAL SAFEGUARDS

Article 5.4

Safeguard Definitions

For purposes of this Part:

- (a) **“base rate”** means the rate of customs duty for an imported good as indicated in the Tariff Schedule of the importing Party in Annex 1;
- (b) **“domestic industry”** means, with respect to an imported good, the producers as a whole of the like or directly competitive good or those producers whose collective production of the like or directly competitive good constitutes a major proportion of the total domestic production of such good;
- (c) **“preferential tariff rate”** means the rate of customs duty for an imported good pursuant to Article 2.3 of Chapter 2 of this Agreement;
- (d) **“provisional measure”** means a provisional safeguard measure described in Article 5.8;

- (f) **“special safeguard measure”** means a special safeguard measure described in Article 5.11;
- (g) **“serious injury”** means a significant overall impairment in the position of a domestic industry;
- (h) **“transition period”**, in relation to a particular good, means the period from the entry into force of this Agreement until the date on which the customs duty on that good is to be eliminated in accordance with Annex 1.

Article 5.5

Application Of A Transitional Safeguard Measure

If, as a result of the reduction or elimination of a customs duty pursuant to this Agreement, an originating good of a Party is being imported into the other Party’s territory in such increased quantities, in absolute terms or relative to domestic production, and under such conditions as to cause or threaten to cause serious injury to a domestic industry producing a like or directly competitive good, the other Party may, to the minimum extent necessary to prevent or remedy serious injury and facilitate adjustment, apply a safeguard measure, consisting of:

- (a) the suspension of the further reduction of any rate of customs duty provided for under this Agreement on the good from the date on which the action to apply the safeguard measure is taken; or
- (b) an increase of the rate of customs duty on the good to a level not to exceed the lesser of:
 - (i) the most-favoured-nation (MFN) applied rate of customs duty in effect on the date on which the action to apply the safeguard measure is taken; or
 - (ii) the MFN applied rate of customs duty in effect on the day immediately preceding the date of entry into force of this Agreement; or
 - (iii) for a new safeguard measure applied from 1 January 2009 or beyond, the preferential tariff rate in effect under this Agreement on the day four years preceding the date on which the action to apply the safeguard measure is taken.

Article 5.6

Scope And Duration Of Transitional Safeguard Measures

1. A Party shall apply a safeguard measure only for such period of time as may be necessary to prevent or remedy serious injury and to facilitate adjustment. A Party may apply a safeguard measure for an initial period of no longer than two years. The period of a safeguard measure may be extended by up to one year provided that the conditions of this Chapter are met and that the safeguard measure continues to be applied to the minimum extent necessary to prevent or remedy serious injury and that there is evidence that the industry is adjusting. The total period of a safeguard measure, including any extensions thereof, shall not exceed three years. Regardless of its duration or whether it has been subject to extension, a safeguard measure on a good shall terminate within two years following the end of the transition period for such good. No new safeguard measure may be applied to a good after that date.
2. In order to facilitate adjustment in a situation where the proposed duration of a safeguard measure is over one year, the Party applying the measure shall progressively liberalise it at regular intervals during the application of the measure, including at the time of any extension.
3. A Party shall not apply a safeguard or provisional measure again on the same good until three years have elapsed since the date of the termination of the earlier safeguard or provisional measure.
4. A Party may not apply a safeguard or provisional measure on a good that is subject to a measure that the Party has applied pursuant to Article XIX of GATT 1994 and the *WTO Agreement on Safeguards*, the *WTO Agreement on Textiles and Clothing*, or any other relevant provisions in the WTO Agreement, nor may a Party continue to maintain a safeguard or provisional measure on a good that becomes subject to a measure that the Party applies pursuant to Article XIX of GATT 1994 and the *WTO Agreement on Safeguards*, the *WTO Agreement on Textiles and Clothing*, or any other relevant provisions in the WTO Agreement.
5. A Party may not apply a safeguard measure to any good indicated by the letters SSG in its Tariff Schedule set out in Annex 1 nor to any good listed in Annex 1.3 which is subject to a tariff quota.

6. On the termination of a safeguard measure, the Party that applied the measure shall apply the rate of customs duty set out in its Tariff Schedule as specified in Annex 1 on the date of termination as if the safeguard measure had never been applied.

Article 5.7

Investigation

1. A Party may apply or extend a safeguard measure only following an investigation by the Party's competent authorities to examine the effect of increased imports of an originating good of the other Party on the domestic industry, as reflected in changes in such relevant economic variables as production, productivity, levels of sales, utilisation of capacity, inventories, market share, exports, wages, employment, domestic prices, profits and investment, none of which is necessarily decisive. When factors other than increased imports of an originating good of the other Party resulting from the reduction or elimination of a customs duty pursuant to this Agreement are simultaneously causing injury to the domestic industry, such injury shall not be attributed to such increased imports.

2. An investigation under Paragraph 1 shall only take place pursuant to procedures previously established and made public in consonance with Chapter 14 of this Agreement. The investigation shall include reasonable public notice to all interested parties and public hearings or other appropriate means in which importers, exporters and other interested parties could present evidence and their views, including the opportunity to respond to the presentations of other parties and to submit their views, *inter alia*, as to whether or not the application of a safeguard measure would be in the public interest. An investigation shall be completed expeditiously. Upon completion of an investigation, the competent authorities shall promptly publish a report setting forth their findings and reasoned conclusions reached on all pertinent issues of fact and law.

3. Any information which is by nature confidential or which is provided on a confidential basis shall, upon cause being shown, be treated as such by the competent authorities. Such information shall not be disclosed without permission of the party submitting it. Parties providing confidential information may be requested to furnish non-confidential summaries thereof or, if such parties indicate that such information cannot be summarised, the reasons why a summary cannot be provided. However, if the competent authorities find that a request for confidentiality is not warranted and if the party concerned is either unwilling to make the information public or to authorise its disclosure in generalised or summary form, the authorities may disregard such information unless it can be demonstrated to their satisfaction from appropriate sources that the information is correct.

Article 5.8

Provisional Measures

1. In highly unusual and critical circumstances where delay would cause injury which would be difficult to repair, a Party may apply a provisional safeguard measure pursuant to a preliminary determination that there is clear evidence that increased imports of an originating good of the other Party as a result of the reduction or elimination of a duty pursuant to this Agreement have caused or are threatening to cause serious injury. The duration of such a provisional measure shall not exceed 120 days, during which period the pertinent requirements of Articles 5.5, 5.6, and 5.7 shall be met. The duration of any such provisional measure shall be counted as part of the total period referred to in Article 5.6 (1). Any additional customs duties collected as a result of such a provisional measure shall be promptly refunded if the subsequent investigation referred to in Article 5.7 (1) does not determine that increased imports of an originating good of the other Party have caused or threatened to cause serious injury to a domestic industry. In such a case, the Party that applied the measure shall apply the rate of customs duty set out in its Tariff Schedule as specified in Annex 1 as if the provisional measure had never applied.

2. In determining whether such highly unusual and critical circumstances exist, a Party shall have regard to the rate of increase of imports of an originating good of the other Party, both in absolute and relative terms, and the overall level of the Party's imports of the good from the other Party as a share of total imports of the good, as a result of the reduction or elimination of a duty on the good pursuant to this Agreement.

Article 5.9

Notification And Consultation

1. A Party shall promptly notify the other Party, in writing, on:
 - (a) initiating an investigation under Article 5.7;
 - (b) making a finding of serious injury or threat thereof caused by increased imports of an originating good of the other Party as a result of the reduction or elimination of a customs duty on the good pursuant to this Agreement;
 - (c) taking a decision to apply or extend a safeguard measure, or to apply a provisional measure; and
 - (d) taking a decision to progressively liberalise a safeguard measure previously applied.
2. A Party shall provide to the other Party a copy of the public version of the report of its competent authorities required under Article 5.7 immediately as it is available.
3. In making a notification pursuant to Paragraph 1, the Party applying or extending a safeguard measure shall also provide evidence of serious injury or threat thereof caused by increased imports of an originating good of the other Party as a result of the reduction or elimination of a customs duty pursuant to this Agreement, a precise description of the good involved, the details of the proposed measure including as appropriate the grounds for not selecting the measure described in Article 5.5 (a), the date of introduction, duration, and timetable for progressive liberalisation of the measure, if such timetable is applicable. In the case of an extension of a measure, evidence that the domestic industry concerned is adjusting shall also be provided. Upon request, the Party applying or extending a safeguard measure shall provide additional information as the other Party may consider necessary.
4. A Party proposing to apply or extend a safeguard measure shall provide adequate opportunity for prior consultations with the other Party, with a view to, *inter alia*, reviewing the information provided under Paragraph 3, exchanging views on the measure and reaching an agreement on compensation as set forth in Article 5.10 (1).
5. Where a Party applies a provisional measure referred to in Article 5.8, on request of the other Party, consultations shall be initiated immediately after such application.
6. The provisions on notification in this Chapter shall not require a Party to disclose confidential information the disclosure of which would impede law enforcement or otherwise be contrary to the public interest or would prejudice the legitimate commercial interests of particular enterprises, public or private.

Article 5.10

Compensation

1. A Party extending a safeguard measure for an overall period beyond two years shall, in consultation with the other Party, provide to the other Party mutually agreed trade liberalising

compensation in the form of substantially equivalent concessions during the period of extension of the measure beyond the aforementioned two years. Such consultations shall begin within 30 days of the decision to extend the measure and, in accordance with Article 5.9 (4), shall take place prior to the extension.

2. If the Parties are unable to reach agreement on compensation within 30 days after the consultations commence, the exporting Party shall be free to suspend the application of substantially equivalent concessions to the trade of the Party extending the safeguard measure.

3. A Party shall notify the other Party in writing at least 30 days before suspending concessions under Paragraph 2.

4. The obligation to provide compensation under Paragraph 1 and the right to suspend substantially equivalent concessions under Paragraph 2 shall terminate on the date of the termination of the safeguard measure.

Article 5.11

Special Agricultural Safeguard Measures

1. A Party may, in exceptional circumstances, apply a special safeguard measure to a limited number of specified sensitive agricultural goods as indicated by the letters SSG in its Tariff Schedule set out in Annex 1.

2. The Parties shall endeavour to apply special safeguard measures in a manner that is consistent with their commitments under this Agreement to liberalise and promote the expansion of trade in these goods between the Parties.

3. A Party may impose a special safeguard measure on a good only during the period set out in Annex 3 for that good.

4. Such a special safeguard measure may be applied to imports of an agricultural good listed in Annex 3 if the volume of imports of that originating good of the other Party entering the customs territory of the Party during any given calendar year exceeds the specified volume trigger level for that year. The applicable trigger levels are set out in Annex 3.

5. If the conditions in Paragraph 4 are met, a Party may increase the rate of customs duty applicable to the good for the remainder of that calendar year through the application of customs duty on such good at the current MFN applied rate or the base rate, whichever is lower.

6. Supplies of the good in question which were *en route* on the basis of a contract settled before the additional customs duty is imposed under the terms of this Article shall be exempted from any such additional customs duty, provided that they may be counted in the volume of imports of the good in question during the following year for the purposes of triggering the provisions of Paragraph 4 in that year.

7. A Party shall apply any special safeguard measure in a transparent manner. A Party shall ensure that the current volume of imports is published in a manner which is readily accessible to traders and the other Party. A Party applying a special safeguard measure shall give notice in writing, including relevant data, to the other Party as far in advance as may be practicable and in any event within 10 working days of the implementation of such action. A Party which decides not to apply a special safeguard measure where the specified trigger volume has been or is about to be met, shall notify the other Party promptly of its decision.

8. Upon request of a Party, the Parties shall consult promptly and cooperate in exchanging information, as appropriate, with respect to the conditions for applying a special safeguard measure.

9. A Party may not apply a special safeguard measure on a good that is subject to a measure that the Party has applied pursuant to Article XIX of GATT 1994 and the *WTO Agreement on Safeguards*, or any other relevant provisions in the *WTO Agreement*, or to a measure set forth in Articles 5.5 to 5.10, nor may a Party continue to maintain a special safeguard measure on a good that becomes subject to a measure that the Party applies pursuant to Article XIX of GATT 1994 and the *WTO Agreement on Safeguards*, or any other relevant provisions in the *WTO Agreement*, or to any measure set forth in Articles 5.5 to 5.10.

10. No later than three years following the entry into force of this Agreement, the Parties shall review the operation of this Article, including the appropriateness of the list of products set out in Annex 3 and the trigger levels, including the growth factors set out in Annex 3. The review shall take into account relevant international, regional and bilateral trade developments.

11. In the event that a Party enters into an agreement or an arrangement with a non-Party following the entry into force of this Agreement that does not provide for special safeguard measures on a good or goods covered in the relevant section of Annex 3 of this Agreement, and where the non-Party is a substantial supplier of the good or goods, the Parties shall, by mutual consent, enter into consultations on the scope for that good or those goods to be withdrawn from Annex 3.

The Parties shall take due account of any information provided through such consultations.

Article 6.7

Situations Of Non-Compliance

The Parties shall cooperate where there is a notification of non-compliance of imported consignments for products subject to SPS measures or food standard requirements, drawing on the guidelines of relevant international organisations where available. In particular, where such non-compliance arises, the importing Party shall notify as soon as possible the exporting Party of the consignment details. Unless specifically required by its laws, regulations or policies, the importing Party shall avoid suspending trade based on one shipment, but in the first instance shall contact the exporting Party to ascertain how the problem has occurred. The Parties shall consult on what remedial action might be taken by the exporting Party to ensure that further shipments are not affected.

- (b) to complement bilateral agreements and arrangements between the Parties relating to technical regulations; and
- (c) to build on the mutual recognition arrangements developed by international and regional organisations including APEC.

6. The Parties affirm their intention to adopt and to apply, with such modifications as may be necessary, the principles set out in the *APEC Information Notes on Good Regulatory Practice in Technical Regulation* with respect to conformity assessment and approval procedures in meeting their international obligations under the TBT Agreement.

2. Each Party shall give positive consideration to accepting as equivalent technical regulations of the other Party, even if these regulations differ from its own, provided that it is satisfied that these regulations adequately fulfil the objectives of its own regulations.

3. A Party shall, upon the request of the other Party, explain the reasons why it has not accepted a technical regulation of the other Party as equivalent to its own.

4. The Parties may cooperate with each other in the context of their participation in international standardising bodies to ensure that international standards developed within such organisations that are likely to become a basis for technical regulations are trade facilitating and do not create unnecessary obstacles to international trade.

Article 7.6

Conformity Assessment Procedures

1. The Parties shall, recognising the existence of differences in the structure, organisation and operation of conformity assessment procedures in their respective territories, make compatible those procedures to the greatest extent practicable.

2. The Parties recognise that a broad range of mechanisms exist to facilitate the acceptance of the results of conformity assessment procedures.

3. Each Party shall, wherever possible, accept the results of a conformity assessment procedure conducted in the territory of the other Party, provided that it is satisfied that the procedure offers an assurance, equivalent to that provided by a procedure it conducts or a procedure conducted in its territory the results of which it accepts, that the relevant good complies with the applicable technical regulation or standard adopted or maintained in the Party's territory.

4. Before accepting the results of a conformity assessment procedure, and to enhance confidence in the continued reliability of each other's conformity assessment results, the Parties may consult, as

appropriate, on such matters as the technical competence of the conformity assessment bodies involved.

5. A Party shall, on the request of the other Party, explain its reasons where it does not accept the results of a conformity assessment procedure conducted in the territory of the other Party.
6. A Party shall, on the request of the other Party, take such reasonable measures as may be available to it to facilitate access in its territory for conducting conformity assessment procedures.

Security Exceptions

Compensation and any alternative arrangement are temporary measures, neither of which is preferred to full implementation of the original award.

the Party which requested the establishment of an arbitral tribunal may at any time thereafter provide written notice to the other Party that it intends to suspend the application of benefits of equivalent effect to the non-conformity found by the tribunal. The notice shall specify the level of benefits that the Party proposes to suspend. The Party which requested the establishment of an arbitral tribunal may begin suspending benefits 30 days after the date on which it provides notice to the other Party.

The Party complained against shall deliver its request in writing to the other Party. The tribunal shall reconvene within 30 days after delivery of the request to the other Party and shall present its determination to the Parties within 90 days after it reconvenes. If the tribunal determines that the level of benefits proposed to be or actually suspended is excessive, it shall determine the level of benefits it considers to be of equivalent effect to the non-conformity found by the tribunal, adjusted to reflect any loss sustained by a Party as a result of excessive suspension.

4. The tribunal's award under Paragraph 3 shall be final and binding on the Parties.
